Introduction

Basic Wizardry

There are two basic mana-using classes: Wizards and Warlocks.

Wizards come in a variety of shapes and sizes, and there are various different styles of wizard within the game. Some are friendly and helpful, always willing to protect you from the enemies' magic, while others prefer to use their spells to destroy their enemies with massive attacks of lightning or fire, and some look to enhance their own chances of survival by casting potent defensive magic upon themselves.

Warlocks are martial wizards who always choose the offensive option and are rewarded in this by being stronger and more potent in melee. Their preferred weapon is the Bastard Sword, with which they often like to recklessly enter into fights.

Often a Wizard's or Warlock's magical colour, or school of magic, dictates their behaviour. Each colour is limited by an alignment choice.

Magic Colours

Each mana user, unless otherwise specified, is aligned to one particular element and must follow the correct alignment for that colour. Elven / Drave users must be of a specific colour for their race. Faerie mana users may be of any starting colour. Neither may hold a wizard colour in opposition to any of their innate racial colours.

Element	Colour	Alignment	Elven Wizard
Fire	Red	Any Chaotic & NN	Fire Elf
Air	Blue	Any Lawful & NN	Air Elf
Earth	Brown	Any Neutral	Earth Elf & Wood Elf
Water	Green	Any Goodly	Aquatic Elf & Wood Elf
Light	White	Any Goodly	Light Elf & Winter Elf
Darkness	Black	Any Evil	Dark Elf & Drowe
Twilight	Grey	Any Alignment	Twilight Elf

Wizard

Level	Life	Mana	Wizard Skills	Weapon Skills (Max AC = 6)
1	24 / 7	2	Recognise mana	May learn 1 of dagger, spear or staff O skill
2	25 / 8	6	Read glyphs	
3	26 / 9	12		
4	27 / 9	20		May learn 1 of dagger, spear or staff
5	28 / 10	30		
6	29 / 10	42	Make scrolls	May learn 1 of dagger, spear or staff
7	30 / 11	56	Specialist skill	
8	32 / 12	72	Specialist skill	

Spears and staffs can be held in two hands but will only deliver single damage.

Human life scale is above. For other races, and for information on which races can be wizards, please refer to the summary section at the end of this book.

Wizards have the ability to wear light and medium armour, however as per the section on Metal Allowance below, generally they will wear no more than stiff leather armour. Wizards do not have the skill to use a shield, but may acquire it, and the ability to wear heavy armour, later.

Metal Allowance

Wizards may carry only two non-magical metallic items; each may be no bigger than a dagger. If they carry more they are unable to use their magical abilities at all. Note: Elven enchanted items do not count as magical items. Buckles, eyelets and ornaments such as jewellery are generally exempt from this rule.

Recognise Mana

This allows the wizard to discern if an item is magical or not. It has a 1" range, and allows the user to identify magic in any creature or object. If the target has a specific spell or spells present upon it, an exact mana level will be given in reply, and whether the magic is currently active or not. In the case of innately magical objects, such as a magical sword or a wizard, these are considered to be "Artefact Level", indicating that their magic is strong but not a fixed quantity as a spell is.

Read Glyphs

This skill allows the wizard to read glyphs, cast spells off scrolls and recognise spell glyphs. It also allows the wizard to make use of Teaching Scrolls.

Make Scrolls

This skill allows the wizard to make scrolls of a magical nature. Please refer to the section later in this book for Magical Manufacturing.

7th Level and 8th Specialist Skill

These allow the wizard to engage in the dangerous process of crafting magical items, or writing teaching scrolls. Details of this can be found in *The Manufacturers' Guide*, available for download from the Labyrinth website.

Learning Spells

A wizard may learn the following spells only:

1. All spells of his own colour.
2. All grey spells.
3. A maximum of five spells total of other standard spells from other colours, called 'specialist glyphs'. These cannot be purchased for grulls, and may only be acquired from teaching scrolls or the teachings of powerful wizards. Multiple runes (see Stackable Glyphs on page 8) of the same spell only fill one specialist slot.
4. Wizards may not learn spells of the colour opposite to their own.
5. It is only possible for a wizard to purchase spells of his own colour, or grey, from the Desk, and only when preparing for an adventure.

Wizards automatically start their adventuring career with all spells of their colour and grey upto 4th level.

As they progress in casting levels they automatically gain their own plus grey glyphs of that level. Such that a 6th level Red Wizard would possess all Grey and Red spells to 6th level. Should they wish to acquire standard glyphs above their casting level, the grull cost will be the level of the new spell squared, multiplied by 10, to be purchased from the Desk. Thus, an 8th level spell would cost the Wizard $8 \times 8 = 64 \times 10 = 640$ grulls.

A player can elect to be a grey wizard, in which case he can only buy grey spells from the desk. Should they ever be lucky enough, a grey wizard can learn up to 3 spells of each other Elemental colour.

Wizards take x2 casting damage for learning a spell, and may not use non-permanent casting levels (e.g. through a Magical Focus) or life-points to achieve it. This means that learning a spell much higher than your wizard level may kill you outright, and should be avoided!

Once the spell glyph is learnt or bought, it can be re-used *ad infinitum*, provided the wizard has enough mana and life points. Only the wizard that bought the spell glyph can benefit from it, as purchase includes training in the use of the spell.

To cast a spell of mana level "X" the wizard must expend "X" mana points. The wizard will start an adventure with a maximum of (wizard's level squared) + (wizard's level) mana points.

Once acquired, a wizard's glyphs become part of the Wizard. Their presence is detectable by spells that detect magic. They do not lose their power on the death of the wizard, but do become useless on his permanent death and may not be used by his rebirth. Glyphs are not usable by anyone other than the character who learnt them originally and cannot under normal circumstances be removed from their owner by any means.

Spell Casting

Wizards take damage from casting spells dependant on the level of the spell and their own casting level. This includes casting spells from scrolls.

Spell Level	TBLP Damage
Two Levels below that of the caster	1
One level below that of the caster	4
The same level as that of the caster	9
One level above that of the caster	16
Two levels above that of the caster	25
Three levels above that of the caster	36
Four levels above that of the caster	49
Five levels above that of the caster	64

For Example: If a 5th level wizard casts a 7th level spell he suffers 25 points of damage (and would suffer 50 points of damage when learning it, almost certainly killing him).

To cast a spell successfully a wizard must:

- (a) Have the Spell Glyph.
- (b) Have sufficient mana points and TBLP remaining.
- (c) Pronounce the spell verbals correctly and audibly.
- (d) Indicate the target by pointing or touching (if the spell requires it).

Should one or more of the above cases not be fulfilled then:

For (a) being incorrect the wizard dies and nothing happens, (b) not to be correct then the wizard dies, but the spell happens.

For (c) or (d) not to be correct then the spell fails and the mana and life points are lost.

Post 8th Development

Wizards develop post 8th as 1st Class Wizard.

Warlock

Level	Life	Mana	Warlock Skills	Weapon Skills (Max AC = 8)
1	27/9	1	Recognise mana	O and U Skill
2	30/10	3	Read glyphs	E Skill
3	33/11	6		B Skill
4	36/12	10		
5	39/13	15		
6	42/14	21		Specialist Skill
7	45/15	28		Specialist Skill
8	47/16	36		Specialist Skill

Note there are several changes to Warlock below.

Warlocks may only cast spells that are used to assist in combat. This now includes defensive spells (such as plate self).

For example it is acceptable to cast Blink in order to catch up with a fleeing Goblin but not to cross a fast-flowing river.

Human life scales are used above. For other races, and for information on which races can be Warlocks, please refer to *Appendix I: Life Scales and Possible Combinations*, and *Appendix II: Multi Classing Warlock*, towards the back of this book.

Warlocks, like Wizards, must choose a Magical Colour. However, they do not gain access to grey spells as a normal wizard does (unless grey is their colour, of course). In addition to this, Warlocks are able to learn up to 3 specialist spells, all of which must be combat related, and could be grey. If a Grey Warlock, then they may learn 1 offensive specialist of each Elemental colour.

Warlocks take damage from casting their spells as per Wizard, and gain access to all standard spells of their own colour.

Read Glyphs is as Wizard, except that Warlocks can only activate combat-related scrolls. Teaching Scrolls for combat related glyphs can now be freely used without requiring an extra ability.

Warlocks are allowed to wear any armour; however they have metal restrictions, as below.

A Warlock's metal allowance is 1 'B' class weapon's worth of metal, or a suit of studded leather and a dagger.

Warlock Specialist Skills

At 6th, 7th and 8th level the Warlock may choose a specialist skill from the following list:

Warlock Specialists
+6/2 Stamina
Weapon Mastery
Unarmed Combat
Proficiency
Metal Resistance
Chosen of the Dragon

Weapon Mastery

By means of training and practice the warlock may become more skilled with any one specific weapon, e.g. Broadsword, Handmace, Battleaxe, Bastard Sword, Spear, etc. This mastery means that one grade of damage is added to the normal base damage done by a weapon of this type. Any weapon usable by the warrior may be chosen, including 'B' class weapons.

Unarmed Combat

This skill allows the Warlock to do damage per blow with their hands as if they were O-class weapons (and not any other part of his body). It is only necessary to gently touch the opponent. Anything stronger is unsafe and must be avoided.

+6/2 Stamina

By means of rigorous exercise and training the warlock may become "super fit", giving him an extra 6 total body life points, and an extra 2 life points per location. It does not however increase his level for resisting magic or spirits. This skill may only be taken once by a character.

Proficiency

This skill grants the warlock an additional level in the casting of combat related glyphs only. This is cumulative with the post-8th tables skill of Casting Level I.

Metal Resistance

This skill increases the Warlock's metal allowance to permit up to studded leather and two 'o' class weapons, or studded leather and one 'B' class weapon.

Chosen of the Dragon

This ability grants the warlock +2 Dexterity Armour Class (DAC), in a similar manner to a Bless. As such, it does not stack with any other form of Bless, Chosen, Watching or similar. This is a magical ability.

Post 8th Development

Once 8th level the Warlock can buy / learn magical abilities as per Warlock, and Warrior abilities as per 2nd Class Warrior. They may learn Warrior Subclass abilities. Warlocks are in both the Wizard bracket and the Warrior bracket.

General Magical Rules

The rules below apply to all mana users. Where the word Wizard is used it refers to a 'mana using class'.

Magical Meditation

Mana is normally regained at the rate of 1 point per 15 minutes of meditation or sleep, or at the rate of 7 points per full hour of meditation or sleep. Additionally, all mana points are regained after a good night's rest. Meditation requires a character to sit or lie motionless, completely unaware of their surroundings. A wizard may engage in prayers to their dragon, chanting, or similar activity. They will only be woken when they have regained sufficient power, when they suffer damage, or if physically disturbed, such as by shaking them.

Elementals

Wizards are sometimes called Elementalists as they specialise in the manipulation of the elements. One of the most useful forms of this manipulation is in the summoning of Elementals, creatures constructed purely from one element. There are six types of elemental, each drawn from one of the six elements: Shades (Darkness), Sprites (Light), Sylphs (Air), Gnomes (Earth), Salamanders (Fire) and Undines (Water). All elementals have similar statistics, regardless of their element.

Elemental Shift: Elementals are able to shift between locations where sufficient quantities of their own element is present. E.g. a Sylph can Air Shift (at will). The elemental may instantaneously disappear from one location and reappear somewhere else. When the elemental reappears it suffers a two-second disorientation period, during which it cannot move at all, but can take damage.

Elemental Sight: Elementals perceive everything as being made of: their element, their opposite element, all other elements, or magical. These are the only four ways they can perceive. Hence elementals cannot read. E.g. To a Sylph, ink letters on paper are just water on earth and water.

Talk To Elemental Spell: It is not possible to listen to an elemental's conversation unless the relevant Talk to Elemental Spell is cast. Elementals can, however, understand simple commands. Additionally, it is not necessary to have summoned an elemental to make use of these spells as the wizard can talk directly to the elementals that inhabit the element being questioned. Different elementals have differing memories as detailed in the relevant Talk to Elemental spell.

Elemental Resistances: Elementals have a resistance level equal to their Mana Level minus 2. E.g. a Gnome '6' has 4th level Resistances. This means that higher level elementals can be quite potent in terms of resisting effects.

Elementals cannot pick up anything. The caster may control only one elemental at a time. An uncontrolled elemental attacks its summoner. If two elementals touch, regardless of their type, they are both cancelled, some powerful Elementals may only be negated by equally potent Elementals. You do not need any of the relevant element to summon an elemental. They come from the relevant elemental planes.

In keeping with in-character development the elementals may now be called Child, Prince or Lord, especially in reference to the writing of scrolls. So instead of stating "Summon Elemental 6" it is acceptable to state "Summon Elemental Child".

When summoned, elementals may appear up to 20' away from the summoner.

Stackable Glyphs

Certain spells may be described as Stackable Glyphs. Stackable glyphs, regardless of their effect, all work in the following similar way. By casting a stackable glyph the wizard causes 1 target creature with not more than 4 levels of resistance to be affected. If more than one rune is owned, they can be cast simultaneously, paying the mana and life point cost for each glyph at the same time, without maximums.

No. Runes	Affects
1	4 levels
2	5 levels
3	6 levels
4	7 levels
5	8 levels
6	9 levels

For Example: If a 7th level wizard cast a 6 Mana Stackable Glyph, such as Silence, with three runes, it would use 18 mana and do him $3 \times 4 = 12$ life points of damage. The spell would Silence a target of 6th level or below. In order to negate a stackable spell that has taken effect all of the runes need to be removed (so passive dispels can reduce the spell's effectiveness). Until this is done the glyph remains active.

Expertise

For some time now the Towers of High Magery, who are responsible for the tutoring of Imperial Mages, have been developing new magical techniques. Each of the Towers developed Expertise in the casting of specific spells deemed to be of greatest use to the Adventuring Mercenary. Initially, the secrets of this Expertise were limited purely to those who devoted membership to the Tower and there were certain drawbacks to using them. However, with the passage of time and the gaining of experience, this Expertise has become widespread knowledge and is now usable by any Wizard subclass (warlocks, power-masters, etc) of the correct colour, regardless of their racial or geographical origin. If a caster does not have a specific colour then they cannot cast the spell with Expertise.

Every colour gets some benefit from Expertise - consult your own colour's spells to learn exactly how you benefit!

Spells can only be cast with Expertise by a caster of the same colour. E.g. a Red Warlock can cast Firebolt with Expertise, but could not cast his specialist of Lightning Bolt with Expertise. If a Wizard acquires a second colour post 8th, then he may cast spells of that 2nd colour with Expertise.

Opposites

Each colour of magic has its opposite colour, as listed below. It is not generally possible for a Wizard to cast a spell of his opposite colour, via any method, including scrolls or glyphs of power. Additionally, items or artefacts, which are specifically of the opposite colour of magic, may not be used.

Red (Fire) ↔ Green (Water)	Brown (Earth) ↔ Blue (Air)	White (Light) ↔ Black (Darkness)
Gold ↔ Bronze	Ivory ↔ Ebony	Jade ↔ Onyx

It should be noted that Grey and Silver do not have opposites.

Dispels

A spell can be dispelled by a Dispel Magic spell of the same level or higher.

E.g. Walk on Air (self) - 3 mana could not be countered with a Dispel 2, but Dispel 3, 4, 5, etc, would work.

A wizard may place a Dispel Magic upon himself. This lasts for 5 minutes and will trigger when a spell is cast at or on him. If this spell is less than or equal to the Dispel both are cancelled. If the spell is greater than the Dispel then it affects the wizard and the Dispel is cancelled. A cantrip will not trigger or penetrate a dispel.

1. Dispels may be cast onto items. E.g. a Dispel 1 will protect a sword from one Shatter Touch. However, a subsequent shatter would affect the sword. Dispels cast on items will last for 5 minutes or until triggered. Dispel Magic works on the specific spell it was cast upon, not any other spell the target may have up.
2. An elf can cast a passive Dispel upon themselves without triggering it. Similarly, a Dispel can be directed at an elf regardless of any spell he may have cast on him, but will be stopped by a passive dispel of the same level or higher.
3. A passive Dispel is always the outermost magical defensive layer. A passive Dispel Magic goes down if any non-cantrip spell is cast at the individual with the passive Dispel, even if the spell is Dispel Magic. If the incoming spell is of greater mana than the passive Dispel then the spell takes full effect and the passive Dispel is also dissipated.
4. If the incoming spell is of greater mana than the spell, it takes full effect and the passive Dispel dissipates.
5. In the case of stacked glyphs, each glyph must be dispelled separately and all the glyphs must be dispelled to remove an existing spell effect, such as the effects of the blue glyph Sleep.
6. Dispel Magic works on the specific spell it was cast on, i.e. a Dispel on a Plate (self) would destroy that particular Plate spell, not any other spell the target may have up, though a passive Dispel will 'intercept' and try to negate it.
7. Only one passive Dispel may be active on any person or object at a time. When casting Dispel Magic a wizard must include at the end of the vocal the name of the spell it is to effect, otherwise the target selects which is affected.

Flying

Certain spells allow the caster, or recipient, to "Fly". These include Walk on Air and Walk on Light. Since we cannot truly represent 3 dimensions, height is split into 3 categories:

- **"Ground"** – The Character is close to, but not in contact with, the ground. They are in range for weapon blows, spells, and the like as they are in the real world.
- **"Low"** – A Character is still not distant from the ground, but is beyond the range of melee weapons. At this height the characters real world distance is used to calculate spell/other supernatural effect ranges. Additionally they are within range and can use MP and HP weapons, although they should be at least 10ft away from the target to use them.
- **"High"** – The Character is high in the sky, out of range of those on the ground.

In certain cases it may not be possible for a Character to reach certain heights, due to ceilings and the like.

Characters that are at the same height use real world distance for all purposes, including weapon blows.

Moving between heights takes 5 seconds to do so. During this time you can defend yourself/parry and move but can't cast or similar. You should make it obvious you are going up/down as well.

- Jump/Lightstep can be used to shift up/down one height instantly.
- 20ft or longer shifts can move 2 heights.
- Relaxed fall lets you go from Low to Ground with a 2 second "phase in" time as you adjust.
- Snowflake lets you go from any height to the ground, again with a 2 second phase in.

Magical Races

There are three main types of magical creatures playable: Elves, Draves and Faeries. For more details on these creatures please check the *Basic Handbook* and *Evolution: Races*.

Magic and Spirit

In a change from previous rules it is now possible for mana users to benefit from spiritual abilities and use their magic freely.

“Handbook Spells”

The term ‘handbook spells’ is no longer in use. Spells fall in to three categories now: Standard (the basic spells of each colour), Advanced (Those spells listed as ‘advanced’ in this book), or Non-Standard (those obtained via points apps). Colours are referred to as Elemental (previously handbook), being White, Black, Grey, Blue, Brown, Red and Green, and as New Colours – Ivory, Ebony, Bronze, Gold, Silver, Jade, and Onyx.

Dragons and Drakes

With changes over the dawn of the Third Age, the status of Dragons has become less fixed. However, things are now calming down and the hierarchy of power becoming more stable. It is possible for people to elevate their Drakes (or Dragons) to a greater standing. Weakening a Dragon (or Drake) is harder, as they warded themselves against such attacks after the initial dangers of the Dawn of 1012. The status of Dragons does not affect wizards any longer. Anyone is free to use the mana from a Drake, Dragon, or Greater Dragon if they have the spell. The status of a Dragon is simply that, Status, reflecting how much power they hold. At present, the status of the various Mana Dragons are:

Great Dragon – Ebony, Jade and Onyx

Dragon – Grey, Red, White, Blue, Black, Brown, Gold, Ivory and Green

Drakes – Silver and Bronze.

Teaching Scrolls

Crafted using the advanced making system (details can be found in the *Manufacturers’ Guide* download). These can be read by Wizards, and other magical classes, to learn spells. To use a teaching scroll the reader must have the Read Glyphs ability and be able to suffer double the casting damage to cast the spell. A mana user is limited in the number of advanced teaching scrolls they may use, they may use 1.5 teaching scrolls per threshold post 8th they have reached (rounded up). E.g. on Table 5 they may use $5 \times 1.5 = 7.5$ teaching scrolls, rounded up to 8. This number is increased by 2 for High Wizards, and reduced by 2 for Second Class Wizards. Where a teaching scroll is of a stackable rune spell, up to 5 teaching scrolls may fill one ‘slot’.

Teaching scrolls of standard spells that fill specialist slots do not apply to the limit of the number that may be used.

A Wizard that uses advanced Teaching Scrolls and is proved unable to read glyphs (even when using a crib sheet) may be judged harshly on their points.

Elemental Spells

Elemental Spell Annotations

Throughout the Grimore there are references to "... (B) ... of ... (A) ...". This is standard notation for spells that deal with elementals and the elements, with “B” referring to one of the six elementals and “A” their relevant element as follows:

A: Fire	Air	Earth	Water	Light	Darkness
B: Salamanders	Sylphs	Gnomes	Undines	Sprites	Shades

Grey (Twilight Magic) Spells

Detect Magic			
Level: 0	Colour: Grey	Range: 20' radius	Duration: Instant
Verbal: <i>"I call upon the elements of fire, air, earth and water, reveal to me where you may be found... Detect Magic!"</i>			
Description: This spell indicates the location and shape of all things magical to the wizard.			

Shatter (Touch)			
Level: 1	Colour: Grey	Range: Touch	Duration: Instant
Verbal: <i>"By the power of the elements I shatter this..."</i>			
Description: The spell will shatter one normal object (non-magical or non-spiritual) up to a volume of 27 cubic feet.			
Note: This spell and all similar spells that affect one object of less than 27 cubic feet cannot destroy a section of a wall / floor etc – only discrete objects.			

Mend (Touch)			
Level: 1	Colour: Grey	Range: Touch	Duration: Instant
Verbal: <i>"By the powers of the elements I mend this..."</i>			
Description: This spell mends one normal item that does not exceed 27 cubic feet in volume that has been shattered or similarly broken, but not disintegrated.			

Reform (Touch)			
Level: 1	Colour: Grey	Range: Touch	Duration: Instant
Verbal: <i>"By the powers of the elements I reform this..."</i>			
Description: This spell reforms one normal item that does not exceed 27 cubic feet in volume that has been disintegrated.			

Dispel Magic 1 – 5			
Level: -	Colour: Grey	Range: 20'	Duration: Instant / 5 Minutes
Verbal: <i>"By my might dispel... (X)!" (where X is the dispel level)</i>			
Description: See Dispels on page 8			
Note: You cannot learn Dispel 2 until you have Dispel 1, or Dispel 3 until you have Dispel 2, et cetera.			

Trip			
Level: 2	Colour: Grey	Range: 20'	Duration: Instant
Verbal: <i>"By the powers of the elements – Trip!"</i>			
Description: By the casting of this spell the wizard causes one moving target creature to trip over an object that is in its path.			
Note: The target must be moving forwards and have an object in its path to trip on, or be moving over an irregular surface.			

Rope Trick			
Level: 2	Colour: Grey	Range: 20'	Duration: 5 Minutes
Verbal: <i>"May the elements imbue this rope with power – Rope Trick"</i>			
Description: When he casts this spell the wizard holds one end of a 20' rope and orders the other end to attach to any one thing.			
Note: If the "target" is animate it is able to simply shrug off the rope if it desires. You cannot cast Rope Trick a monster or character's neck.			

Detect Inanimate			
Level: 2	Colour: Grey	Range: 20'	Duration: Instant
Verbal: <i>"I call upon the elements of fire, air, earth and water reveal to me where ... may be found"</i>			
Description: As Detect Magic except that any ONE type of inanimate (non fluids) object (e.g. swords, shields, etc) is detected. It should be noted that treasure is to be found in many different configurations. Thus the wizard could detect gold bars, or grull notes, but not generic 'treasure'. In a similar manner, traps cannot be located via Detect Inanimate, as they represent too broad a variety of potential threats.			

Magic Lock			
Level: 3	Colour: Grey	Range: Touch	Duration: 24 Hours
Verbal: <i>"By the powers of the elements let this portal be closed... Magic Lock!"</i>			
Description: By casting this spell the wizard causes a door, cupboard or any object that could be locked with a padlock or similar to become magically locked. This is no way makes the locked object magical. For example, a magically locked door cannot be opened, but could be broken down with an axe or similar.			

Talk to Inanimate			
Level: 3	Colour: Grey	Range: Touch	Duration: 5 Minutes
Verbal: <i>"By the powers of the elements of fire, air, earth and water speak to me... and tell me what you know"</i>			
Description: This spell empowers the wizard to talk to a specific non-living and non-fluid item. The item will answer truthfully if it is not spiritual or magical. Spiritual items do not answer and magical items may answer as they choose, but will generally have no reason not to be truthful. Non-supernatural items will only be aware of themselves; supernatural items may have more extensive perceptions at the referee's discretion.			

Plate (Self)			
Level: 3	Colour: Grey	Range: Caster	Duration: 5 Minutes
Verbal: <i>"I call upon the power of the elements to imbue my skin with the strength of steel"</i>			
Description: This spell confers both MAC 5 and PAC 5 all over the wizard. This armour class does not stack with any other armour, dexterity, etc, including itself.			

Detect Animate			
Level: 3	Colour: Grey	Range: 20'	Duration: Instant
Verbal: <i>"I call upon the elements of fire, air, earth and water reveal to me where all that moves may be found"</i>			
Description: As Detect Magic except that moving, living creatures (this includes fluids) are detected.			

Chameleon (Self)			
Level: 3	Colour: Grey	Range: Caster	Duration: 5 Minutes
Verbal: <i>"May the elements grant me the power of chameleon."</i>			
Description: When cast the wizard blends into the background he stands against so that he cannot be seen by normal sight. He can however, be located by use of the Detect Magic spell etc.			
Note: The caster must be standing against something for the spell to function and the spell is broken if the wizard moves or casts another spell. It should be noted that the wizard is still there, however. Should he be observed casting the spell, he can still be attacked by a person who saw him cast the spell, as that person would know where they are...			

See Through Magical Darkness (Self)			
Level: 3	Colour: Grey	Range: Caster	Duration: Instant
Verbal: <i>"I call upon the elements to grant me sight through magical darkness"</i>			
Description: This spell confers upon the spell caster the ability to see through magical darkness only. It does not mean he can see through ordinary darkness; thus he cannot employ an artificial light source or similar.			

Enchant Item

Level: 5	Colour: Grey	Range: Touch	Duration: Permanent
Verbal: <i>"I call into this... the elements of fire, air, earth and water"</i>			
Description: By casting this spell the wizard enchants any normal item that does not exceed 27 cubic feet in volume so that it may be carried by an elf. Enchanted items maintain their enchantment unless they suffer the effects of a Dispel 5 or similar – they are not disenchanting merely by being handled by non-magical beings.			
Note: This spell does not give the enchanted item any magical properties (E.G. Does not make an item + 0 magical) though it will be revealed by detect magic.			

Silence

Level: 6s	Colour: Grey	Range: 20'	Duration: 5 Minutes
Verbal: <i>"By the power of the elements I strike thee dumb!"</i>			
Description: By casting this spell the wizard causes 1 target creature with not more than 4 levels resistance to become unable to utter a sound.			
Note: This is a stackable Glyph (see Stackable Glyphs above)			
Expertise: If expertly cast the 1st Rune of Silence affects at 5 levels resistance and each rune only costs 3 mana			

Dispel Magic 6 – 10			
Level: -	Colour: Grey	Range: 20'	Duration: Instant / 5 Minutes
Verbal: <i>"By my might and the powers that be dispel... (X)!" (where X is the Dispel level)</i>			
Description: For further details on dispels please consult the relevant section on page 8, and Dispel Magic 1 – 5 on page 11.			

Summon Elemental 'Child'			
Level: 8	Colour: Grey	Range: Touch	Duration: 5 Minutes
Verbal: <i>"By the power at my command I summon the element of 'A', come forth child of 'A' I conjure thee, let a 'B' of 'A' appear!"</i>			
Description: 'A' – one of: fire, air, earth, water, darkness, light			
'B' - Matching one of "A" – salamander, sylph, gnome, undine, shade or sprite respectively.			
Description: The spellcaster causes the named elemental to appear under his control. Only one elemental, regardless of type, may be controlled at a time. Elementals, regardless of type or size, upon contact cancel each other immediately. A wizard cannot summon elementals of the type that directly opposes his own element. For a further description on elementals see Elementals on page 7.			

Black (Darkness Magic) Spells

Extinguish			
Level: 0	Colour: Black	Range: 10'	Duration: Instant
Verbal: <i>"Embodiment of darkness come to me... Extinguish!"</i>			
Description: By means of this spell the caster can extinguish small non-magical light sources such as a candle, small fire, etc.			

Extinguish (Range)			
Level: 1	Colour: Black	Range: 20'	Duration: Instant
Verbal: <i>"Embodiment of darkness go to there... Extinguish!"</i>			
Description: See Extinguish (Touch)			

Disintegrate (Touch)			
Level: 1	Colour: Black	Range: Touch	Duration: Instant
Verbal: <i>"By the power of darkness I disintegrate this..."</i>			
Description: This spell will disintegrate one normal (non-magical or non-spiritual) item with a volume of less than 27 cubic feet.			

Disintegrate (Range)			
Level: 2	Colour: Black	Range: 20'	Duration: Instant
Verbal: <i>"By the power of darkness I disintegrate that..."</i>			
Description: As Disintegrate (Touch)			

Venom			
Level: 2	Colour: Black	Range: Touch	Duration: 5 minutes /until discharged
Verbal: <i>"Darkest venom taint this edge / drink."</i>			
Description: Imbues a blade or a liquid with a Blade Venom (BV) or Ingestive poison '2' which stays until used, or after 5 minutes have passed. This poison is in all ways physical poison as per the published potion, but can be dispelled (before discharge only).			
Note: that its range is touch and if cast on a liquid the liquid retains its other properties after the spell fades.			

Walk on Darkness (Self)			
Level: 3	Colour: Black	Range: Caster	Duration: 5 Minutes
Verbal: <i>"Shades of dark grant me the power to walk on darkness"</i>			
Description: This spell allows the caster to walk on darkness as if it were solid earth. The degree of darkness upon which walking may be attempted is total darkness to very weak candlelight.			

Darkness (Self)			
Level: 3	Colour: Black	Range: 10' Radius	Duration: 5 Minutes
Verbal: <i>"By the power of the shades let darkness descend"</i>			
Description: This spell creates total magical darkness in a 10' radius of the spell caster and can be simulated by all closing their eyes when within area of effect. The area of effect cannot be moved. All mundane light sources within the area are negated for the duration of the spell. The spell Light cancels the effect of this spell for the duration of the Light spell, and vice versa.			

Walk on Darkness (Other)			
Level: 4	Colour: Black	Range: Touch	Duration: 5 Minutes
Verbal: <i>"Shades of dark grant this person the power to walk on darkness"</i>			
Description: As Walk on Darkness (Self) bar range.			

Animate Scarecrow			
Level: 4	Colour: Black	Range: 20'	Duration: 5 Minutes
Verbal: <i>"By the shades of the dark, scarecrow arise"</i>			
Description: By the use of this spell the caster creates an animate scarecrow from sticks and rags, etc. The scarecrow can take 6 hits and it delivers 6 points of damage with each hand. After taking 6 hits it is destroyed, but a Mend spell will restore it to full hits again (once only). A Shatter will also destroy it. Any fire damage inflicted on the scarecrow is permanent and cannot be mended. Scarecrows can only accept simple commands of 12 words or less. Scarecrows cannot perform complex actions. Scarecrows have no intelligence and have 4th Level Resistances.			

Darkness (Range)			
Level: 4	Colour: Black	Range: 20'	Duration: 5 Minutes
Verbal: <i>"By the power of the shades of the dark let darkness descend over there"</i>			
Description: As Darkness (Self) except it can be cast up to 20' distant from the caster. Alternatively it can be cast centred on the spell caster (only) and thus can move with him			

Blackblade			
Level: 6	Colour: Black	Range: Touch	Duration: 5 Minutes
Verbal: <i>"By the shades of the darkest depths I infuse this blade with darkness and harm to all"</i>			
Description: This spell increases the damage of a non-magical or spiritual edged weapon whilst held by the casting wizard by +2 grades. This is still physical damage. If the black bladed weapon is used by anyone else it only does +1 grade of extra damage. The venom is a magically created poison and is not countered by blade venom antidotes. The weapon cannot be further enhanced, e.g. by the application of poison, casting of Fireblade, etc.			
Note: Unlike normal poisons, it is not necessary for a black bladed weapon to cut the target for the magical poison to take effect. All the damage from such a weapon is LOC and TBLP, and is added directly to the base damage of the weapon. Immunity to poison does stop all the extra damage from this spell. Despite having magically generated poison, a black bladed weapon does not inflict magical damage.			

Catalepsy			
Level: 6	Colour: Black	Range: 20'	Duration: 5 Minutes
Verbal: <i>"By the shades of dark, I command that you shall die... Catalepsy!"</i>			
Description: This spell causes one target creature that has no more than 4 levels to fall into a cataleptic state, i.e. Fall unconscious as if in a coma.			
Note: This is a stackable Glyph (see Stackable Glyphs on page 8)			
Expertise: If expertly cast, the 1st Rune of Catalepsy affects at 5 levels resistance, and each rune only costs 4 mana			

Talk to Shade			
Level: 6	Colour: Black	Range: Caster	Duration: 5 Minutes
Verbal: <i>"Mighty shade speak to me and relate what thou knowest"</i>			
Description: The shades will have knowledge of what has happened in any darkness or shadows within a 10' radius. Shades have excellent memories. This can also be used to converse with any actual elemental shades present.			

Summon Shade 'Child'			
Level: 6	Colour: Black	Range: N / A	Duration: 5 Minutes
Verbal: <i>"By the power at my command I summon the element of darkness, Come forth child of darkness, I conjure thee, let a shade of darkness appear"</i>			
Description: Summons a Shade with 10 hits which inflicts 6pts Single by Unarmed Combat			

Dancing Venom Sword			
Level: 8	Colour: Black	Range: 20'	Duration: 5 Minutes
Verbal: <i>"Shades of the dark I conjure thee, imbue this blade with power and the darkest venom and let it dance to my tune"</i>			
Description: This spell creates an ordinary bastard sword coated with magical venom to dance as directed by the spell caster (DVS). The spell is ended if the caster loses sight of the sword even for a second, takes damage, or goes out of range. The damage done by the sword is 9 points Bastard Double (normal) + 15 points of poison damage (for a total of 24pt Venom Quad). Any creature immune to normal weapons will be unaffected by this spell. Creatures that are immune to poison will take only the 9 points of normal damage. The sword cannot be further enhanced by any means, e.g. the application of poison, or the casting of Blackblade, Fireblade, etc.			
Note: Unlike normal poisons it is not necessary for a DVS to cut the target for the magical poison to take effect. All the damage from such a weapon is LOC and TBLP and is added to the base damage of the weapon. Despite having magically generated poison a DVS does not inflict magical damage.			

Summon Shade 'Prince'			
Level: 8	Colour: Black	Range: N / A	Duration: 5 Minutes
Verbal: <i>"By the power at my command I summon the element of darkness, come forth prince of darkness I conjure thee, let a shade of darkness appear"</i>			
Description: Summons a Shade with 15 hits which inflicts 9pt Double by Unarmed Combat			

Summon Shade 'Lord'			
Level: 10	Colour: Black	Range: N / A	Duration: 5 Minutes
Verbal: <i>"By the power at my command I summon the element of darkness, I abjure the elements of light, fire, air, earth and water and I conjure thee, come forth Lord of darkness I summon thee, let a shade of darkness appear"</i>			
Description: Summons a Shade with 25 hits which inflicts 12pt Double by Unarmed Combat			

Blue (Air Magic) Spells

Puff of Air			
Level: 0	Colour: Blue	Range: 20'	Duration: Instant
Verbal: <i>"Embodiment of air come to me!"</i>			
Description: By casting this spell the wizard can create a puff of fresh air sufficient to blow out a candle or knock over a small goblet, within 20 feet of the caster.			

Jump (Self)			
Level: 2	Colour: Blue	Range: Caster	Duration: Almost Instant
Verbal: <i>"Sylphs of air take me there"</i>			
Description: This spell allows the spell caster to jump 20' forwards, 10' backwards or 15' upwards. It nominally takes two seconds to complete the jump, and Time Stop should generally be called. "Jumping" will generally allow those involved (bar the Jumper) to perform one simple action such as a single blow or other 'instant' abilities, for which need no verbal can be used (just one ability - not a string of Neuronic Penetrations!), including speaking a single word. Complex actions will be disallowed by the ref!			

Mend (Range)			
Level: 2	Colour: Blue	Range: 20'	Duration: Instant
Verbal: <i>"By the powers of air I mend that..."</i>			
Description: This spell will mend any (non-magical/spiritual) object that has been shattered or similarly broken, but not rusted, warped or disintegrated. The object's volume must not exceed 27 cubic feet. This spell can be used to mend things that have been broken by mundane means, e.g. a broken door. The complexity of what can be mended is at the referee's discretion.			

Shatter (Range)			
Level: 2	Colour: Blue	Range: 20'	Duration: Instant
Verbal: <i>"By the powers of air I shatter that..."</i>			
Description: As Shatter (Touch), bar range.			

Jump (Other)			
Level: 3	Colour: Blue	Range: Touch	Duration: Instant
Verbal: <i>"Sylphs of air I bid thee take this person there"</i>			
Description: See Jump (Self). The recipient of this spell must be willing.			

Storm Blast			
Level: 3	Colour: Blue	Range: 20'	Duration: Instant
Verbal: <i>"By the powers of air and thunder, storm blast"</i>			
Description: This spell inflicts 12 total body life points (TBLP) of damage and two to each location (loc) on one character or 4 hits to a monster. Magical Armour class may be applies to this at 6/1 per point.			
Expertise: After first casting within a one-minute period Storm Blast may now be cast for one mana point less. So a Storm Blast costs 3 mana, but 5 Storm Blasts unleashed in succession would cost 3+2+2+2+2= 11 mana rather than 15 mana. Once Table 10 is reached, Storm. Blast becomes a 2-mana glyph to cast in all ways.			

Telekinesis			
Level: 3	Colour: Blue	Range: 20'	Duration: 5 Minutes or until movement completed, whichever shorter
Verbal: <i>"Sylphs of air I conjure thee telekinesise that... to there"</i>			
Description: This spell will move one object as directed by the caster. The force of the telekinesis equals the force the referee can exert with one hand. It cannot be used to wield a weapon effectively. It cannot pick up objects that contain a spirit. Only one Telekinesis may be cast upon one object or by a wizard at any one time.			

Walk on Air (Self)			
Level: 3	Colour: Blue	Range: Caster	Duration: 5 Minutes
Verbal: <i>"Sylphs of air grant me the power to walk on air"</i>			
Description: This spell allows the caster to Walk on Air. The details of this are covered in the "Flying" section on page 9. Players should remember that it may not be possible on some occasions to reach certain heights, given the presence of (in character) ceilings, etc.			

Walk on Air (Other)			
Level: 4	Colour: Blue	Range: Touch	Duration: 5 Minutes
Verbal: <i>"Sylphs of the air grant this person the power to walk on air"</i>			
Description: As Walk on Air (Self).			

Blink			
Level: 6	Colour: Blue	Range: Caster	Duration: Instant
Verbal: <i>"By the powers of the sylphs of air let me be taken there... Blink"</i>			
Description: This spell allows the spell caster to teleport up to 20' in distance or within sight! On arriving at the destination the caster appears in the same orientation and pose as when he phased. It takes the spell caster 2 seconds to re-materialise, during which time he is not vulnerable to external damage and any ongoing effects are delayed by 2 seconds.			

Lightning Bolt			
Level: 6	Colour: Blue	Range: 20'	Duration: Instant
Verbal: <i>"By the powers of air and rolling thunder... Lightning bolt!"</i>			
Description: This spell inflicts 24 points of damage on one character's total body life points (TBLP) and 4 points of damage to each of his locations (LOC). This spell damage ignores any non-magical armour. Alternatively, it delivers 8 hits of damage to a monster.			
Expertise: After first casting within a one-minute period, Lightning Bolt may now be cast at one mana point less. So that a Lightning Bolt costs 6 mana but 5 Lightning Bolts unleashed in succession would cost $6+5+5+5+5 = 26$ mana, rather than 30 mana. Once Table 10 is reached, Lightning Bolt becomes a 5-mana glyph to cast.			

Sleep			
Level: 6s	Colour: Blue	Range: 20'	Duration: 5 Minutes
Verbal: <i>"By the power of the imps of slumber: Sleep!"</i> and then indicate how many levels of effect its cast at			
Description: This spell causes one target creature with no more than 4 levels of resistance, to fall magically asleep for 5 minutes. During this period it is not possible to awaken the victim by any mundane non-magical means, such as shaking or striking, et cetera.			
Note: This is a stackable Glyph (see Stackable Glyphs on page 8).			
Expertise: If expertly cast the 1st Rune of Sleep works on targets with 5 levels of resistance or below and each rune only costs 5 mana.			

Talk to Sylph			
Level: 6	Colour: Blue	Range: Caster	Duration: 5 Minutes
Verbal: <i>"Mighty sylph speak to me and relate what thou knowest"</i>			
Description: The Sylph will have knowledge of what has transpired in the air of the area (10' radius) of the caster and it will have knowledge of such things as conversation, etc. A Sylph's memory is not reliable when recalling things of a week or more in the past. Otherwise see Talk to Shade on page 14.			

Summon Sylph 'Child'			
Level: 6	Colour: Blue	Range: N / A	Duration: 5 Minutes
Verbal: <i>"By the power at my command I summon the element of air, come forth child of air I conjure thee, let a sylph of air appear"</i>			
Description: Summons a Sylph with 10 hits which inflicts 6pt Single by Unarmed Combat.			

Summon Sylph 'Prince'			
Level: 8	Colour: Blue	Range: N / A	Duration: 5 Minutes
Verbal: <i>"By the power at my command I summon the element of air, come forth prince of air I conjure thee, let a sylph of air appear."</i>			
Description: Summons a Sylph with 15 hits which inflicts 9pt Double by Unarmed Combat.			

Dancing Sword			
Level: 8	Colour: Blue	Range: 20'	Duration: 5 Minutes
Verbal: <i>"Sylphs of air I conjure thee, imbue this sword with power and let it dance"</i>			
Description: This spell will imbue a "normal" sword with power in effect making it a +2 magic weapon for the duration of the spell. It will "dance" and strike at anything the spell caster directs it to, for 5 minutes. The spell caster must concentrate fully on the sword, be able to see it at all times, and remain within range. They must also direct every blow of the dancing sword. If concentration is broken, by say the wizard being hurt, casting another spell, etc, the spell dissipates. If this happens, the sword loses the magical enhancement it received from the spell. The sword will inflict 18 life points of damage to a character's TBLP and loc or three magic hits on monsters.			
Note: The sword cannot be enhanced in any further way, e.g. by the application of poison, or casting of Blackblade, Fireblade, etc.			

Summon Sylph 'Lord'			
Level: 10	Colour: Blue	Range: N / A	Duration: 5 Minutes
Verbal: <i>"By the power at my command I summon the element of air, I abjure the elements of fire, earth, water, darkness and light and I conjure thee, come forth lord of air I summon thee, let a sylph of air appear."</i>			
Description: Summons a Sylph with 25 hits, which inflicts 12pt Double by Unarmed Combat.			

Brown (Earth Magic) Spells

Pebble (Cantrip)			
Level: 0	Colour: Brown	Range: Touch	Duration: Permanent
Verbal: <i>"Embodiment of earth come to me"</i>			
Description: By the casting of this spell the wizard causes a small pebble to appear in his hand.			

Warp (Touch)			
Level: 1	Colour: Brown	Range: Touch	Duration: Instant
Verbal: <i>"By the powers of earth I warp this..."</i>			
Description: By casting this spell the wizard can warp one normal item with a volume of 27 cubic feet. Warped items are basically shapeless and useless. Warping a helmet will not cause it to damage the wearer. A warped object cannot be Mended although it can be Reshaped.			

Stoneskin (Self)			
Level: 2	Colour: Brown	Range: Caster	Duration: 5 Minutes
Verbal: <i>"I call upon the gnomes of earth to imbue my skin with the strength of stone"</i>			
Description: Confers PAC 6 on the spell caster, non-stacking with all other AC.			

Reshape (Touch)			
Level: 2	Colour: Brown	Range: Touch	Duration: 5 Minutes
Verbal: <i>"By the powers of earth reshape this... into a..."</i>			
Description: This spell enables the wizard to reshape any normal item that does not exceed 27 cubic feet in volume into another item of roughly the same size and material. It is not possible to reshape metal into swords or armour, etc, even if the caster has weapon- or armour-making abilities, as the product is not well-made, balanced, weighted or similar. Similarly, uncut gems cannot be made into polished valuable items, or lumps of gold into valuable goblets, etc. However, Reshape can reverse the effect of a 'Warp'.			
Note: A piece of armour has numerous components and any new items will have very limited durability.			

Warp (Range)			
Level: 2	Colour: Brown	Range: 20'	Duration: Instant
Verbal: <i>"By the powers of earth I warp that..."</i>			
Description: See Warp (Touch).			

Stoneskin (Other)			
Level: 3	Colour: Brown	Range: Touch	Duration: 5 Minutes
Verbal: <i>"I call upon the gnomes of earth to imbue this person's skin with the strength of stone"</i>			
Description: As Stoneskin (Self), bar range.			

Bind			
Level: 3	Colour: Brown	Range: 20'	Duration: 5 Minutes
Verbal: <i>"By the power of earth I bind thee."</i>			
Description: Binds any non-supernatural inanimate object or any form of footwear that is currently in touch with an earthen surface to the ground for five minutes. This can include walls in caves or buildings, if the target is in contact with a wall but not the floor. Any Bind style effect may be broken with 30 seconds of active cutting with a sharp weapon.			

Magnetise			
Level: 3	Colour: Brown	Range: 20'	Duration: 5 Minutes
Verbal: <i>"By the powers of earth I magnetise that..."</i>			
Description: By the casting of this spell the wizard causes 1 metal object to be irresistibly attracted to the nearest wall or the ground. If a player's armour is magnetised, the spell does not take effect until the character wearing the metal armour moves, i.e. that item must be in motion for the effect to be realised. This spell does not work on objects containing a spirit.			

Entangle			
Level: 3	Colour: Brown	Range: 20'	Duration: 5 Minutes
Verbal: <i>"By the powers of earth I entangle you."</i>			
Description: Causes the natural vegetation to spring up and entangle all creatures within a 3' radius area as directed by the wizard. There must be sufficient natural vegetation for this spell to work. The size of the vegetation is proportional to size of the creature that can be captured and the extent of the restraint. For example, trees could entangle a dragon, at least temporarily! In general it should be assumed that 'normal' creatures cannot tear free of any constraint more extensive than grass, but also that, except in the cases of the densest vegetation, only the target's legs are tangled, and they are still free to move their arms and speak, etc. Extended work with a sharp weapon to cut free may be acceptable at the ref's discretion.			

Reshape (Range)			
Level: 3	Colour: Brown	Range: 20'	Duration: 5 Minutes
Verbal: <i>"By the powers of earth I reshape that... into a..."</i>			
Description: See Reshape (touch).			

Magic Missile			
Level: 3	Colour: Brown	Range: Throw	Duration: 5 seconds or until thrown
Verbal: <i>"I call upon the gnomes of earth, imbue this rock with power - magic missile!"</i>			
Description: This spell charges one rock (a safe phys-rep must be used) with power. When thrown, it does 12 points of damage to the first player's location it hits, and 12 points of damage to their total life points. Alternatively, it does 4 hits to monsters. It disregards all forms of armour bar actual MAC, i.e. a suit of +0 Magic Armour would not offer any protection against a Magic Missile. The first object struck causes the rock to be discharged, so no rebounds.			
Note: Players must provide their own safe phys-rep.			
Expertise: May now inflict a 6/1 blast regardless of MAC. This spell now inflicts 6 hits to monsters rather than 4,			

Walk on Earth (Self)			
Level: 3	Colour: Brown	Range: Caster	Duration: 5 Minutes
Verbal: <i>"Gnomes of earth grant me the power to walk on earth"</i>			
Description: Allows the spell caster to walk on any stone or earthen surface, whether it is a cave wall, a stone roof or marshy ground, etc. While so benefiting, the caster is also rendered immune to ground-shaking 'knockdown' type effects like Earth Tremor.			

Passwall			
Level: 4	Colour: Brown	Range: Caster	Duration: 10 seconds maximum
Verbal: <i>"Gnomes of earth I conjure thee, grant me the power to passwall"</i>			
Description: This spell allows the caster to walk through any wall or stone object of not more than 10' in thickness. If the wall is more than 10' thick the spell fails to work but mana and life points are still expended. It does not apply to floors and the user can only walk in a straight line. You cannot cast multiple Passwall spells to allow more movement.			

Walk on Earth (Other)			
Level: 4	Colour: Brown	Range: Touch	Duration: 5 Minutes
Verbal: <i>"Gnomes of earth grant this person the power to walk on earth"</i>			
Description: See Walk on Earth (Self).			

Chameleon (Other)			
Level: 4	Colour: Brown	Range: Touch	Duration: 5 Minutes
Verbal: <i>"May the gnomes of earth grant this person the powers of chameleon"</i>			
Description: See grey spell Chameleon (Self), except subject can only be hidden when surroundings are of stone, earth, etc.			
Expertise: This glyph may be cast for 3 mana when used on self.			

Wall of Stone			
Level: 4	Colour: Brown	Range: 20'	Duration: 5 Minutes
Verbal: <i>"Gnomes of earth I conjure thee, build for me a wall of stone"</i>			
Description: This spell causes a stone wall of maximum dimensions 10' high by 20' wide and 1' thick to spring up from the ground. The wall cannot be toppled by force or shattered by a spell, but a Dispel 4 or greater will cause it to vanish. A Wall of Stone is supernaturally supported and does not require any anchor points for it to remain upright.			

Plate (Other)			
Level: 4	Colour: Brown	Range: Touch	Duration: 5 Minutes
Verbal: <i>"I call upon the gnomes of earth to imbue this person's skin with the strength of steel."</i>			
Description: See Plate (Self).			

Supermissile			
Level: 5	Colour: Brown	Range: Throw	Duration: 5 seconds or until thrown
Verbal: <i>"I call upon the mighty gnomes of earth imbue this rock with great power – supermissile!"</i>			
Description: As Magic Missile (3 MP),above, but it does 12 points of damage to players via the location it hits and TBLP, to which only MAC applies, plus a further 12 TBLP and 2pts damage to each location as a blast effect. This blast effect ignores all armour, including MAC, as the missile detonates within the target. It does 8 hits to monsters.			

Talk to Gnome			
Level: 6	Colour: Brown	Range: Caster	Duration: 5 Minutes
Verbal: <i>"Mighty gnome speak to me and relate what thou knowest"</i>			
Description: A gnome will know what has happened on or around earth or stone. Gnomes have excellent memories. Otherwise see Talk to Shade on page 14.			

Summon Gnome 'Child'			
Level: 6	Colour: Brown	Range: N / A	Duration: 5 Minutes
Verbal: <i>"By the power my command I summon the element of earth, come forth child of earth, I conjure thee let a gnome of earth appear"</i>			
Description: Summons a Gnome with 10 hits, which inflicts 6pt Single by Unarmed Combat.			

Summon Gnome 'Prince'			
Level: 8	Colour: Brown	Range: N / A	Duration: 5 Minutes
Verbal: <i>"By the power at my command I summon the element of earth, come forth prince of earth, I conjure thee let a gnome of earth appear"</i>			
Description: Summons a Gnome with 15 hits, which inflicts 9pt Double by Unarmed Combat.			

Summon Gnome 'Lord'			
Level: 10	Colour: Brown	Range: N / A	Duration: 5 Minutes
Verbal: <i>"By the power at my command I summon the element of earth. I abjure the elements of water, darkness, light, fire and air and I conjure thee. Come forth lord of earth, I summon thee let a gnome of earth appear"</i>			
Description: Summons a Gnome with 25 hits, which inflicts 12pt double by Unarmed Combat.			

Green (Water Magic) Spells

Create Water			
Level: 0	Colour: Green	Range: 10'	Duration: Infinite
Verbal: <i>"Embodiment of water come to me"</i>			
Description: By casting this spell the wizard creates half a pint of pure water within 10' of himself.			
Note: Water cannot be created inside an animate object or person.			

Unlock (Touch)			
Level: 0	Colour: Green	Range: Touch	Duration: Instant
Verbal: <i>"By my power let this lock be opened"</i>			
Description: This spell allows the caster to unlock one normal lock without the use of a key and will also unlock an object that has had Magic Lock cast upon it.			

Rust (Touch)			
Level: 1	Colour: Green	Range: Touch	Duration: Instant
Verbal: <i>"By the powers of water I rust this..."</i>			
Description: By the use of this spell the caster rusts one normal ferrous object of a volume not more than 27 cubic feet. It is totally rusted away to nothing and thus cannot be restored by a Mend, Reform or Reshape spell.			

Unlock (Range)			
Level: 1	Colour: Green	Range: 20'	Duration: 5 Minutes
Verbal: <i>"By my power let that lock be opened"</i>			
Description: See Unlock (Touch).			

Rust (Range)			
Level: 2	Colour: Green	Range: 20'	Duration: Instant
Verbal: <i>"By the powers of water I rust that..."</i>			
Description: See Rust (Touch).			

Passive Illusion			
Level: 3	Colour: Green	Range: 20' only	Duration: 5 Minutes or until touched
Verbal: <i>"Undine at my command create a phantasm of... to do my will"</i>			
Description: By casting this spell the wizard creates a visual illusion of any object or creature he desires. The illusion can move and the wizard can see through its eyes. A wizard can play a passive illusion of himself. The illusion does not smell and cannot make any sound. Furthermore should it be struck or have a spell cast at it, it vanishes. Once the spell is cast the illusion may leave the range. A Passive Illusion can be no smaller than 1' across, and no larger than an object with a 10' radius, and can only be a single creature/object, not a 'scene'. If smaller than a small humanoid it is unstable, and should it move faster than a steady walk it will dissipate.			

Walk on or through Water (Self)			
Level: 3	Colour: Green	Range: Caster	Duration: 5 Minutes
Verbal: <i>"Undines of water grant me the power to walk on / through water"</i>			
Description: This spell has two applications. It can be used to allow the wizard to walk on water as if it was normal ground or it can be used to allow him to breathe and move normally underwater. Either version of this spell grants the caster 50% off Acid, water-based attacks, poisons and potions. This includes beneficial potions.			
Note: To gain both effects (walk on water / breath and move normally underwater) the wizard will need to cast the spell twice.			

Illusions of Grandeur			
Level: 4	Colour: Green	Range: Touch	Duration: 5 Minutes
Verbal: <i>"Undines grant him/her phantasms of power and valour to aid him."</i>			
Description: This spell grants the beneficiary immunity to non-spiritual Fear and Emotion Attacks, and +6/2 temporary life (non-stacking with other temporary life increases), unless they are immune to insanity (or to illusions for any reason). It may not be cast on any person capable of casting the glyph themselves, as the deeper understanding of the glyph precludes the needed subconscious belief. It cannot otherwise be 'disbelieved'.			

Programmed Illusion			
Level: 4	Colour: Green	Range: 20'	Duration: 5 Minutes
Verbal: <i>"Undine at my command create a phantasm of... to do my will and let it appear in (time 1 sec to 5 mins)"</i>			
Description: As Passive Illusion (3 mana spell) except that the illusion can be programmed to appear from 1 second to 5 mins after the verbal is completed, and follow a set of instructions, rather than be directed by the caster at the time.			

Summon Undine			
Level: 4	Colour: Green	Range: N / A	Duration: 5 Minutes
Verbal: <i>"By the power at my command I summon the element of water, let an undine of water appear"</i>			
Description: Summons an Undine with 6 hits that inflicts 4pt Single by Unarmed Combat, and is dissipated by contact with any other elemental.			

Unseen Servant			
Level: 4	Colour: Green	Range: 20'	Duration: 5 Minutes
Verbal: <i>"By my power I summon a phantasm to fetch and carry as I direct"</i>			
Description: As Blue spell Telekinesis except that once instructed the unseen servant will not require the continued concentration of the wizard unless he wishes to give it further instructions. The servant cannot pick up an item with a spiritual component. An unseen servant cannot fight, but is destroyed by 4 hits of damage.			

Walk on or through Water (Other)			
Level: 4	Colour: Green	Range: Touch	Duration: 5 Minutes
Verbal: <i>"Undines of water grant this person the power to walk on or through water"</i>			
Description: See Walk on or through Water (Self).			

Slow			
Level: 5	Colour: Green	Range: 20'	Duration: 5 Minutes
Verbal: <i>"With the power of the undines of water... Slow!"</i>			
Description: By casting this spell the wizard causes one target creature of not more than 4 levels of resistance to be slowed to a slow zombie speed (i.e. as if they were walking through water not air).			
Note: This is a stackable Glyph (see Stackable Glyphs on page 8).			
Expertise: If expertly cast the 1st Rune of Slow works on targets with 5 levels of resistance or below and each rune only costs 4 mana.			

Talk to Undine			
Level: 6	Colour: Green	Range: Caster	Duration: 5 Minutes
Verbal: <i>"Mighty undine speak to me and relate what thou knowest"</i>			
Description: An Undine will know what has happened in or around liquids. Otherwise see Talk to Shade.			

Summon Undine 'Child'			
Level: 6	Colour: Green	Range: N / A	Duration: 5 Minutes
Verbal: <i>"By the power at my command I summon the element of water, come forth child of water, let an undine of water appear"</i>			
Description: Summons an Undine with 10 hits that inflicts 6pt Single by Unarmed Combat.			

Semi-Active Illusion			
Level: 6	Colour: Green	Range: 20'	Duration: 5 Minutes
Verbal: <i>"Undines at my command create a phantasm of... to do my will and embody it with thy power"</i>			
Description: As Passive Illusion except that the semi-active illusion is capable of doing 6 points of damage per blow it strikes. It can be dispelled in the normal manner or disbelieved. The illusion will waver and fade after taking 15 hits. If disbelieved the damage does not vanish. It otherwise follows the same strictures as Passive Illusion, but must be at least the size of a small humanoid or it is incapable of inflicting damage at all.			
Note: The wizard may NOT play his own semi-active illusion.			

Vanish			
Level: 8	Colour: Green	Range: 20'	Duration: 5 Minutes
Verbal: <i>"By all my power I command that... to vanish!"</i>			
Description: By casting this spell the wizard causes one non-living item that does not possess a spirit or exceed 27 cubic feet in volume to vanish for 5 minutes. After the expiry of the spell the item will re-appear in the same spot it disappeared from. If the item was worn it reappears in the same position relative to the wearer. The item, whilst vanished, does not exist at any other location. E.g. A small trap door would re-appear closed (locked) if it was originally closed and locked. E.g. A magic ring vanished from a finger would re-appear on that finger even if the person wearing the ring has moved several miles / light years / planes, etc.			
Expertise: Vanish may be cast a second time within a minute of a first casting for only 4 mana. This may not be extended to a third or further castings.			

Summon Undine 'Prince'			
Level: 8	Colour: Green	Range: N / A	Duration: 5 Minutes
Verbal: <i>"By the power at my command I summon the element of water, come forth prince of water, let an undine of water appear"</i>			
Description: Summons an Undine with 15 hits, which inflicts 9pt Double by Unarmed Combat.			

Summon Undine 'Lord'			
Level: 10	Colour: Green	Range: 20'	Duration: 5 Minutes
Verbal: <i>"By the power at my command I summon the element of water. I abjure the elements of darkness, light, fire, air and earth, and I conjure thee, come forth lord of water I summon thee let an undine of water appear"</i>			
Description: Summons an Undine with 25 hits, which inflicts 12pt Double by Unarmed Combat.			

Red (Fire Magic) Spells

Ignite (Touch)			
Level: 0	Colour: Red	Range: Touch	Duration: Instant
Verbal: <i>"By the powers of fire ignite this..."</i>			
Description: This spell when cast has the same effect as putting a small flame (e.g. a match) to an item for 2 to 3 seconds.			

Ignite (Range)			
Level: 1	Colour: Red	Range: 20'	Duration: Instant
Verbal: <i>"By the powers of fire ignite that..."</i>			
Description: As Ignite (Touch) bar range.			

Shock			
Level: 2	Colour: Red	Range: Touch	Duration: 5 Seconds
Verbal: <i>"Into my hand I call forth fire... Shock!"</i>			
Description: By casting this spell the wizard causes his touch to do 12 points of damage to the location and total body points (TBLP) of players. Alternatively it does 4 hits to monsters. The only AC that may be applied versus this damage is MAC, which applies on a 1 for 1 basis (so MAC2 reduces the damage by 2 TBLP and 2 to the location touched). Once the verbal is completed the wizard has 5 seconds to discharge the spell or it is wasted. He cannot cast any more spells in this time. This spell only causes damage to the first target struck so don't pick your nose!			

Fire Blast			
Level: 3	Colour: Red	Range: 20'	Duration: Instant
Verbal: <i>"By the powers of fire and brimstone... Fire Blast!"</i>			
Description: When he casts this spell the wizard causes one player to take 12 points of total body damage and 2 points per location. Alternatively, a monster takes 4 hits. This is magical damage against which MAC may be applied, with each point of MAC reducing the damage by 6/1.			
Expertise: After first casting within a one-minute period Fire Blast may now be cast for one mana point less. So a Fire Blast will cost 3 mana, but 5 Fire Blasts unleashed in succession would cost 3+2+2+2+2 = 11 mana rather than 15 mana. Once Table 10 is reached Fire Blast becomes a 2 mana glyph to cast at all times.			

Walk Through Fire (Self)			
Level: 3	Colour: Red	Range: Caster	Duration: 5 Minutes
Verbal: <i>"Salamanders of fire grant me the power to walk through fire."</i>			
Description: This spell confers upon the caster total immunity to normal fires and a 50% reduction in all damage taken from magical fires.			

Melt			
Level: 3	Colour: Red	Range: 20'	Duration: Instant
Verbal: <i>"By the powers of fire I melt that..."</i>			
Description: This spell affects one non-supernatural metal object that does not exceed 27 cubic feet in volume, to become heated such that it melts. This spell can affect a single location's worth of metal armour. If used on metal armour or on a metal object that is being held then the wielder takes 6/6 damage to that location, exactly as per Shock. A melted object cannot be repaired by a Mend, Reform or Reshape spell.			

Fireblade			
Level: 4	Colour: Red	Range: Touch	Duration: 5 Minutes
Verbal: <i>"I call upon the power of the salamanders to imbue this blade with fire"</i>			
Description: When cast on a bladed weapon it adds +1 hit of magical fire damage to that weapon's normal damage when wielded by the casting wizard. If the firebladed weapon is used by anyone else the weapon's damage is not enhanced, but it still does magical fire damage.			

Walk Through Fire (Other)			
Level: 4	Colour: Red	Range: Touch	Duration: 5 Minutes
Verbal: <i>"Salamanders of fire, grant this person the power to walk through fire."</i>			
Description: As Walk through Fire (Self) above.			

Wall of Fire			
Level: 4	Colour: Red	Range: 20'	Duration: 5 Minutes
Verbal: <i>"Salamander of fire I conjure thee, build for me a wall of fire"</i>			
Description: By casting this spell the wizard creates an opaque wall of fire that stretches from wall to wall and floor to roof, to a maximum of 40' in any direction. Any player breaking through the wall of fire will take 12 points damage to total body life points and 2 to each location. A monster will take 4 hits. Only MAC may be applied versus this damage. It is not possible to see through a wall of fire. A Wall of Fire cannot be cast within 2 paces of another wall of fire. If they are created too close both are negated. Any creature remaining within a Wall of Fire for over 10 seconds takes an Ignite [Touch] to all equipment carried.			

Fire Bolt			
Level: 6	Colour: Red	Range: 20'	Duration: Instant
Verbal: <i>"By the powers of fire and scorching brimstone... Fire bolt!"</i>			
Description: This spell inflicts 24 points of damage on one character's total body life points (TBLC) and 4 points of damage to each of his locations (LOC). This damage ignores any non-magical armour. Alternatively, it delivers 8 hits to a monster. MAC applies against this magical fire damage, with each point of MAC reducing the damage by 6/1.			
Expertise: Fire Bolt is considered a 5 mana glyph.			

Summon Salamander 'Child'			
Level: 6	Colour: Red	Range: 20'	Duration: 5 Minutes
Verbal: <i>"By the power at my command I summon the element of fire, come forth child of fire I conjure thee, let a salamander of fire appear"</i>			
Description: Summons a Salamander with 10 hits, which inflicts 6pt Single by Unarmed Combat.			

Sword of Power			
Level: 6	Colour: Red	Range: 20'	Duration: 5 Minutes
Verbal: <i>"Into my hands I call forth fire, blade, hilt and guard. Sword of power I conjure thee to scorch my enemies"</i>			
Description: This spell creates a bastard sword of "solid" flame, useable only by the spell caster and grants the caster B Skill with it. It does 12 points of pure magical damage (Double) if wielded in one hand or 15 points of pure magic damage (Bastard Triple) if wielded in two hands. Whilst the spell is active the caster may not wield any other weapon.			

Talk to Salamander			
Level: 6	Colour: Red	Range: N / A	Duration: 5 Minutes
Verbal: <i>"Mighty Salamander speak to me and tell me what thou knowest"</i>			
Description: The Salamander will know what has happened within a 20' radius of its flame whilst the flame has been alight.			

Disruption			
Level: 8	Colour: Red	Range: 20'	Duration: Instant
Verbal: <i>"By all the powers of fire be thou scorched, be charred, be burnt, disruption!"</i>			
Description: This spell causes 36 total body and 6 per location of magical fire damage to one character, or 12 hits to a monster. Only MAC may be applied versus this damage, with each point of MAC reducing the damage by 6/1.			
Expertise: Disruption may be cast for 7 mana. Once Table 10 is reached, each casting after the first in a one-minute period costs only 6 mana.			

Summon Salamander 'Prince'			
Level: 8	Colour: Red	Range: 20'	Duration: 5 Minutes
Verbal: <i>"By power at my command I summon thee element of fire, come forth prince of fire let a salamander of fire appear"</i>			
Description: Summons a Salamander with 15 hits, which inflicts 9pt Double by Unarmed Combat.			

Summon Salamander 'Lord'			
Level: 10	Colour: Red	Range: 20'	Duration: 5 Minutes
Verbal: <i>"By the power at my command I summon the element of fire, I abjure the elements of air, earth, water, darkness and light and I conjure thee, come forth Lord of fire I summon thee, let a salamander of fire appear"</i>			
Description: Summons a Salamander with 25 hits, which inflicts 12pt Double by Unarmed Combat.			

White (Light Magic) Spells

Flash			
Level: 0	Colour: White	Range: 20'	Duration: 5 Seconds
Verbal: <i>"Embodiment of light come to me... Flash!"</i>			
Description: By casting this spell the wizard creates a bright flash of light (equivalent to a Light spell) which counteracts magical Darkness for its 5-second duration.			

Farsee			
Level: 2	Colour: White	Range: 20'	Duration: 2 Seconds
Verbal: <i>"Sprites bend thy light so that I may see (place)"</i>			
Description: This spell when cast allows the wizard to take a 2 second glance at any place up to 40' distant (e.g, behind a closed door, round a corner, etc.). It does not provide a light source for that glance.			

Snowflake (Self)			
Level: 2	Colour: White	Range: Caster	Duration: The time it takes to fall
Verbal: <i>"Snowflake!"</i>			
Description: This spell when cast allows the wizard to fall any distance and take no damage.			
Note: The spell must be cast before the wizard hits the ground.			

Light (Self)			
Level: 3	Colour: White	Range: Caster	Duration: 5 Minutes
Verbal: <i>"Sprites of light I conjure thee shine forth on all before me"</i>			
Description: This spell creates sufficient light to illuminate a 20' diameter area. The lit area cannot be moved. The spells Darkness and Light cancel each other out for the duration of the spell effect: i.e. a 'Light' spell will cancel the effect of a permanent 'Darkness' for 5 minutes.			

Snowball			
Level: 3	Colour: White	Range: Throw	Duration: 5 seconds or until thrown
Verbal: <i>"By the might of ice... snowball!"</i>			
Description: As Magic Missile (page 18) except that this spell does double damage versus fire based creatures and does not need a pebble to be cast on. It does not gain Expertise benefits as per Magic Missile.			

Walk on Light (Self)			
Level: 3	Colour: White	Range: Caster	Duration: 5 Minutes
Verbal: <i>"Sprites of light grant me the power to walk on light"</i>			
Description: This spell allows the wizard to walk on rays of light (equal to a strong "candlelight" or greater intensity). Should the light disappear, the wizard will fall to the ground.			

Snowflake (Other)			
Level: 3	Colour: White	Range: Line of Sight	Duration: The time it takes to fall
Verbal: <i>"Snowflake"</i>			
Description: This spell when cast allows the target to fall any distance and take no damage.			
Note: The spell must be cast before the target hits the ground.			

Light (Range)			
Level: 4	Colour: White	Range: 20'	Duration: 5 Minutes
Verbal: <i>"Sprites of light I conjure thee shine forth over there / around me"</i>			
Description: As Light (Self) except that the light centres on a point up to 20' distant from the wizard. Alternatively, it can be cast on the wizard and move with him.			

Wall of Ice			
Level: 4	Colour: White	Range: 20'	Duration: 5 Minutes
Verbal: <i>"With the mighty powers of cold I create a wall of ice"</i>			
Description: This spell creates an opaque wall of ice 1 foot thick that stretches from wall to wall and floor to roof, to a maximum of 40' in any direction. The wall will take 400 hits (or 100 fire based hits) before collapsing.			

See Through Magical Darkness (Other)			
Level: 4	Colour: White	Range: Touch	Duration: 5 Minutes
Verbal: <i>"Sprites of light grant this person sight through magical darkness"</i>			
Description: This spell confers one willing recipient with the power to see through magical darkness only; it does not mean he can see through ordinary darkness!			

Walk on Light (Other)			
Level: 4	Colour: White	Range: Touch	Duration: 5 Minutes
Verbal: <i>"Sprites of light grant this person the power to walk on light"</i>			
Description: As Walk on Light (Self).			

Freeze			
Level: 6s	Colour: White	Range: 20'	Duration: 5 Minutes
Verbal: <i>"With the might of ice I freeze thee still!"</i>			
Description: This spell freezes one target creature, so that they are frozen in place and cannot move for the duration of the spell.			
Note: This is a stackable Glyph (see Stackable Glyphs on page 8).			
Expertise: If expertly cast the 1st Rune of Freeze works on targets with 5 levels of resistance or below and each rune only costs 5 mana.			

Laser Bolt			
Level: 6	Colour: White	Range: 20'	Duration: 5 Minutes
Verbal: <i>"By the powers of the brightest light I smite thee... Laser Bolt!"</i>			
Description: By casting this spell the wizard creates a beam of light of great intensity that inflicts 24 magical points total body damage and 4 per location to one player. It does 8 hits to a monster. Only MAC may be applied versus the damage from this spell, with each point of MAC reducing the damage by 6/1.			
Expertise: After the first casting within a one-minute period Laser Bolt may now be cast for one mana point less. So a Laser Bolt costs 6 mana, but 5 Laser Bolts unleashed in succession would cost 6+5+5+5+5 = 26 mana rather than 30 mana. Once Table 10 is reached, Laser Bolt becomes a 5-mana glyph to cast.			

Summon Sprite 'Child'			
Level: 6	Colour: White	Range: N / A	Duration: 5 Minutes
Verbal: <i>"By the power at my command I summon the element of light, Come forth child of light I conjure thee, let a sprite of light appear"</i>			
Description: Summons a Sprite with 10 hits which inflicts 6pt Single by Unarmed Combat			
Note: A sprite counteracts magical darkness whilst it is present.			

Talk to Sprite			
Level: 6	Colour: White	Range: N / A	Duration: 5 Minutes
Verbal: <i>"Mighty sprite speak to me and relate what thou knowest"</i>			
Description: The sprite knows what has happened in a 15' radius and only whilst the area was lit. If outdoors the sprite will only know what has happened in the daytime.			

Sabre of Light and Truth			
Level: 7	Colour: White	Range: Caster	Duration: 5 Minutes
Verbal: <i>"Into my hands I call forth the purest light a blade, a hilt and a guard, sabre of light and truth I conjure thee to smite the darkness"</i>			
Description: This spell creates a bastard sword of pure light, useable only by the spell caster and grants the caster B Skill with it. It does 12 points of pure magical damage if wielded in one hand or 15 points of pure magic damage if wielded in two hands. Whilst the spell is active the caster may not wield any other weapon. Versus any evil- or darkness-based creature, the Sabre inflicts an additional 6/1 Blast, to which MAC does not apply (2 Hits). The extra damage will not exceed the user's maximum damage, however, so even though when used in 2 hands versus evil it would inflict Triple +2 hits in a blast, the user may only call Quad without additional abilities to increase their max damage. The wielder can also see through magical darkness.			
Note: This spell is useable only by characters of good alignment.			

Summon Sprite 'Prince'			
Level: 8	Colour: White	Range: N / A	Duration: 5 Minutes
Verbal: <i>"By the power at my command I summon the element of light, come forth prince of light let a sprite of light appear"</i>			
Description: Summons a Sprite with 15 hits which inflicts 9pt Double by Unarmed Combat			

Summon Sprite 'Lord'			
Level: 10	Colour: White	Range: N / A	Duration: 5 Minutes
Verbal: <i>"By the power at my command I summon the element of light, I abjure the elements of darkness, fire, air, earth, and water and I conjure thee, come forth Lord of light I summon thee, let a sprite of light appear"</i>			
Description: Summons a Sprite with 25 hits, which inflicts 12pt Double by Unarmed Combat.			

Advanced Wizardry

Within this section of the book you will find details on the more advanced Magical classes. Sorcerers, High Wizards, Vochstelen, Witch Doctors and Vivomancers are included.

Elysian Vivomancer

Vivomancers are those members of the Elysian race who by virtue of their affinity with goodly powers find it simple to combine goodly spirits and White, Jade, or Gold mana, in much the same way as Labyrinthians who follow the Paths of Holiness or Purity.

They are unable to use any magical item that is not their own Colour(s) and they may only use goodly spiritual items.

Vivomancers gain 3 spirits per level, and half a wizard's mana per level (in a similar fashion to Warlocks). They must choose from White, Jade or Gold as a primary magical colour and they need not learn glyphs of that colour from the Desk, but acquire them automatically. They may only cast glyphs of their primary colour.

A Vivomancer's spirits may only be used to cast miracles that could be cast by a pathed priest. This includes any goodly miracle, plus Protection from Spirits (Evil), Spirit Bolt (versus Evil targets only, but see racial restrictions above), Talk to Spirits (only to deal with the removal of an evil spirit or miracle, or in conjunction with a goodly miracle, such as to find someone's name for a Restore Life miracle).

They must construct a miracle list in the same manner as a Hermit Priest, except that it may only have 30 miracle points on it.

They gain Recognise Mana from 1st level, and spiritual discerns, plus 'release own miracle' at the same levels as a Pure Priest.

They may use equal amounts of mana and spirits combined to cast any standard spell or miracle of not more than half their level (rounded up), in exactly the same way as a Pathed character can. So, for 2 mana and 2 spirits, a 4th level Vivomancer might cast a Cure Serious Wounds 'mantically', thus affecting elves or other spiritless creatures.

Level	Life	Mana	Spirits
1	22/7	1	3
2	23/7	3	6
3	24/7	6	9
4	25/8	10	12
5	26/8	15	15
6	27/8	21	18
7	28/9	28	21
8	29/9	36	24

Vivomancers have a maximum armour class of 6, are unable to ever wear any armour or use a shield. Additionally they cannot use any weapons (even summoned ones). You'll find further details on Elysians in *Evolution: Races*.

Post 8th Development

Vivomancers may buy abilities available to either Pure Priests or Wizards, but are considered 2nd class in both..

They may only ever choose a 2nd Colour from White, Jade or Gold, and may never acquire specialist glyphs; nor may they ever multiclass outside the Wizard/Priest brackets.

High Wizard

A High Wizard is a Mage who has devoted his work and studies in acquiring more magical knowledge, at the expense of his weapon skills.

As such a High Wizard:

- Cannot use any physical weapon. However, as a last resort, he can use weapons created by use of spells.
- Cannot wear or use any armour, and may never gain the ability to do so. However, as a last resort, he can use armour created by the use of spells.
- Cannot carry any non-magical metal at all.
- Gains one additional level in mana and casting. This is a base increase in the Wizard's skill level.

High Wizards regard combat as being the last resort of the incompetent; it must be avoided if at all possible. So when a referee is assessing points and levels a combat orientated high Wizard will be judged very harshly.

In addition, fluency in mana glyphs is essential, if it is proven that a high Wizard cannot translate glyphs quickly and perfectly then the High Wizard 'irreversibly' becomes an ordinary wizard, but no weapon skills may ever be learnt.

In all other aspects, including life points, etc, a High Wizard is identical to an ordinary wizard, choosing a colour as he sees fit, with the same life scales, maximum armour class, etc.

High Wizards may be Humans, Elves, Draves, 1/2 Elves, 1/2 Draves, Ancient Folk, Fairies and Elysians.

Post 8th Development

To maintain their level of magical prowess a High Wizard can never:

- Learn any weapon skill

A High Wizard gains an extra +2% to any Item making or spell research. See the *Manufacturers' Guide* download for further details.

High Wizards progress as 1st Class High Wizards and 1st Class Wizards post 8th level.

Power Master

This class is a cross between Wizard and Monk. These mystic monks are completely dedicated to their chosen element and the belief in self. You'll find more details on these characters in the Warrior's Book: *En Garde!*

Power Warrior

A Power Warrior is either a follower of the Gem: darkness and evil or the Jewel: light and goodness.

A warrior of the Jewel seeks the destruction of all darkness and evil, while Gem followers seek the destruction of all that is light and good. You'll find more details on Power Warriors in the Warrior's book: *En Garde!*

Rogue

This class is a cross between a Wizard and a Pathfinder, often seen as a Wizard that got bored with studying, or a scout with a natural talent for magic. You can find further details in the Pathfinder source book: *At the Sharp End*.

Sorcerer

This class is only available to Ancient Folk (Melnibanions) and represents their old and ancient mastery over the elements. You can find further details on the Ancient Folk in *Evolution: Races*.

The Sorcerer is a class similar to the Warlock, in that Sorcerers have a combination of magical and martial powers.

Sorcerers are well known for their ability to summon and control Elementals and other creatures from "Elsewhere".

Sorcerers have metal and armour restrictions as per Warlocks.

Level	Life	Mana	Magic Skills	Weapon Skills (Max AC 8)
1	25/8	0	Recognise mana	O Skill Sword/Axe/Spear
2	27/9	1	Read glyphs	E Skill
3	29/10	4		B Skill in Bastard Sword/Axe/Spear
4	31/11	9		
5	33/12	16		
6	35/13	25		
7	37/14	36		Specialist Skill*
8	39/15	49		Specialist Skill*

Unlike Wizards and Warlocks, Sorcerers are not bound to a particular colour of magic. Instead they have their own Glyph list, below. These glyphs are learnt automatically as each casting level is acquired.

Sorcerers may not standardly learn specialist glyphs, except that post 8th they may increase their facility as a warlock does – these need not be offensive glyphs however.

*Specialist Skills: Sorcerers may choose specialist skills as per Warlocks.

Sorcerer's Glyph List

Spell	Level	Spell	Level
Detect Magic	0	Talk to Elemental	6
Dispel 1 – 5	1 – 5	Silence	6
Dispel 6 – 10	6 – 10	Sword of Power	6
See Through Magical Darkness (Self)	3	Summon Elemental 6	6
Animate Scarecrow	4	Dancing Venom Sword/Axe	8
Unseen Servant	4	Summon Elemental 8	8
Summon Undine 4	4	Summon Elemental 10	10

Where a spell title contains the word 'elemental', the Sorcerer may choose which type as he casts the spell, using the verbal appropriate for the colour as a normal wizard would. Dancing Venom Sword may instead be used to summon a war-axe if the caster desires.

Expertise: Sorcerers do not have a normal colour of magic but rather have their own Expertise: 'Ritual Arts'.

Ritual Arts: This expertise allows the Sorcerer to reduce the amount of mana needed to cast one of their listed spells [from Glyph List above] by 1 mana, or reduce the casting cost for any spell above by 1 TBLP. In either case the spell must be cast using ritual props and ceremony, taking a minimum of 1 minute to have any benefit.

Post 8th Development

Sorcerers buy and learn skills and abilities as per 1st Class Warlock. They additionally buy as Sorcerer.

Sorcerers do not have a 'colour' but rather can acquire glyphs of a sorcerous nature instead. These are listed after all the other colours in the Grimoire section of this book. Like Warlocks, they are deemed to be in both the Warrior and Wizard class brackets.

Vochstelen

The Circle trains Vochstelen to seek out those with power who, if native to the Southern Baronies, should be brought into the Circle. It is also the duty of the Vochstelen to hunt down those who refuse to accept the authority of the Circle: Hedge Wizards. Remember, only those who are Barony Humans can count as Hedge. Finally, Vochstelen are also responsible for locating outposts of the Fey, who drift into the Southern baronies on a regular basis, perhaps from the Mittlenacht and perhaps from somewhere else.

In Labyrinthia, a similar role is sometimes performed by the Spiritual Warriors of some of the more militant faiths. Vochstelen are unable to use scrolls or other magical abilities, including the ability to discern mana users, when carrying more metal than the equivalent of a suit of chainmail and a bastard sword. They may never under any circumstances acquire mana points.

Discern Mana User is a magical information effect which tells the Vochstelen if the target has mana power points or not. Initially this only detects if the target has mana points or magical innates due to class or race.

Level	Life	Abilities	Weapon Skills (Max AC = 9)
1	28/9	Recognise mana	O and U Skill
2	33/11		E Skill
3	38/13	Read glyphs	H Skill
4	43/14		B Skill
5	48/16		MP Skill
6	53/18	Discern Mana user	
7	58/19		Specialist Skill
8	63/21		Specialist Skill

A Vochstelen's casting level is calculated from 1st level as a normal wizard.

Vochstelen may be any alignment but must be Baronial. They may be either Hedge or Circle members. More details on this can be found in **Evolution: Races**.

Vochstelen can wear any armour they wish, within their metal allowance.

Specialist Skills
+6/2 Stamina
Weapon Mastery
Unarmed Combat
Enhanced Reflexes
War Cry
Chosen of the Dragon

- **Weapon Mastery:** By means of training and practice the Vochstelen may become more skilled with any one specific weapon, e.g. Broadsword, Handmace, Battleaxe, Bastard Sword, Spear, etc. This mastery means that one grade of damage is added to the normal base damage done by a weapon of this type. Any weapon usable by the warrior may be chosen, including 'B' class weapons.
- **Unarmed Combat:** This skill allows you to do damage per blow with his hands as if they were O class weapons (and not any other part of his body). It is only necessary to gently touch the opponent. Anything stronger is unsafe and must be avoided.
- **+6/2 Stamina:** By means of rigorous exercise and training the warlock may become "super fit", giving him an extra 6 total body life points, and an extra 2 life points per location. It does not however increase his level for resisting magic or spirits. This skill may only be taken once by a character.
- **Enhanced Reflexes:** Grants the owner 1 additional point of Dexterity Armour Class. This replaces the first point available post 8th.
- **War Cry:** Grants the user Immunity to a single listed stopping effect, and any repetition of that effect within 5 minutes. A War Cry must be declared within 2 seconds of suffering the initial effect, and must be an obvious loud cry of some sort (e.g. "*Imrazil*", "*For the Circle*", etc.).
- **Chosen of the Dragon:** This ability grants the Vochstelen +2 Dexterity Armour Class, in a similar manner to a bless. As such, it does not stack with any other form of Bless, Chosen, Watching or similar. This is a magical ability.

Post 8th Development

Vochstelen buy as 1st Class Grey Wizards, except they cannot acquire mana points.

Vochstelen may choose to be Martial Vochstelen when the character is created. This means they are also within the Warrior bracket (and can gain a Tradition as such) and may additionally buy as 2nd Class Warrior Subclass.

Witch Doctor

This class is the magical power within a tribe. Barbarian, orc, goblin, troll and ogre tribes all tend to have Witch Doctors. As with Shaman, there can only be one Witch Doctor per tribe, and there is often great hostility between the Shaman and the Witch Doctor.

The Witch Doctor class is identical to Wizard except where noted here:

The Witch Doctor draws his power from the number of tribe members on the adventure with him, and also counts as a tribe member for the purposes of calculating starting mana. This amount of starting mana is calculated as following:

(2 mana) X (Number of Tribe Members) X (Witch Doctor's level)

Thus a 6th level Witch Doctor travelling with 3 additional tribe members (in total, counting as four tribe members) gains:

(2 mana) X (4) X 6 = 48 mana

The Witch Doctor receives no power for the presence of the Shaman, and vice-versa.

The Witch Doctor must be the opposite alignment to the Shaman on a Good / Evil scale. Therefore, a tribe with a goodly Shaman would have an evil Witch Doctor. Ogre and Troll Witch Doctors cannot cast any spell above 4th level, due to their limited intelligence.

They automatically learn all of their own colour and Grey glyphs as they reach the correct casting level.

Witch Doctors may not learn Specialist glyphs. They may only be Black, Brown or White mana users.

In a change to previous rules, Witch Doctors now gain weapon skills as per normal Wizard.

Witch Doctors read magical glyphs and can read and write magical scrolls as per a normal Wizard.

The Witch Doctor gains the racial talents of his race as normal and should this include 'skinning' then the Witch Doctor may wear furs.

Post 8th Development

- Unless specified otherwise Witch Doctors advance as per 1st Class Wizards.
- They do however have different multi-class options available, which are detailed in the multiclass book supplement: ***Evolution: Classes***

New Colours of Magic

Before going into any great detail with these new colours of magic it should be made clear that these glyphs may now be acquired as specialist glyphs.

There are certain alignment requirements for each colour, and should a character change from being within the correct alignment bracket for a new colour then no glyphs from that new colour will be usable by the wizard until the correct alignment is retrieved. The wizard may not elect to change the colour of their second colour, nor respond the points, if such a situation arises.

As per any other Wizards, New Colour spells may be written as scrolls (and bound into items by the wizards with the relevant skills).

Colour	Alignment Required
Gold	Any Good (or Lawful Neutral)
Silver	Any Neutral
Bronze	Any Evil (or Chaotic Neutral)
Ivory	Any Lawful
Ebony	Any Chaotic
Jade	Any Goodly
Onyx	Any Evil

The new colours are, generally, not as potent as an Elemental colour, having fewer spells available to them.

Sources of New Power

The first of the new colours of magic came from the second clutch of eggs of the Mother of all Dragons, which have finally reached maturity. The younger clutch, not being as powerful as their older brothers or sisters, are named Drakes, or Lesser Dragons. The Jade and Onyx Dragons were born through the dangerous ritual acts of individuals that led to the weakening of the Black Mana Dragon.

Gold Dragon	He represents the use of mana to personally help the target. He is a beneficial Drake, and his wizards reflect that power.
Silver Drake	This is an insatiably curious creature, whose powers may be used for divination and information acquisition.
Bronze Drake	This Drake believes in power dominating others and his spells involve forcing animate targets to obey his will.
Ivory Dragon	He chooses his followers from the militant members of the wizard caste, granting power to the people willing to follow his particular code of honour and, in return, granting might in battle.
Ebony Dragon	He is the mortal foe of the Ivory Drake, whose followers believe in the use of stealth and subterfuge to slay their opponents.
Jade Dragon	Bound to the power of the elements that forge the body of the living. It empowers them and strengthens them.
Onyx Dragon	The twin of the Jade Dragon. As with the Jade Dragon it is bound to the power of the elements that forge the body of the living. Unlike Jade, however, it holds power over weakening, crippling and even killing individuals.

Bronze Magic

Tell Strength			
Level: 0	Colour: Bronze	Range: 20'	Duration: Instant
Verbal: "By the Drake reveal thine strength"			
Description: This reveals to the wizard the resistance level of the target with respect to bronze magic. The response that the wizard receives is the number of stackable runes that would need to be cast on the target in order for a stackable spell to work. See Silver cantrip 'Tell Strength' on page 33 for further details.			

Limb Thrall			
Level: 2	Colour: Bronze	Range: 20'	Duration: 5 Minutes
Verbal: "Fool, feel the might of true power.....Limb Thrall"			
Description: This is a level-based stackable spell, with resistances applying as listed under the Tell Strength spell listed above. All other effects of the spell are as the spell Thrall, below, but it applies to only one limb at a time. The casting wizard may have more than one Limb Thrall active at a time.			
Note: This is a stackable Glyph (see Stackable Glyphs on page 8).			

Shudder			
Level: 4	Colour: Bronze	Range: 20'	Duration: 5 Minutes
Verbal: "Fool, feel your mortal form twist and shudder under my power"			
Description: The target of the spell suffers a 3 point drop in Dexterity Armour Class, caused by uncontrollable shakes. This can negate Physical Armour Class, but will not drop the total armour class below 0. If this is cast on a monster then it decreases the monsters hits by 6. The minimum number of hits that a monster can be left with is 1, as clearly this spell cannot kill, but merely increase the amount of damage that the victim receives during combat. This spell does not stack with itself. Immunity to Dexterity Drain or Domination effects applies.			

Thrall				
Level:	6	Colour:	Bronze	Range: 20ft Duration: 5 minutes
Verbal: <i>"By the might of the Bronze Drake I am now your master and ye shall follow my commands.....Thrall 4 levels"</i>				
Description: This is a stackable spell, similar to Sleep, but the target comes under the control of the casting wizard, becoming an unwilling automaton. The thrall will do nothing unless ordered to do so by the wizard, which includes defending themselves. The target retains life/hit points and resistances as usual, but loses all weapon masteries, Dexterity Armour Class and any skill that requires knowledge, which includes spell casting, or using mystical innates. Only neuronics and other powers that may be triggered without any exterior motion or verbals can be used at the will of the victim. The victim can be ordered to commit suicide, but it must beat itself to death using its own strength. A Thrall victim automatically develops the Unarmed Combat ability and may use any Strength abilities that it may have. Also, they are not penalised for actions committed whilst under the influence of the spell – i.e. a Priest drawing blood has no side effects.				
Should the casting Wizard of the Thrall die; the spell is broken – as it is should the caster lose consciousness.				
Note: This is a stackable Glyph (see Stackable Glyphs on page 8). Expertise: May cast Thrall for 5 mana per rune, with the 1st rune affecting 5 levels of resistance or less.				

Words of Pain				
Level:	14	Colour:	Bronze	Range: 20' Duration: 5 Minutes
Verbal: <i>"Hear now my Words Of Pain....."</i>				
Description: The target stands or falls writhing in agony, unable to make any other action unless struck by another blow or spell. During this period the target takes 6 TBLP damage and 1 point to each location (2 hits to a monster) per 15 seconds, as long as the casting wizard stands talking to the target, up to a maximum of 5 minutes. The damage ignores any form of armour class. Should the wizard elect to move around or stop talking, if the wizard takes damage, or if the target takes any other damage then the spell is cancelled. This spell does not affect creatures which do not feel pain, such as elementals, undead and the like. This is not a listed stopping effect, and only complete immunity to pain effects can prevent the writhing detailed above.				
Expertise: May now cast this spell for 12 mana.				

Words of Death				
Level:	16	Colour:	Bronze	Range: 20' Duration: 2 Minutes
Verbal: <i>"Hear now my Words of Death....."</i>				
Description: As long as the wizard does not move from where they stand and they keep talking to the target then the target will suffer the effects of a magical disorder, which progresses at the following rate: Up to 1 minute: they become too weak to move or cast, and collapse After 1 minute: they are unconscious After 2 minutes: they die				
This spell is broken if the wizard takes damage, casts another spell or moves from where he is standing, and then the mana is wasted. The spell is not broken should the target be struck, however. As this produces effects like a disease, any creatures that are immune to disease are not affected by this spell.				
Expertise: May now cast this spell for 14 mana.				

Ebony Magic

Pain				
Level:	2	Colour:	Ebony	Range: 20' Duration: Instant
Verbal: <i>"By the Ebony Drake I smite thee with Pain"</i>				
Description: The target of the spell is struck with a nerve-wracking pain which causes 12 TBLP damage (4 hits to a monster) – magical armour class does protect against this damage (at 1 for 1), and the damage is magical. Only creatures vulnerable to pain are affected, of course – undead and elementals, for example, are unharmed.				

Confusion				
Level:	4	Colour:	Ebony	Range: 20' Duration: 5 Minutes
Verbal: <i>"Be thou filled with doubt and confusion"</i>				
Description: This stackable spell causes a target affected to become unsure of what they are doing. They regard all around them as potential enemies, but will only initiate violence against those who attack them. They will otherwise take no other action other than to defend themselves. This is a domination effect, not a stopping effect.				
Note: This is a stackable Glyph (see Stackable Glyphs on page 8). Expertise: May now cast this spell for 3 mana per rune, and starting at 5 levels of effect.				

Spell Shield				
Level:	5	Colour:	Ebony	Range: Self Duration: 5 Minutes
Verbal: <i>"Shield my body from magic, great Ebony Drake"</i>				
Description: This spell prevents any information spell working on the Ebony wizard for the duration of the Spell Shield spell. This includes Detect Magic, but Recognise Mana will still give the normal responses.				

Induce Spasm				
Level:	6	Colour:	Ebony	Range: 20' Duration: 5 Minutes
Verbal: <i>"By Ebony power, let thy body wrack and spasm"</i>				
Description: This is a stackable spell, much like Confusion, but the target will fall to the ground and writhe uncontrollably for the duration of the spell. It is not a Domination effect, but a listed stopping effect.				
Note: This is a stackable Glyph (see Stackable Glyphs on page 8). Expertise: May now cast this spell for 5 mana per rune, with the 1st rune affecting 5 levels of resistance or less.				

Pass Unknown				
Level:	8	Colour:	Ebony	Range: Self Duration: 5 Minutes
Verbal: <i>"May Ebony power make my step unknown"</i>				

Description: The caster makes no noise (unless deliberate), nor can be located by smell, granting invisibility to those two senses only – immunity to Acute Hearing and Locational Sniff. It also prevents detection by Mana Sight and Elemental Sight, and other visual detections by creatures made by magic without minds, e.g. statues, not elves. This spell is broken if the caster engages in melee combat (including use of any weapon, including MP and HP, or pure summoned ones).

Mist

Level: 10 **Colour:** Ebony **Range:** Self / 10' Radius **Duration:** 5 Minutes

Verbal: *"With Ebony power let mist rise and hide me from my foes"*

Description: The spell causes a thick mist to develop around the wizard, which moves as they do, maintaining a 10' radius around them. Whilst the casting wizard can see perfectly within the mist, no others can. Unintelligent creatures will not venture into the mist and those within the mist will try and leave it as swiftly as possible.

Escape

Level: 12 **Colour:** Ebony **Range:** Self **Duration:** Instant

Verbal: *"Ebony Drake take me hence"*

Description: This spell takes the wizard to any point that they had already been to during the course of the adventure, including the start point of the adventure. This spell will not, however, cross planes, dimensions or any other mystical distances, and in all ways is treated as the Blink spell. Memorised locations may be learnt for 5pts each post 8th level, [cf. Teleport, on page 60].

Gold Magic

Mark Ally

Level: 0 **Colour:** Gold **Range:** Touch **Duration:** Adventure

Verbal: *"Let our trust reside together"*

Description: This cantrip can only be cast upon a willing target and cannot be dispelled – the casting wizard must be told by the target if they refuse to accept the mark, thus making them an unwilling target. This spell has several purposes. Firstly, certain spells can only be cast on a target who has been marked as an ally by the wizard; these spells are the 'beneficial other' spells from Gold magic, and certain other Gold spells contained in this supplement. Secondly, should a marked ally attack the wizard, then they will suffer the reverse effect of any spell cast upon them by the golden wizard – this includes any spells cast prior or subsequent to the treachery. This spell may be cast on self if desired.

Shield (Self)

Level: 2 **Colour:** Gold **Range:** Self **Duration:** 5 Minutes

Verbal: *"May the Golden Drake shield my body"*

Description: The caster receives +2 Magical Armour Class and +2 Physical Armour Class. This armour can stack with any other magical or physical defence, but not Plate (Self), Plate (Other) or other spells which preclude the stacking of armour. It cannot stack with itself.

Shield (Other)

Level: 3 **Colour:** Gold **Range:** Touch **Duration:** 5 Minutes

Verbal: *"May the Golden Drake shield your body"*

Description: As Shield (self), but this can only be cast on an ally, as described under the Mark Ally spell described above.

Expertise: May be cast for only 2 mana on allies.

Lesser Forcewall

Level: 4 **Colour:** Gold **Range:** 20' **Duration:** 5 Minutes

Verbal: *"May the gold drake erect a shining wall of force."*

Description: Creates a shimmering wall of gold force that is impenetrable to either magical or physical objects or beings. This wall can be dissipated by use of the casting wizard's command word, as described under Forcewall below. The wall can be up to 20' high and 20' across, and must be a straight line.

Strengthen (Self)

Level: 5 **Colour:** Gold **Range:** Self **Duration:** 5 Minutes

Verbal: *"Feel the power through my limbs, the Drake has strengthened my body to resist my foes".*

Description: This increases the resistance level for the purposes of magical and physical effects for the wizard to 10 levels. If the spell is cast after a level-based spell has already affected the wizard then the increase is only to 9 levels of resistance. Note: this does not stack with already raised increases in resistance, or those bought on the post-8th tables – the increase is limited to 9 and 10.

Hearten (Self)

Level: 6 **Colour:** Gold **Range:** Self **Duration:** 5 Minutes

Verbal: *"Golden Drake, strengthen my heart with your power".*

Description: This spell temporarily grants immunity to all forms of non-spiritual domination, non-spiritual fear and non-spiritual paralysis. If the caster is still mobile he may cast this spell after another spell has affected him, e.g. if he is not paralysed.

Strengthen (Other)

Level: 6 **Colour:** Gold **Range:** Touch **Duration:** 5 Minutes

Verbal: *"Feel the power through your limbs, the Drake has strengthened your body to resist your foes"*

Description: As Strengthen (Self), except that it works on those targets detailed under the Mark Ally spell.

Expertise: May be cast for only 5 mana on allies.

Hearten (Other)

Level: 7 **Colour:** Gold **Range:** Touch **Duration:** 5 Minutes

Verbal: *"Let the Golden Drake strengthen your heart with its power"*

Description: As the Hearten (Self) spell, except that it only works on those targets detailed under the Mark Ally spell.

Expertise: May be cast for only 6 mana on allies.

Warding			
Level:	10	Colour:	Gold
		Range:	20'
		Duration:	5 Minutes
Verbal: <i>"The Golden Drake wards your presence from me, foe"</i>			
Description: This spell prevents one opponent with less than 10 levels of resistance from attacking the wizard, or from approaching within 10', forcing them to back away if need be. The spell is broken if the wizard casts another spell, moves faster than a walk, attacks, or if the target is cornered and cannot get out of the 10' radius.			

Forcewall			
Level:	12	Colour:	Gold
		Range:	20'
		Duration:	12 hours
Verbal: <i>"Golden Drake, I beseech thee, erect a wall of force to protect my companions"</i>			
Description: This creates a wall of force, which is purely magical, and will prevent any creature, which is not purely spiritual or completely immune to magic, from passing the wall. It can be up to 30' long and 30' high, but must be in a straight line. The wizard can elect to cancel it at any time, otherwise it can be released by use of a command word. The same command word must always be used by the wizard and must be written on his character card. The command word can be acquired by casting a Talk to Inanimate spell onto the Forcewall. Any who know the password may also lower the Forcewall.			

Ivory Magic

The Ivory Drake seeks to grant her followers might in magic, on the condition that they accept her own rules and conditions. She is a lawful entity, and her code is to be adhered to by all her followers. To break the code results in the loss of all Ivory spells until the character has atoned. This atonement either happens at the end of the adventure or at a time previous to that at the referees' discretion. This applies to Ivory Draves equally. Additionally any active Ivory spells on the character immediately go down.

The Code of the Ivory Wizard

- Never attack or harm a Marked Ally, except in defence of self or another Marked Ally.
- Never knowingly lie or allow your statements to be misunderstood, although you may refuse to answer or speak.
- Never hide your status, nor allow those to misunderstand your status.

Those that acquire these spells as specialists find the mana difficult to use and as such may not apply any form of mana reduction to the spell.

Mark Ally			
Level:	0	Colour:	Ivory
		Range:	Touch
		Duration:	Adventure
Verbal: <i>"Let our trust reside together"</i>			
Description: This cantrip can only be cast upon a willing target and cannot be dispelled – the casting wizard must be told by the target if they refuse to accept the mark, thus making them an unwilling target. This spell has several purposes. Firstly, certain spells can only be cast on a target who has been marked as an ally by the wizard; these spells are the 'beneficial other' spells of Ivory magic, and certain other Ivory spells contained in this supplement. Secondly, should a marked ally attack the wizard then they will suffer the reverse effect of any spell cast upon them by the ivory wizard. This includes any spells cast prior or subsequent to the treachery.			
Note: Should the spell caster have access to Gold and Ivory magic it is necessary for the target to receive two separate mark allies – in order to benefit from both colours. I.e. they are different and separate spells. Mark Ally may be cast on self if desired.			

Might (Self)			
Level:	4	Colour:	Ivory
		Range:	Self
		Duration:	1 hour
Verbal: <i>"May the Drake give me strength"</i>			
Description: The caster gains +6/2 temporary life for the duration of the spell, which cannot be cured by spiritual means. This spell will not stack with itself or any other temporary life-gains, except those from other Ivory spells.			

Might (Other)			
Level:	5	Colour:	Ivory
		Range:	Touch
		Duration:	1 hour
Verbal: <i>"May the Drake grant my ally strength to fight beside me"</i>			
Description: May only be cast on a Marked Ally. Recipient gains +6/2 temporary life in all ways as Might above, only while within 20' of the caster, for the duration of the spell. Should the beneficiary leave this radius, the benefits are lost until the radius is entered again.			

Traitors Shield			
Level:	6	Colour:	Ivory
		Range:	Self
		Duration:	Adventure
Verbal: <i>"May the Ivory Drake shield me from the acts of a traitor"</i>			
Description: This spell only works if the wizard is attacked by a creature/character who previously on the adventure was marked as being an ally by the Mark Ally spell. Should that ally subsequently attack the caster, the caster benefits as follows:			
1: Armour class rises to the maximum armour class of the wizard against attacks from the traitor – this means Magical, Physical and Dexterity armour class.			
2: The wizard gains 18 TBLP and 3 life per location with respect to damage from the Traitor, and the Traitor only. These extra life points cannot be cured by spiritual means.			

Freedom of the Drake			
Level:	6	Colour:	Ivory
		Range:	Self
		Duration:	5 Minutes
Verbal: <i>"I have the strength of my Drake"</i>			
Description: In most ways as the published ability War Cry. If used within 2 seconds of a listed stopping effect, Freedom of the Drake allows the caster to shrug it off and continue to act normally. Furthermore, the caster becomes immune to that stopping effect for a further 5 minutes. However, this spell may not be used against spiritual or 'mantic stopping effects, except by elves or draves.			

Mobility			
Level:	8	Colour:	Ivory
Range:	Self	Duration:	5 Minutes
Verbal: <i>"May the Ivory Drake grant me great purpose in my actions"</i>			
Description: The wizard cannot, for the duration of the spell, suffer from the effects of the following spells: Bind, Entangle, Magnetise, Freeze (white glyph only), Trip, Slip, Catalepsy, Sleep, Slow, spells which repel the wizard, magical petrification or similar magical stopping/slowing effects. Neither are they affected by physical effects that would mimic the above, such as Knockbacks or Knockdowns.			

Ivory Warrior			
Level:	8	Colour:	Ivory
Range:	Self	Duration:	30 minutes
Verbal: <i>"May the Ivory Drake grant me the might of her champion, let the power enter my form and strengthen my purpose to that of X men"</i>			
Description: Each glyph that the wizard activates on himself at the time of casting strengthens them, turning them into a mighty war machine. For each additional glyph used, the verbal changes to granting the power of 3, 4 or more men. Once the spell has been cast it cannot be added to until the previous spell expires. As with all stackable spells each glyph must be dispelled, and until all glyphs have been dispelled the spell remains at full potency.			
	Glyphs Cast	Max A/C increase	Life increase
	1	+1	+6/2
	2	+2 (Total)	+12/4
	3	+3 (Total)	+18/6
Each additional glyph adds +6/+2 life points, +1 maximum armour class (up to a maximum armour class of 12) and 1 point of Dexterity armour class.			
Note: none of the additional life points may be spiritually cured. The life from this spell is non-stacking with other temporary life-increases except those granted by other Ivory spells.			
Note: This is a stackable Glyph (see Stackable Glyphs on page 8). Not more than 6 runes may be benefited from at any one time.			
Expertise: May now cast this spell for 7 mana for the 1st rune, and 6 mana for each additional rune.			

Enhance Weapon			
Level:	10	Colour:	Ivory
Range:	Self	Duration:	5 Minutes
Verbal: <i>"Ivory Drake, twist and transform this wizard's weapon such that my opponents will fear its blow"</i>			
Description: This spell will magically augment a traditional wizard's weapon, i.e. staff, spear or dagger. The weapon can only be used by the wizard who cast the spell, and they cannot be physically disarmed, although a Vanish will remove the weapon for 5 minutes. The weapon is modified as follows:			
1: The weapon does 3 more magical damage grades, (i.e. +3 magical damage) stopping at the wizards maximum damage. Normally, the maximum is quad.			
2: The damage done ignores Physical armour – only Magical and Dexterity armour can be used in defence against it.			
3: The weapon will shatter any normal weapon, shield or armour used in defence against it. It does not shatter anything else.			
If cast by a Warlock (only), this spell will enhance any weapon instead of the above weapon types, if so desired.			

Sanctuary			
Level:	15	Colour:	Ivory
Range:	30' radius	Duration:	12 hours
Verbal: <i>"The Ivory Drake offers shelter to all her allies who seek rest and shelter within the boundaries of her sanctuary"</i>			
Description: Within the range of the spell all Marked Allies of the wizard receive the following bonuses:			
1: +2 Dexterity armour class. This acts as the Chosen Of The Dragon ability in the <i>Post 8th Tables (Later in the book)</i> . This means that the +2 DAC does not stack with blesses, curses or similar watchings.			
2: 25% reduction of non-purely spiritual damage after armour calculations. which does not stack with any other percentile reductions of damage.			
3: 9th level of resistance to magical attacks – this does not stack with any other resistance level increases.			
Note: The spell cannot be moved in any way, and no bonuses are gained unless the casting wizard is within the radius.			

Silver Magic

Expertise: A Silver Wizard may recast any published informational Silver glyph they have cast within the last minute for 4 mana less, to a minimum of 1 mana. The first instance that this spell is cast must be at normal cost. This can be used at most once per 15 minutes. This reduction is not cumulative with any other mana cost reduction. The spell must be used there and then – it cannot be stored, or held over in anyway.

To be clear all of these spells are magical informational spells.

Tell Strength			
Level:	0	Colour:	Silver
Range:	20'	Duration:	Instant
Verbal: <i>"By the Dragon reveal thine strength"</i>			
Description: This reveals to the wizard the resistance level of the target with respect to Silver magic. The response that the wizard receives is the number of stackable runes that would need to be cast on the target in order for a stackable spell to work.			
1 stackable rune	4th level	2 stackable runes	5th level
3 stackable runes	6th level	4 stackable runes	7th level
5 stackable runes	8th level	each additional rune	+1 level
For example, Tell Strength on a 5th level player character would result in the response being '2 stackable runes'.			

Tell Power			
Level:	1	Colour:	Silver
Range:	20'	Duration:	Instant
Verbal: <i>"The Silver Dragon desires knowledge of your power"</i>			
Description: This tells the caster what mana points and colours of mana are currently active on the target, but not what the actual spells are.			

Tell Colour			
Level:	1	Colour:	Silver
		Range:	20'
		Duration:	Instant
Verbal: <i>"The Silver Dragon desires knowledge of your colour"</i>			
Description: This tells the caster the colour of either a spell that they can see the ongoing effects of, or the colour of another Wizard, Warlock, Power Master (or any other type of spellcaster who uses either innate power points or innate spells). If the target possesses more than one colour, knowledge is granted of all colours.			

Tell Wounds			
Level:	2	Colour:	Silver
		Range:	20'
		Duration:	Instant
Verbal: <i>"The Silver Dragon desires knowledge of your wounds"</i>			
Description: This acts in all manners as the priestly Discern Nature of Wounds ability. However, this spell will only work on either Elves or similar magical creatures, or on the wizard who cast it.			

Tell Form			
Level:	2	Colour:	Silver
		Range:	20'
		Duration:	Instant
Verbal: <i>"Tell me your form"</i>			
Description: This tells the wizard the species of the target (e.g. Human, Troll, 1/2-Orc, Undead, Wood Elf or Statue). Note that this spell will not differentiate between different types of the same species.			

Tell Tracks			
Level:	2	Colour:	Silver
		Range:	Self
		Duration:	30 seconds
Verbal: <i>"Silver Dragon, what has passed here?"</i>			
Description: This spell grants the caster the skills Tracking and Shadowing for the duration, except that the caster has no need to keep a Track list as would a ranger, as the Silver Drake has prior knowledge of all forms.			

Inquiry			
Level:	3	Colour:	Silver
		Range:	20'
		Duration:	Instant
Verbal: <i>"Elements, answer me this..."</i>			
Description: This allows the wizard to ask one question of all of the surrounding ambient elements of Air, Earth, Fire, Water, Light and Darkness. The elements collectively answer with a phrase of up to 3 words. The subject of the question must be within 20' and the elements are only aware of events that have occurred in their presence. If animate elements (such as Elementals) are present then they may be asked the question, though their answer will depend on their intelligence and they may lie.			

True Sight			
Level:	6	Colour:	Silver
		Range:	Self
		Duration:	5 Minutes
Verbal: <i>"Silver Dragon, remove all deceptions from my sight"</i>			
Description: The caster is no longer affected by illusions and can see them for what they are. The wizard can see magically or physically chameleoned, invisible or otherwise hidden objects – they are immune to all visual magic or physical deceptions, seeing through disguises instantly and so on. This spell is however an Informational spell – and Immunity to Informational Spells stops it working on that individual.			

Know Foe			
Level:	12	Colour:	Silver
		Range:	20'
		Duration:	24 hours
Verbal: <i>"The Silver Dragon demands knowledge of thee, foe"</i>			
Description: The caster sets up a link between themselves and a target creature. The wizard receives a bonus of 4 points of Dexterity Armour Class with respect to damage from the target, and gains a non-cumulative weapon mastery in any physical weapon, or weapon created by mana, used by the wizard. The target is unable to use any attack mode against the wizard bar a weapon, and may not use any special attack modes bar from the innate nature of the weapon. For instance, a target Warlock could continue to use their magic sword, but they could not cast a Lightning Bolt, nor could they use the Shock spell that their sword could otherwise use once per day.			
Note, the benefits are the game effects of the casting wizard deducing all magical information about the target – no other information is to be given to the wizard.			

Jade Magic

In order to cast a Jade spell a person must be of goodly alignment. As such, only Goodly aligned characters may learn them as Specialists. Jade magic will only function against the living. So Undead, Golems, Elementals and the like are immune.

Reveal Living			
Level:	0	Colour:	Jade
		Range:	20ft
		Duration:	Instant
Verbal: <i>"I call upon the powers of the body and the flesh to reveal to me if life may be found... Reveal Living"</i>			
Description: Reveals if a target is "living" for the purposes of Jade/Onyx magic			

Strength Within			
Level:	3	Colour:	Jade
		Range:	Touch
		Duration:	1 minute
Verbal: <i>"May the life within grow strong and verdant power endure "</i>			
Description: Grants the recipient 12 points of casting stamina for the duration. Does not stack with itself.			

Strengthen the Body			
Level:	4	Colour:	Jade
		Range:	Touch
		Duration:	5 Minutes
Verbal: <i>"Let verdant force strengthen your body"</i>			
Description: Grants the recipient immunity to bruising using PAC, DAC, and/or MAC.			

Revive the Body							
Level:	6	Colour:	Jade	Range:	Touch	Duration:	1 Minute
Verbal: <i>“Let the power of the verdant dragon flow into your body. Where it has given way to harm let it rise again, where it has faded due to weakness let it grow strong. Let jade power revive your body.”</i>							
Description: Returns an individual to consciousness for the duration if they are unconscious due to damage. Also ensures all limbs work for the duration if they are not working due to damage.							

Empower Form							
Level:	6	Colour:	Jade	Range:	Touch	Duration:	5 Minutes
Verbal: <i>"May verdant power flow through your body and empower your form"</i>							
Description: Grants the recipient +18/6 life temp life. Does not stack with other supernatural temp life, including itself.							

Eternal Life							
Level:	6	Colour:	Jade	Range:	Touch	Duration:	5 minutes
Verbal: <i>"Let Verdant power renew your form"</i>							
Description: Grants the target immunity to ageing.							

Renew the Body							
Level:	6	Colour:	Jade	Range:	Touch	Duration:	Instant/5 minutes with expertise
Verbal: <i>“May verdant power touch your form, let the weakness that afflicts you fade and pass.”</i>							
Description: Removes all ongoing strength and dexterity drains from the recipient. This does not remove spiritual effects.							
Expertise: If cast on a target that is not suffering from a strength or dexterity drain then the spell can instead grant them immunity to non-spiritual versions of these effects for 5 minutes.							

Fortitude							
Level:	8	Colour:	Jade	Range:	Touch	Duration:	5 Minutes
Verbal: <i>"May your blood cease to flow, your heart cease to beat, your lungs cease to draw breath, and your body be as magic as verdant magic sustains they life."</i>							
Description: Grants the target immunity to flesh and blood effects (including pain) for the duration. For 15 minutes after the spell ends (even if dispelled or otherwise ended prematurely) they have ½ effect beneficial flesh and blood (including potions).							
Expertise: The spell no longer has the detrimental effects after it ends.							

Harden the Body							
Level:	10	Colour:	Jade	Range:	Touch	Duration:	5 minutes
Verbal: "Let verdant power touch your body, where it was weak let it become strong."							
Description: Grants the recipient 25% off all bar purely spirit damage.							

Purge the Dracon Corpus							
Level:	10	Colour:	Jade	Range:	20ft	Duration:	Instant
Verbal: <i>"Feel the touch of the Jade Dragon as it purifies your body"</i>							
Description: Removes all ongoing Onyx spells from the target.							

Onyx Magic

In order to cast an Onyx spell a person must be of evil alignment, as such only Evil characters may learn them as Specialists. Onyx magic will only function against the living. So Undead, Golems, Elementals and the like are immune.

Reveal Living							
Level:	0	Colour:	Onyx	Range:	20ft	Duration:	Instant
Verbal: <i>"I call upon the powers of the body and the flesh to reveal to me if life may be found... Reveal Living "</i>							
Description: Reveals if a target is "living" for the purposes of Jade/Onyx magic.							

Nature of the Child							
Level:	2+X	Colour:	Onyx	Range:	20'	Duration:	5 minutes
Verbal: <i>"Let your reflexes slow and wits fade as the onyx dragon twists your form"</i>							
Description: Causes the target to lose X points of DAC for the duration. This cannot reduce the target below 0 DAC.							
Expertise: The spell costs 2 mana less to cast, to a minimum of 3 mana.							

Decay the Form							
Level:	5	Colour:	Onyx	Range:	20'	Duration:	5 minutes
Verbal: <i>"Let your body fade away to nothing as the onyx dragon decays your form "</i>							
Description: Reduces the targets maximum life by 6/2 (2 hits) per casting. This will stack with itself. Immunity to diminish spirit applies.							
Expertise: The first Decay the Form cast on a target causes them to lose 12/4 life (4 hits).							

Frailty of Age				
Level:	8	Colour:	Onyx	Range: 20'
Duration: 5 Minutes				
Verbal: <i>"The onyx dragon twists your body, let your muscles weaken and strength fade "</i>				
Description: Causes the target to lose a grade of strength for the duration of the spell, to a minimum of zero.				

Rend the body				
Level:	8	Colour:	Onyx	Range: 20ft
Duration: Instant				
Verbal: <i>"The onyx dragon rips through your flesh, severing muscles to rend the body "</i>				
Description: Causes the target to suffer 24/4 (8 Hits) damage, to which MAC does not apply. Immunity to Involuntary Shape-shifting applies.				

The Body Crumbles				
Level:	8	Colour:	Onyx	Range: 20ft
Duration: 15 minutes				
Verbal: <i>"Your flesh is ruined and bones brittle. Feel the might of the onyx drake as your body crumbles."</i>				
Description: Causes all published active onyx spells on the target to become 15 minutes in duration.				

Wither				
Level:	10	Colour:	Onyx	Range: 20ft
Duration: 5 minutes				
Verbal: <i>"The onyx drake grips your let bones crumble and flesh wither"</i>				
Description: Causes the target limb to become withered and unusable for the duration. The limb is still present and as such can suffer damage.				

Heart Attack				
Level:	10	Colour:	Onyx	Range: 20'
Duration: Instant/10 seconds				
Verbal: <i>"The onyx dragon holds your heart in his claws, shudder and die now as they close... Heart Attack"</i>				
Description: Causes the target's heart to cease to beat for a few seconds, causing them to suffer 18 TBLP, 18 to the chest (6 hits to a monster), to which MAC does not apply. Additionally, the target suffers a magical Halt, at the caster's skill level. This is a flesh and blood effect, and immunity to flesh and blood effects applies.				

Weaken the Body				
Level:	10	Colour:	Onyx	Range: 20ft
Duration: 5 Minutes				
Verbal: <i>"The might of the onyx dragon grips your flesh and weakens your body"</i>				
Description: Causes the target to suffer 25% more damage from any magical attack. This applies vs pure weapon blows, but not those with a physical component. Immunity to Involuntary Shape-shifting applies.				

Wizardly Post 8th Abilities

- 1st Class High Wizards buy abilities as per 1st Class High Wizards and 1st Class Wizards.
- 2nd Class High Wizards buy abilities as per High Wizard and Wizard.
- In a change to previous rules Warlocks can only buy abilities listed specifically as Warlock, ALL and ANY.
- ‘ANY’ refers to any class able to buy in the Wizard bracket (including Rogues, Power Masters, etc.)

Table 1

[0pts Post 8th Level]

Wizard / Warlock Innate Spells

Any Wizard or Warlock may select from this table

Cost: 8 pts / mp / day

Verbal: Full verbal gesture: As Standard

Effect: As published – includes life point loss

Any Wizard or Warlock may elect to learn some of their spells innately, such that they can be cast without any mana point cost, but still with any associated life point cost. Only Standard or basic spells that are already known by the spell caster may be chosen, and they must be either of their own colours or grey – a Red Wizard cannot learn Dancing Venom Sword innately, or even Disintegrate (Range). A Grey Wizard may select different spell innates from each colour already known, whereas a Warlock may select offensive spells from those already known.

Apprentice Bonding	
Available To: 1st Class Wizard	Cost: 15pts
Two wizards must buy this simultaneously, and the fellow Wizard must be named on the character card. The apprenticeship grants the Apprentice +3 mana of the colour of the master. The master (who must buy this ability on Table 9) gains +1 casting level in his colour only. Both Wizards must be the same primary colour.	

Ivory Advocate	
Available To: 1 st Class Wizard or 1 st Class Warlock with Ivory as a colour	Cost: 100pts
Gains a 1 mana reduction in casting 1st -4th Level Ivory spells; 2 mana reduction in casting 5th-7 th ; 3 mana reduction in casting 8th-11th; and 4 maa reduction in casting 12 mana or higher-cost spells. This only stacks with Expertise. This ability is lost if ever ceases to be bound by the Ivory code.	

Draconic Advocate	
Available To: 1st Class Wizard	Cost: 125pts
+1 level of mana and casting, cumulative with the abilities on Tables 9 and 12. May not path or multi-class outside the Wizard bracket. May not buy any ability except those available to Wizard. ALL classes, or those gained as racial abilities.	

Draconic Advocate	
Available To: 1st Class High Wizard	Cost: 125pts
+1 level of mana and casting cumulative with the abilities on Tables 9 and 12. May not path or multi-class outside the Wizard bracket except via the Mancer class. May not buy any ability except those available to Wizard, ALL classes, or those gained as racial abilities.	

Magical Focus	
Available To: 1st Class High Wizard	Cost: 30pts
Available To: 1st Class Wizard & Sorcerer	Cost: 45pts
Whilst one or both hands are holding a non-weapon or shield magical focus, and neither are holding a weapon, usually a wand, non-combat staff which is never used to strike blows or similar, the caster temporarily gains 2 casting levels until the item is put down again. This ability is useable at will but not during research of new spells. An excellent phys rep is required. Should the focus be used to strike or parry a blow, the points on this ability are lost and wasted.	

1st Rank of Mana	
Available To: Any	Cost: 40pts
Gains an extra 10 mana (total)	

2nd Rank of Mana	
Available To: Any	Cost: +40pts
From 1st Rank of Mana: Gains an extra 19 mana (total).	

Casting Level I	
Available To: Any	Cost: 35pts
1st extra level for calculating damage suffered by spell caster.	

Casting Level II	
Available To: Any	Cost: +40pts
From Casting Level I: 2nd extra level for calculating damage suffered by spell caster.	

Casting Level III		
Available To: Any	Cost: +45pts	
From Casting Level II: 3rd extra level for calculating damage suffered by spell caster.		

Specialists I		
Available To: Wizard	Cost: 50pts	
Gains +5 (total) non-grey non-opposite spells into capacity, i.e. +5 specialist glyph slots.		

Discern Associated Mana		
Available To: Any	Cost: 20pts	
This ability reveals to the mana-user how much mana they have remaining.		

Summoned Weapon Mastery		
Available To: Any	Cost: 40pts	
1st Weapon Mastery with Sword of Power, Sabre of Light & Truth, or Sabre of Darkness & Deceit.		

Personal Research		
Available To: Any	Cost: special*	
May fill a specialist slot with a Standard glyph of choice. 5pts + 1pt / spell level and spell level squared x 10 in grulls. E.g. Learning Blink as a Specialist spell would cost 11pts and 360 grulls.		

Rainbow		
Available To: Grey Wizard	Cost: 50pts	
Now gains 4 specialist slots per Elemental colour from 3.		

A New Rainbow		
Available To: Grey Wizard	Cost: 50pts	
Now gains 1 specialist slot per New colour.		

Good Memory for Languages		
Available To: Silver Wizard	Cost: 25pts	
This allows the Wizard to retain enough language knowledge from a casting of Silver Tongue of Daysaris to remember how to speak and understand a slow broken form of that language for the rest of the adventure. Immunity to Informational Spells on the part of the foreign-language speaker prevents the spell from functioning.		

Specialists II		
Available To: High Wizard	Cost: +70pts	
From Specialists I: Gains +10 (total) from +5 (Specialist I) non-opposite spells into capacity.		

Cultural Style Ishmaic I		
Available To: Ishmaic Mana User	Cost: 10pts	
Any published weapon-enhancing spell, such as Enhance Weapon (page 33), may be altered to include a Glaive into the permitted weapon types. The verbal may be altered very slightly to incorporate this weapon type if necessary.		

Cultural Style Ishmaic II		
Available To: Ishmaic Mana User	Cost: +20pts	
From Cultural Style I: Now also applies to summoned magical weapons, such as Sword of Power.		

Personal Incantations		
Available To: Any	Cost: 25pts	
When casting any spell may alter the verbal slightly to call on a different patron power or similar. Note this only applies to normal spells and powers cast, not scrolls, written rituals or similar. Additionally, the verbal must still be similar to the published version and clearly identifiable for what it is.		

Recognise Mana		
Available To: Power Master	Cost: 30pts	
As per the standard Wizard ability.		

Detect Magic		
Available To: Power Master	Cost: 40pts	
Gains the ability to cast the Detect Magic cantrip, casting this still costs 1 TBLP per use.		

Mystical Learnings		
Available To: Vivomancer	Cost: 40pts	
May now read spirit runes and mana glyphs, cast spiritual and magical scrolls of appropriate colours and alignments, including teaching scrolls.		

Discern Associated Power		
Available To:	Vivomancer	Cost: 40pts
Grants discern associated mana and spirits on self.		

Utilise Shield		
Available To:	Sorcerer	Cost: 40pts
Gains the ability to use shields. Metal shields count as 1 Bastard Sword worth of metal.		

Warlock Specialist I		
Available To:	Warlock	Cost: 50pts
Gains +2 (total) non-grey non-opposite combat spells into capacity.		

Extra Spells		
Available To:	Wizard, Warlock	Cost: special*
May purchase extra glyphs with points at a cost of 10pts + 5pts / mana point.		

Table 2

[200pts Post 8th Level]

Well Worked Research		
Available To:	1st Class Wizard	Cost: 50pts
May buy any published ability, which solely increases specialist slots at half cost. May never acquire non-published spells.		

Chromatic Wizard		
Available To:	1st Class 1st Colour Grey Wizard	Cost: 200pts
May not second colour and may now only cast standard spells. Gains access to all Standard Elemental spells. However, does not take any casting damage from spells of between 1 and 10 mana points. This does not grant Expertise in such colours but does allow them to write scrolls of them if they could normally of their specialist glyphs.		

3rd Rank of Mana		
Available To:	Any	Cost: +40pts
From 2nd Rank of Mana: Gains an extra 27 mana (from 19 mana) total.		

4th Rank of Mana		
Available To:	Any	Cost: +40pts
From 3rd Rank of Mana: Gains an extra 34 mana (from 27 mana) total.		

5th Rank of Mana		
Available To:	High Wizard	Cost: +50pts
From 4th Rank of Mana: Gains an extra 39 mana (from 34 mana) total.		

Casting Level IV		
Available To:	Any	Cost: +50pts
From Casting Level III: 4th extra level for calculating damage suffered by spell caster.		

Facility I		
Available To:	Any	Cost: 100pts
No damage casting any 1st to 4th level spells.		

Improved Detect Magic		
Available To:	Rogue	Cost: 40pts
May now cast the Advanced Grimoire glyph Improved Detect Magic starting on page 53. This does not use a specialist slot.		

Elemental Squire		
Available To:	Warlock, Power Master	Cost: 40pts
Gains +2 mana for own colour offensive glyphs and +3/1 life. May not hold a second colour.		

Elemental Apprentice		
Available To:	Wizard	Cost: 50pts
Gains +3 mana for own colour glyphs and +1 casting level for own colour glyphs. May not hold a second colour.		

Second Colour	
Available To: Wizard	Cost: 100pts
Available To: Warlock, Sorcerer	Cost: 120pts
Gains a second colour. Must still be appropriate to the wizard's alignment and may not be the opposite colour to any racial colour of magic held. If a Wizard choses Grey as their second colour then they may choose to lose their 5 base specialist slots and instead gain 3 of each Elemental colour. Other classes follow a similar pattern.	

Table 3

[250pts Post 8th Level]

Pragmatist	
Available To: 1st Class Wizard	Cost: 40pts
May buy spells from the Advanced Grimoire, starting on page 53, at 5pts per mana point for spells of 10 mana or less, or 50pts +3pts per mana point above 10 for higher spells. May never use teaching scrolls.	

Neutrality to Elementals	
Available To: Any with a Colour	Cost: 100pts
This ability grants the mana user neutrality to all Elementals of his own colour or colours. The spell user must possess the colour in full, as such does not apply to ability like Chromatic Wizard, or to Sorcerers unless they acquire a specific colour. The state of neutrality means that neither the spell user nor the Elemental may willingly initiate any harm or deliberately cause any detrimental effect to the other. If broken by the spell caster the ability is lost and may not be bought again.	

My Dragon's Aid	
Available To: Any with a Colour	Cost: 50pts*
Must be purchased per colour. The ½ effect own colour of magic ability (from Tb3) no longer applies to beneficial spells of own colour.	

Temperance	
Available To: Non-Grey Wizard	Cost: 30pts
Available To: Grey Wizard	Cost: 60pts
Grants no damage casting own colour cantrip after 10secs concentration. If more than one colour is owned may be bought separately for each colour.	

Table 4

[275pts Post 8th Level]

Specialisation	
Available To: 1st Class Wizard, 1st Class Warlock	Cost: 60pts
Half (½) cost buying innates of 1 spell. Buying innates of any and all other spells costs twice the normal cost.	

Facility with Armour	
Available To: 1st Class Wizard, 1st Class Warlock	Cost: 75pts
May wear any magical master crafted plate armour.	

Discern Associated Magical Innates	
Available To: Any	Cost: 30pts
This ability reveals to the user all of their remaining Magical Innate powers.	

Potion Facility	
Available To: Power Master	Cost: 80pts
May now drink up to eight 6pt healing potions per day as per Monk class.	

Militant	
Available To: Martial Vochstelen	Cost: 60pts
Now gains 'buy as Warrior' from 'buy as Warrior Subclass'.	

Unbinding Knowledge	
Available To: Sorcerer	Cost: 125pts
Gains glyphs of Dispel 11–15 (from Dispel 10). See Dispel 11–15 for further details. Contrary to normal rules, the Sorcerer in this case does not take x2 casting damage when learning these spells.	

Summon Elemental 'Champion'	
Available To: Wizard, Sorcerer	Cost: 120pts*

This ability is only purchasable by Wizards who possess a 'Basic Wizardry' colour. It allows the Wizard to summon a 15 Mana Elemental of their own colour. Further details can be found under the spell within the Advanced Grimoire in the Grey Magic section. This ability costs no mana, and costs no casting life to perform but still requires the verbal. Usable 1/day.

Repel Opposite

Available To: Wizard & Warlock

Cost: 35pts*

This ability is only purchasable by those who have opposite colours. E.g. by a Red Wizard against Green mana creatures. 1/Day may repel all creatures of their opposite element in front of the user and within 10ft, this throws them back 20ft.

Greater Rainbow

Available To: 1st Colour Grey Wizard

Cost: +40pts

From Rainbow: Now gains 5 specialist slots per Elemental colour from 4. May not learn Specialists II (+10 specialists slots).

Table 5

[450pts Post 8th Level]

Aware Meditation

Available To: Any

Cost: 60pts

May perceive from eyes, make small movements, such as reading, eating and similar and may elect to end meditation early. May not actively move around, use any in game ability or speak without breaking the meditation.

Discern Demonkind

Available To: Any

Cost: 25pts

This magical discern reveals whether a creature within 20' is of Demonkind or not. Useable at will Yes/No answer.

Lesser Power Mancy

Available To: Elysian Vivomancer

Cost: 60pts

May now cast published spells and miracles of up to 6th level 'mantically, from 4th.

Arcane Knowledge

Available To: Power Master

Cost: Special

May purchase non-Standard glyphs of their own colour with points – costs 10pts/mana point.

Elemental Knowledge

Available To: 1st Class Wizard

Cost: 50pts

With 10 seconds study, Rec Mana will reveal the colour of mana present and its broad type (warding, offensive, defensive etc.).

Self Heal

Available To: Power Master

Cost: 100pts*

Additional uses of the standard Self Heal ability. Note: this ability is affected by the rules on Total Heal Cap as per a 1st Class Priest.

Elemental Knight

Available To: Warlock, Power Master

Cost: +80pts

From Elemental Squire: +4mana [from +2] for own colour offensive glyphs, +6/2 life [from +3/1], +1 MAC against spells of own colour only. May not acquire additional specialist glyphs slots past those owned at 1st level.

Elemental Adept

Available To: Wizard

Cost: +75pts

From Elemental Apprentice: +6 mana [from +3] for own colour glyphs, +2 casting levels [from +1] for own colour glyphs, +3% researching own colour glyphs. May not acquire additional specialist glyphs slots past those owned at 1st level.

New Age Wizard

Available To: 1st Class 1st Colour Grey Wizard

Cost: +200pts

From Chromatic Wizard. Now gains access to all standard New Colours spells. This does not grant Expertise in such colours but does allow them to write scrolls of them if they could normally of their specialist glyphs.

Ritual Preparation

Available To: Wizard

Cost: 50pts

Gives the character 100% chance to make normal magical scroll.

Table 6

[600pts Post 8th Level]

All abilities on this table are 1/day innates. A second innate may be purchased on table 10 for 40pts but only by 1st Class 1st Colour Wizards and Warlocks.

Shadow's Respite		
Available To:	1st Colour Black Wizard, 1st Colour Black Warlock	Cost: 30pts
1/day: Whilst within a Magical Darkness any black mana spell cast is at 1 mana less, to a minimum of 0. This ability lasts 5 minutes, and is additionally broken should the Wizard leave the Darkness, or if the Darkness is removed.		

Storming		
Available To:	1st Colour Blue Wizard, 1st Colour Blue Warlock	Cost: 30pts
1/day: Wizard may enhance a Lightning Bolt spell as it is cast to change it into two Stormblasts striking different targets. Each target then additionally takes a Knockdown and a Thunder Clap [see Blue Magic in the Advanced Grimoire, starting on page 53].		

Bronze Command		
Available To:	1st Colour Bronze Wizard, 1st Colour Bronze Warlock	Cost: 30pts
1/day For the 5 minute duration of this innate the Wizard's skill level is deemed infinite. This does not affect his casting level however.		

Warping		
Available To:	1st Colour Brown Wizard, 1st Colour Brown Warlock	Cost: 30pts
1/day: Wizard may call "Warp" just as a blow strikes him (Within 2 seconds of the blow landing). This causes a 'Warp' as per the Brown spell breaking the weapon, and causing no damage. Immunity to Opponents Aura of Defence grants immunity. Should the Warp not work for any reason then the Wizard gains the benefits of a Rockskin [see Brown Magic in the Advanced Grimoire starting on page 53] against the blow instead.		

Enshrouding Mist		
Available To:	1st Colour Ebony Wizard, 1st Colour Ebony Warlock	Cost: 30pts
1/day: Whilst within a Mist spell the casting of any Ebony spell is reduced by 1 mana to a minimum of 1. This ability lasts 5 minutes but is broken early should the Wizard leave the Mist or the Mist be removed by some means.		

Golden Touch		
Available To:	1st Colour Gold Wizard, 1st Colour Gold Warlock	Cost: 30pts
1/day: May cast any published Gold 'Self only' glyph onto a Marked Ally at touch range.		

Water World		
Available To:	1st Colour Green Wizard, 1st Colour Green Warlock	Cost: 30pts
1/day: The Wizard may embrace the properties of water such that the weapon used for any one blow against the caster suffers a rust before it causes damage. If the weapon is not destroyed, has a physical component and is sharp [including arrows and bolts], then the Wizard only suffers 1pt of damage per grade called for that blow. This should be declared as "Water" within 2 seconds of the blow being suffered.		

Clarity		
Available To:	1st Colour Grey Wizard, 1st Colour Grey Warlock	Cost: 30pts
1/day: The Wizard may increase the range of any one published spell cast, to the following formula. Range: Touch goes to 1"+, which goes to 20'+, which goes to Line of Sight. Should the spell have a radius of effect then the range of the radius is instead doubled. E.g. The range for Darkness (Self) would increase to 20' radius.		

Ivory Soldier		
Available To:	1st Colour Ivory Wizard, 1st Colour Ivory Warlock	Cost: 30pts
1/day: If casts Enhance Weapon (see page 33) whilst under the effects of an Ivory Warrior spell the Enhance Weapon spell lasts the duration of the Ivory Warrior spell, to a maximum of 30 minutes. This only applies to totally normal duration of runes of Ivory Warrior.		

Flame's Embrace		
Available To:	1st Colour Red Wizard, 1st Colour Red Warlock	Cost: 30pts
1/day: For 5 minutes the Wizard is seen to be covered in Flames. They may, for the duration, grant any weapon touched a Fireblade costing 0 mana. It takes 10 seconds concentration for each weapon so affected. Additionally the Wizard causes Ignite (Touch) at all times whilst under the effect.		

Silver Link		
Available To:	1st Colour Silver Wizard, 1st Colour Silver Warlock	Cost: 30pts
1/day: Lasts 5 minutes. This ability strengthens the link to the Silver Dragon. Any Silver informational spell cast within the duration of this ability is deemed a magical Informational Effect rather than a spell. Immunity to Informational Magical Effects applies against it rather than Immunity to Informational spells.		

Blinding Flash		
Available To: 1st Colour White Wizard, 1st Colour White Warlock		Cost: 30pts
1/day: The Wizard may enhance a Flash spell cast such that it causes all within the radius of effect to become magically blind for the following 30 seconds. This does not include the user of this ability.		

Strength of Form		
Available To: 1st Colour Jade Wizard, 1st Colour Jade Warlock		Cost: 30pts
1/day: Allows the Wizard to stack two Empower form spells on themselves, or one person.		

Weakness of Age		
Available To: 1st Colour Onyx Wizard, 1st Colour Onyx Warlock		Cost: 30pts
1/day: Versus one target the casting of Frailty of Age or Nature of the Child can reduce the persons Strength or DAC below 0. If it does reduce the target's DAC/Strength below 0 then they are weak and unable to run, cast, fight, or similar (as per the 5 minute stage of a disease).		

Table 7

[650pts Post 8th Level]

Greater Aware Meditation		
Available To: 1st Class Any		Cost: +80pts
From Aware Meditation: May now choose to be active during mediation. However the meditation will end if the wizard casts another spell, moves faster than a slow walk, makes an attack, or suffers any damage. They may talk and use passive abilities such as Read Glyphs in this state. In addition the Wizard may not leave the location in which the ability was triggered, without breaking the meditation. A location in this case would be a 30' radius from the mediation point. Mana gained may not exceed the system limit of 4 meditation increases (otherwise seen as x5 meditation rate).		

Dual Colour		
Available To: 1st Class Wizard, 1st Class Warlock		Cost: 40pts
From Second Colour: The 2nd Colour acquired, along with the Wizard's 1st Colour, are now both treated as 1st colour. This allows the Wizard to buy abilities available to 1st Colour wizards only. However, doing so causes the loss of all Standard grey glyphs, although they may be kept to fill specialist slots only. If one of the colours is Grey then the Wizard loses all specialist slots beyond those held at straight 8th, which may not be regained in anyway. This ability has the effect of allowing the magician to purchase the ability Elemental Apprentice / Elemental Squire as appropriate. The character may not learn a new or additional colour by any means. E.g. may not re-buy 2nd Colour. In a change from previous rules, wizards with this ability may path 'Mancer.		

Book Mage		
Available To: 1st Class High Wizard		Cost: 80pts
Requires an excellent spell book phys rep. If spends 1 minute in total concentration reading about the spell he is preparing to cast, the cost of that spell is reduced by 1 mana to a minimum of 0 mana. The cost reduction is only cumulative with the standard 'Expertise' abilities.		

Book Mage		
Available To: 1st Class Wizard		Cost: 80pts
Requires an excellent spell book phys rep. If spends 1 minute in total concentration reading about the spell he is preparing to cast, the cost of that spell is reduced by 1 mana to a minimum of 1 mana. The cost reduction is only cumulative with the standard 'Expertise' abilities.		

Combat Mage		
Available To: 1st Class Wizard		Cost: 80pts
The wizard may now only cast spells directly relating to combat (e.g. Shatter, Lightning Bolt, Rockskin, etc.). However, all glyphs cast now cost 1 mana less, not stacking with any other reduction, bar Expertise, to a minimum 1 mana. Additionally, the Wizard may now buy post 8th ALL abilities that typically exclude Wizard, e.g. Strength, War Cries and similar.		

Magical Empower Weapon		
Available To: 1st Class Warlock		Cost: 250pts
Available To: 1st Class Sorcerer		Cost: 250pts
Available To: 1st Class Wizard		Cost: 275pts
Available To: 1st Class Rogue		Cost: 300pts
Available To: Wizard, Warlock, Rogue, Sorcerer		Cost: 400pts
Makes any one O or B class weapon +0 magical whilst the character uses it.		

Discern Elemental		
Available To: Any		Cost: 40pts
Yields both the type and the mana level of the elemental.		

Double Meditation Rate		
Available To: Any		Cost: 50pts
This increases the amount of mana regained via meditation to 2 per 15 minutes or 14 for a full hour.		

Facility II		
Available To: Any		Cost: +120pts
From Facility I: No damage casting spells from 5th to 7th level.		

Facility III	
Available To: Any	Cost: +80pts
From Facility II: No longer takes any damage casting any spell from 1st up to two levels below the casting level of the mage.	

Sense Opposite	
Available To: Any with a Colour of Magic	Cost: 40pts
This ability requires 10 seconds of concentration and has a 20' radius of effect. It will reveal a YES/NO answer only. No locational information is given.	

Chosen of the Dragon	
Available To: Any with a Colour of Magic	Cost: 60pts
This ability grants the mana user +2 Dexterity Armour Class, in a similar manner to Bless and, as such, it does not stack with any other form of Curse, Bless, Chosen, Awareness, Watching or similar.	

More Mana	
Available To: Elysian Vivomancer	Cost: 125pts
Base mana now calculated as Sorcerer.	

More Spirits	
Available To: Elysian Vivomancer	Cost: 125pts
Base Spirits per level is now increased to 4 (from 3).	

Specialists III	
Available To: High Wizard	Cost: +65pts
From Specialist II: Gains +15 (total) from +10 (Specialist II) non-opposite spells into capacity.	

Competence	
Available To: Rogues	Cost: 80pts
May now cast Grey Standard glyphs, as per a non-Grey wizard. Must still acquire these through teaching scrolls as specialists, however they do not take up specialist slots.	

Mana Rage	
Available To: Warlock	Cost: 40pts
Any rage possessed now additionally applies against magic.	

Cold Rage	
Available To: Warlock	Cost: 65pts*
As per the warrior ability: Gains a 25% reduction in damage suffered, after all other calculations. Cold Rages as standard do not apply against damage suffered from magic.	

Mage Sight	
Available To: Wizard	Cost: 40pts* max 3
Available To: Warlock	Cost: 50pts* Max 3
1/Day for 5 minutes the user is able to see size and colour of mana, elven flux or wizard rune flux. For further information please see the spell 'Mage Sight' on page 74.	

Path of [Un] Holiness	
Available To: Wizard	Cost: 25pts
This ability allows the Wizard to 'path' into the priest bracket. See Paths Combining Magic & Spirit in Evolution: Classes	

Specialists II	
Available To: Wizard	Cost: +65pts
From Specialist I: Gains +10 (total) from +5 (Specialist I) non-opposite spells into capacity.	

Draw upon the Dragon's Breath	
Available To: 1st Class Any	Cost: 60pts
Allows the user to enter a deep meditative state during which they are completely unaware of their surroundings and cannot use Aware Med or similar. At the end of 15 minutes they awaken, gaining the benefits of a full hour's meditation. They cannot then regain mana for three hours afterwards, even if this period of meditation was unsuccessful.	
A second innate may be purchased by 1st Class High Wizards and 1st Class Wizards that have not left the bracket, on table 10.	

Ivory Shield	
Available To: Any 1st Class Wizard subclass with Ivory as a colour	Cost: 200pts
For every point of Max A/C above 12 gained from the Ivory Warrior spell, the caster gains a 1 point damage reduction vs weapon blows, to a maximum of 6 points. This reduction is only gained for temporary runes of Ivory Warrior and not those enhanced beyond published means.	

Mana Sense		
Available To: Wizard	Cost: 60pts	
As Sixth Sense but only detects magically moving creatures, and does not require DAC 6. This means that the player is vaguely aware that a creature is hidden or shifting in their rear arc by the use of magic.		

Magical Fetch		
Available To: Witchdoctor	Cost: 100pts*	
Counts as an additional Tribe Member for calculation of Witchdoctor's Mana. May buy three plus one per 3 tables reached post 8 th . Included in this cap are abilities that would cause the Witch Doctor to count as additional tribesmen, such as the post 8 th ability 'count as an additional tribesmen for calculating the Witch Doctors mana'.		

Table 8

[1,000pts Post 8th Level]

Spell Mastery Void		
Available To: 1st Class Black Wizard or 1st Class Black Warlock	Cost: 30pts	
Void, when cast, no longer requires the target to be in Magical Darkness. It still does not work on targets in supernatural light or direct sunlight.		

Spell Mastery Stormcaller		
Available To: 1st Class Blue Wizard or 1st Class Blue Warlock	Cost: 40pts	
Storm Blasts conjured by the Storm Caller glyph are no longer limited to 1per 10 secs.		

Spell Mastery Hammer of Might		
Available To: 1st Class Brown Wizard or 1st Class Brown Warlock	Cost: 25pts	
This spell now conjures any O or B Class weapon of the caster's choosing.		

Spell Mastery Vanish Animate		
Available To: 1st Class Green Wizard or 1st Class Green Warlock	Cost: 40pts	
Vanish Animate, when cast on a willing target, including self, Costs only 10 mana.		

Spell Mastery Chains of Fire		
Available To: 1st Class Red Wizard or 1st Class Red Warlock	Cost: 40pts	
Level lost from casting Chains of Fire returns in 30 minutes, from 1hour.		

Spell Mastery Heart of Ice		
Available To: 1st Class White Wizard or 1st Class White Warlock	Cost: 60pts	
Heart of Ice, when cast, now inflicts cold-based magical damage and thus works on non-flesh and blood targets. Target needs to have a statted chest location, so does not include normal Elementals.		

Pure Meditation		
Available To: 1st Class High Wizard	Cost: 30pts	
Increases the Wizard's meditation for complete hours from 7 mana to their Wizardly skill level per hour, e.g. 9th Level Mana and Casting would grant a 9mana/hour BASE med rate.		

The Dragon's Breath – Stage One		
Available To: 1st Class Wizard	Cost: 150pts	
Allows the Wizard to cast one standard spell of their first colour up to 3rd level for 0 mana. This may be used at most once per 15 minutes.		

Immunity to Bruising Using MAC		
Available To: 1st Class Warlock	Cost: 30pts	
Available To: 1st Class Wizard	Cost: 40pts	

Prismatic Specialist		
Available To: 1st Class 1st Colour Grey Wizard	Cost: 40pts	
May now cast Prismatic Ward versus all Colours of magic		

Immunity to Bruising using MAC, SAC and DAC		
Available To: 1st Class Pathed Priest or Wizard	Cost: 100pts	
Immunity to Bruising using MAC, SAC and DAC vs Pure Mantic blows. Note: Normally, the lowest of MAC and SAC is applied, depending on the situation, not both.		

Greater Power Mancy		
Available To: Elysian Vivomancer	Cost: +90pts	
From Lesser Power Mancy: May now cast any available published spell or miracle 'mantically, from casting up to 6th level 'mantically.		

Align Bo-Sticks		
Available To: Power Master	Cost: 40pts	
May choose to inflict magical damage of own colour with Empowered Bo-Sticks, rather than generic magical damage.		

Magical Perception		
Available To: Power Master, Rogue	Cost: 75pts	
As the Ranger ability of Perception but applies against magical effects only.		

Casting Level V		
Available To: Wizard	Cost: +50pts	
From Casting Level IV: 5th Extra level for calculating damage suffered by spell caster. From IV.		

Casting Level VI		
Available To: Wizard	Cost: +50pts	
From Casting Level V: 6th Extra level for calculating damage suffered by spell caster.		

Ivory Stalwart		
Available To: Any Wizard subclass with Ivory as a colour	Cost: 50pts	
May now cast and benefit from up to 12 runes of Ivory Warrior. If 7+ runes are cast the duration is increased to one hour.		

Immunity to all Magical Informational Effects		
Available To: Wizard	Cost: +60pts	
From Immunity to Informational Spells: Recognise Mana still gives Yes/No answer, not level. Does not grant immunity to mana sight but would stop any information being learnt about him by the sight.		

Draconic Guidance		
Available To: Any	Cost: 150pts	
As per the priestly ability Divine Guidance, allowing the Wizard to use his magical powers at full potency, regardless of his location.		

Table 9

[1,500pts Post 8th Level]

Apprentice Bonding		
Available To: 1st Class Wizard	Cost: 15pts	
Please refer to the table 1 ability Apprentice Bonding.		

Snap Cast		
Available To: 1st Class Wizard	Cost: 60pts* Max: 3	
May cast a single published spell by simply saying the spell name. Costs mana as normal, but also costs a casting level for 1 hour.		

Rune Weaver		
Available To: 1st Class Wizard	Cost: 80pts	
Available To: 1st Class Sorcerer	Cost: 100pts	
Any published mana cost reduction that applies when casting a Stackable glyph may now apply to each rune of that glyph. However, the preparation time, if any, is also cumulative.		

Pure Meditation		
Available To: 1st Class Wizard	Cost: 40pts	
Increases the Wizard's meditation for complete hours from 7 mana to their Wizardly skill level per hour, e.g. 9th Level Mana and Casting would grant a 9 mana/hour BASE med rate.		

9th Level Mana & Casting		
Available To: 1st Class Warlock	Cost: 125pts	
Available To: 1st Class Wizard	Cost: 150pts	
Available To: 1st Class Sorcerer	Cost: 150pts	
May now calculate their mana and [skill] casting level at one level higher.		

Elemental Champion		
Available To: 1st Class Warlock	Cost: 250pts	
This ability grants the Warlock Immunity to any Domination Effect, and Immunity to Listed Stopping effects of their own mana colour (e.g. Black Warlock immune to Catalepsy). Grants Resistance to Own Element, as per the Power Master specialist skill, which means that the Warlock cannot be harmed by natural occurrences of his element, including lightning for Air Warlocks and rockfalls for Earth. Additionally, they take only half damage from supernatural attacks of their element.		

Permanent Flow		
Available To: 1st class 1st Colour Wizard		Cost: 300pts
This allows the wizard to be permanently counted as walking on his own element with regards to Air and Earth, or through his element with regards to Fire and Water. Please refer to the relevant Walk On / Walk Through Elemental spells.		

Senseless Vision		
Available To: 1st Class 1st Colour Black Wizard, 1st Class 1st Colour Black Warlock		Cost: 200pts
Is unaffected by all supernatural darkness, mists or similar supernatural effects which obscure vision for all within the area of effect. (E.g. NOT Invisibility or Chameleon, but would affect Mystical Fog). This does not grant immunity to effects such as Bedazzle or Shimmer, unless the effect is an area effect.		

Immunity to Negation of an Embodied Sylph		
Available To: 1st Class 1st Colour Blue Wizard, 1st Class 1st Colour Blue Warlock		Cost: 50pts
Elementals embodied by the wizard are not cancelled by contact with other elementals, nor do they negate them.		

Puppet Master		
Available To: 1st Class 1st Colour Bronze Wizard, 1st Class 1st Colour Bronze Warlock		Cost: 120pts
Published Thrall spells are now cast with an additional free rune. This is cumulative with Expertise ability, whereby 1st rule affects targets with 5th level resistances.		

Power of Fire		
Available To: 1st Class/Colour Red Wizard that has not left the bracket.		Cost: 100pts
May cast Fire Dart at will for no mana with full verbal, costing 1 TBLP (unreducible) once per 10 seconds. The range cannot be increased from 10ft by any means. Must be able to cast Fire Dart.		

Power of Storms		
Available To: 1st Class/Colour Blue Wizard that has not left the bracket.		Cost: 100pts
May cast Air Dart at will for no mana with full verbal costing 1 TBLP (unreducible) once per 10 seconds. The range cannot be increased from 10ft by any means. Must be able to cast Air Dart.		

Ivory Champion		
Available To: Any 1st Class Wizard subclass with Ivory as a colour		Cost: +50pts
From Ivory Stalwart: May now cast and benefit from up to 20 runes of Ivory Warrior. If 13+ runes are cast the duration is increased to 2 hours.		

Rock Thrower		
Available To: 1st Class 1st Colour Brown Wizard, 1st Class 1st Colour Brown Warlock		Cost: 50pts
May now inflict damage with thrown rock, in addition to Missile spell damage, so that caster may stack his damage grade with a thrown rock with the Missile hits. 'H' skill in magical (only) rocks granted. E.g. User has +1 strength, has bought +1 mastery H rocks – so rock inflicts physical/magical Triple, in addition to 8 HTK from casting Supermissile.		

Liar! !		
Available To: 1st Class 1st Colour Ebony Wizard, 1st Class 1st Colour Ebony Warlock		Cost: 30pts*
May lie to any one magical information power once per day.		

Sanctity		
Available To: 1st Class 1st Colour Gold Wizard, 1st Class 1st Colour Gold Warlock		Cost: 100pts
All meditating creatures within a Haven spell you cast that are susceptible to magic gain +x1 meditation rate.		

Discern Magical Illusion		
Available To: 1st Class 1st Colour Green Wizard, 1st Class 1st Colour Green Warlock		Cost: 40pts
This discern has a 20' range, and yields a YES/NO answer.		

Mastery of Waters		
Available To: 1st Class 1st Colour Green Wizard		Cost: 40pts
If caster spends 30 seconds before casting a Water of Life spell, gains +50% benefit upon drinking it.		

Strength of Magic		
Available To: 1st Class 1st Colour Grey Wizard, 1st Class 1st Colour Grey Warlock		Cost: 80pts
Own spells require a Dispel of 1 mana higher than normal to dispel unless the Grey wizard is trying to dispel one of his own spells, which takes 1 less.		

Elementalist	
Available To: 1st Class 1st Colour Grey Wizard	Cost: 100pts
Now gains one specialist slot in each 'Elemental' colour of magic: Red, Green, Blue, Brown, White and Black.	
This slot may be filled by any Advanced Grimoire spell of the appropriate colour, though the spell may be learnt with points, costing 10pts+5pts / mana point. It may be filled via any other method, e.g. Teaching Scrolls.	
May not acquire Over the Rainbow (below). These spells learnt may not be of an opposite colour should another colour be held.	

Over the Rainbow	
Available To: 1st Colour 1st Colour Grey Wizard	Cost: 100pts
Now gains one specialist slot in each 'New Colour' colour of magic: Ebony, Ivory, Bronze, Gold, Silver, Jade, and Onyx	
This slot may be filled by any Advanced Grimoire spell of the appropriate colour, though the spell may be learnt with points, costing 10pts+5pts / mana point. It may also be filled via any other method, e.g. Teaching Scrolls.	
May not acquire Elementalist (above). Not available with Chromatic Wizard. These spells learnt may not be of an opposite colour should another colour be held, also the wizard must be the correct alignment to cast Jade and Onyx.	

Direction and Purpose	
Available To: 1st Class 1st Colour Ivory Wizard, 1st Class 1st Colour Ivory Warlock	Cost: 60pts
May not be forced to break the Ivory code by any external supernatural means.	

Sword of Power Master	
Available To: 1st Class 1st Colour Red Wizard, 1st Class 1st Colour Red Warlock	Cost: 125pts
Grants a maximum damage of Quin [unenforceable by any means] with a Sword of Power used in two hands.	

Discern Immunity to Informational Spells	
Available To: 1st Class 1st Colour Silver Wizard, 1st Class 1st Colour Silver Warlock	Cost: 60pts
This is a magical informational effect and, as such, cannot be ignored by use of Immunity to Informational Spells. 20ft range yes / no to "Is that target affected by informational spells?"	

Sabre of Light and Truth Master	
Available To: 1st Class 1st Colour White Wizard, 1st Class 1st Colour White Warlock	Cost: 125pts
Grants a maximum damage of Quin [unenforceable by any means] with a Sabre of Light and Truth used in two hands.	

Invisibility Specialist	
Available To: 1st Class 1st Colour White Wizard	Cost: 80pts
Whilst benefiting from the 8 mana White Spell Invisibility, the Wizard can no longer be perceived by mana sight or elemental sight.	

Call Location Shot with Magic and Super Missiles	
Available To: Any	Cost: 100pts

Call Location Shot with Snowballs	
Available To: Any	Cost: 100pts

Colour Empowered Weapon	
Available To: Any with a Colour	Cost: +40pts
From Empower Weapon – the weapon used is now coloured to the colour of the wizard. Should the wizard possess more than one colour then the ability may be bought separately for each colour, and when used they may elect to make the weapon any of those colours the ability has been bought for.	

Greater Empowered Weapon	
Available To: Any	Cost: 50pts
From Empower Weapon – any weapon used is now +0 magical.	

Even More Spirits	
Available To: Elysian Vivomancer	Cost: +150pts
From More Spirits: Base spirits now 5 per level from 4.	

Enhanced Metal Resistance	
Available To: Warlock	Cost: 40pts
From Warlock Specialist Skill Metal Resistance: May wear a non-magical suit of armour up to master crafted chain mail and use non magical weapon up to bastard sword in size.	

Elemental Warlord	
Available To: Warlock, Power Master	Cost: +220pts

From Elemental Knight: +8 mana (from +4) for own colour offensive glyphs. +9/3 life (from +6/2). The first casting of any directly offensive spell of own colour that costs 3 mana or below, now costs no mana. May be used once per 15 minutes. May not use any glyph, even by item, of another colour.

Elemental Master

Available To: Wizard

Cost: +150pts

From Elemental Adept: +12 mana (from +6) for own colour glyphs, +3 (from +2) casting levels for own colour glyphs. May have no specialist glyphs and takes 1/2 damage from casting own colour glyphs (minimum damage is still 1pt, unless no-damage abilities are used).

Table 10

[3,000pts Post 8th Level]

Additional Level of Mana and Casting

Available To: Any 1st Class Mana User

Cost: 200pts

This ability grants an additional level for mana and casting that is not cumulative with any other base level increase, e.g. 9th level mana and casting. This ability is useable by classes such as Power Masters, Rogues etc.

Elementalist

Available To: 1st Colour Grey Wizard

Cost: 125pts

Available To: 1st Class Wizard with Grey as a Colour

Cost: 125pts

Now gains one specialist slot in each 'elemental' colour of magic: Red, Green, Blue, Brown, White and Black.

This slot may be filled by any Advanced Grimoire spell of the appropriate colour. Although each spell may be learnt with points, costing 10pts+5pts / mana point, it may be filled via any other method, e.g. Teaching Scrolls.

May not acquire Over the Rainbow, below. Those spells learnt may not be of an opposite colour, should another colour be held.

Over the Rainbow

Available To: 1st Colour Grey Wizard

Cost: 125pts

Available To: 1st Class Wizard with Grey as a Colour

Cost: 125pts

Now gains one specialist slot in each 'New Colour' colour of magic: Ebony, Ivory, Bronze, Gold, Silver, Jade, and Onyx.

This slot may be filled by any Advanced Grimoire spell of the appropriate colour. Although each spell may be learnt with points, costing 10pts+5pts / mana point, it may also be filled via any other method, e.g. Teaching Scrolls.

May not acquire Elementalist, above. Not available with Chromatic Wizard. Those spells learnt may not be of an opposite colour should another colour be held. The wizard must also be the correct alignment to cast Jade and Onyx.

Upper Arm Parry

Available To: 1st Class Power Master

Cost: 150pts

This skill reduces damage taken to upper arms by 50% after armour class is counted. Does not stack with any other damage reductions; otherwise as per Forearm Parry.

Foreleg Parry

Available To: 1st Class Power Master

Cost: 160pts

As per Forearm Parry, the Monk skill, but allows weapon blows to be parried from toes to knee.

Max Damage Quin Versus Elementals

Available To: 1st Class Warlock

Cost: 50pts

Available To: 1st Class Wizard in the Warrior Bracket

Cost: 60pts

Grants max damage Quin when fighting Elementals and whilst using a two-handed weapon in two hands.

Tri-Colour

Available To: 1st Class Wizard

Cost: 150pts

Gains a third colour. This may not be the opposite to any already owned, and must be appropriate to the Wizard's alignment. Once purchased, the Wizard may not leave the Wizard bracket (including pathing), and may not hold a dual colour.

Discern Associated Mana (Other)

Available To: 1st Class Wizard

Cost: 50pts

This magical discern has a 1" range, and reveals the amount of mana the target has left remaining. It costs 3TBLP per use.

Specialists III

Available To: 1st Class Wizard

Cost: +65pts

From Specialist II: Gains +15 (total) from +10 non-opposite spells into capacity.

Specialists IV

Available To: 1st Class Wizard

Cost: +65pts

From Specialist III: Gains +20 (total) from +15 non-opposite spells into capacity.

Spell Mastery Slow

Available To: 1st Class/Colour Green Wizard	Cost: 100pts
May choose to cast the Slow spell without any mana reductions and with a reduced duration of 30 seconds. However, it now affects any single target with a resistance level that is lower than the caster's skill level. Only usable when the spell is cast with mana. When cast in this manner the effect should be called as "Fleeting".	

Spell Mastery Sleep	
Available To: 1st Class/Colour Blue Wizard	Cost: 140pts
May choose to cast the Sleep spell without any mana reductions and with a reduced duration of 30 seconds. However, it then affects any single target with a resistance level that is lower than the caster's skill level. Only usable when the spell is cast with mana. When cast in this manner the effect should be called as "Fleeting".	

Spell Mastery Freeze	
Available To: 1st Class/Colour White Wizard	Cost: 140pts
May choose to cast the Freeze spell without any mana reductions and with a reduced duration of 30 seconds. However, it then affects any single target with a resistance level that is lower than the caster's skill level. Only usable when the spell is cast with mana. When cast in this manner the effect should be called as "Fleeting".	

Spell Mastery Catalepsy	
Available To: 1st Class/Colour Black Wizard	Cost: 140pts
May choose to cast the Catalepsy spell without any mana reductions and with a reduced duration of 30 seconds. However, it then affects any single target with a resistance level that is lower than the caster's skill level. Only usable when the spell is cast with mana. When cast in this manner the effect should be called as "Fleeting".	

The Dragon's Breath – Stage Two	
Available To: 1st Class Wizard	Cost: +250pts
From Stage One: May now use the free spell to cast standard spells of own colour up to 6th level. For stackable runes, only one rune is gained for free. May not leave the Wizard bracket.	

Focussed Casting	
Available To: 1st Class Warlock, Wizard, or High Wizard	Cost: 20pts* Max: 6
Allows the caster to focus a single ranged "bolting" spell (e.g. Storm Blast, Fire Bolt, Plasma Bolt, etc.) so that it strikes one chosen location. This causes the spell to inflict TBLP as normal, but half that amount of damage is suffered to the chosen location as well (e.g. a Lightning Bolt would inflict 24 TBLP and 12 to one chosen location). MAC applies at 2 TBLP/1 to the location per point. Immunity to Call Location Shot means the spell functions as normal.	

Triple Meditation Rate	
Available To: 1st Class Wizard	Cost: +100pts
From Double Meditation Rate: Now receives 3 mana per 15 minutes, or 21 per hour.	

Strike Blows Versus Magic	
Available To: Wizard & Warlock	Cost: 40pts
Allows the mage to strike blows against any creature summoned or created by magic.	
In the following abilities on this table, the word "active" is used to mean 'having activated the glyph with mana or by innate, NOT by scroll or item'. The abilities do not apply to any form of extended duration effects and are non-stacking and non-enhanceable beyond this ability.	

Shadow Play	
Available To: Black Wizard, Black Warlock	Cost: 50pts
Whilst the caster has an active Darkness spell upon himself, gains the abilities of Traitor Shield and Sixth Sense [no DAC requirement].	

Bound Sylph	
Available To: Blue Wizard, Blue Warlock	Cost: 50pts
Whilst the caster has an active Embody Sylph spell, gains all the benefits of Bind Elemental on self.	

Mighty Rockskin	
Available To: Brown Wizard, Brown Warlock	Cost: 50pts
Whilst has an active Rockskin spell ongoing, gains an additional Resistance to Sever and Loc to Zero.	

Twisted Vista	
Available To: Green Wizard, Green Warlock	Cost: 50pts
Whilst has an active Distortion spell, is now additionally immune to weapon masteries, as per the white spell Bedazzle.	

Twilight's Disenchantment	
Available To: Grey Wizard, Grey Warlock	Cost: 50pts
Whilst within an active Twilight spell, any use of the Dispel spell costs 1 less mana and 1 less TBLP to cast, both minimum 0.	

Sword of Furious Flames	
Available To: Red Wizard, Red Warlock	Cost: 50pts
Whilst has an active Sword of Power spell may channel published Red Mana spells with a range of touch through the Sword of Power blow. If the Sword of Power is held in one hand then counts as one handed touch, acceptable for 'Shock' etc. If in two hands then counts as both hands, so suitable for spells like Internal Combustion. Only one spell may be discharged in each separate blow. Any spells cast into the weapon will 'hang' as long as the Sword of Power is active (maximum of five mins).	

The damage inflicted is not cumulative, so the caster can choose either the effect or the blow. Please remember to call the effect's name rather than just the hits it inflicts.

Bright Blade

Available To: White Wizard, White Warlock

Cost: 50pts

Whilst has an active Sabre of Light & Truth spell and is holding it, gains an additional +2MAC versus ranged elemental attacks, e.g. Fire Blast. This MAC is cumulative with all other MAC (e.g. Shield spell or items) unless it states that it does not stack (e.g. Plate Self).

Table 11

[5,250pts Post 8th Level]

Invoke Dragon

Available To: 1st Class Wizard, 1st Class Warlock

Cost: 75pts

Useable ONCE EVER. Once invoked, the mage may not move more than 20' from the spot where they invoke the dragon. They will not die until the fight is over, nor will their locations stop working, nor can they be stopped by stopping effects, or fall unconscious due to damage, but if they take enough damage to die then they cannot be cured afterwards regardless of all other abilities. The wizard may continue to cast spells even if they run out of mana.

Enemies may leave, in which case they will permanently hold the mage in awe and will not attack them in any way ever again. They may not pass by.

Strike the Elements

Available To: Power Master

Cost: 150pts

Unarmed Combat now delivers magic damage.

The Dragon's Breath – Stage Three

Available To: 1st Class Wizard

Cost: +100pts

From Stage Two. May now use the free spell to cast Advanced spells of up to 3rd level of own colour.

Master of the Focus

Available To: 1st Class Warlock, 1st Class Wizard or High Wizard

Cost: 300pts

From 6 innates of Focussed Casting may now use the ability at will. It can only be used with ranged spells.

Draconic Champion

Available To: 1st Class Warlock, 1st Class Vochstelen

Cost: +30pts

From Max Quin Versus Elementals: Maximum Damage Quin versus any creature made or animated by magic. This includes, Elves, Magic Golems, Faeries, etc. Must be using a 2-handed weapon in two hands.

Enhanced Draconic Champion

Available To: 1st Class Warlock

Cost: +100pts

From Draconic Champion: Max Quin from Draconic Champion may now be a single O class weapon if preferred.

10th Level Mana and Casting

Available To: 1st Class High Wizard

Cost: +300pts

From 9th Level Mana & Casting: Mana and [skill] casting level are now calculated at a base of 10th level.

Elemental Lord

Available To: 1st Class Wizard

Cost: +300pts

From Elemental Master: Gains +24 own colour mana, +4 casting levels own colour. May Ward Pact mana users and creatures of own colour. This is non-level-based. Immunity to beneficial mana not of own colour.

Table 12

[7,500pts Post 8th Level]

10th Level Mana and Casting

Available To: 1st Class Wizard

Cost: +300pts

From 9th Level Mana & Casting: Mana and [skill] casting level are now calculated at a base of 10th level.

Grand Master

Available To: 1st Class Wizard

Cost: 40pts

May now have as many apprentices (as Table 9 ability) as desired. Must re-buy the ability each time, and the casting levels stack.

Tri-Colour	
Available To: 1st Class Wizard, 1st Class Warlock	Cost: 200pts
Gains a third colour. This may not be the opposite to any owned already, and must be appropriate to the wizards alignment. May not hold dual colour.	

The Advanced Grimoire

This section deals with more advanced spells, none of these spells may be purchased with grulls, they may only be bought with points spent on Table 1 of the Post 8th Level development system or acquired through the research and development process involved in writing a Teaching Scroll, (see [*The Manufacturers Guide*](#) download).

In order to acquire a new spell you need to have a high enough casting level able to suffer twice the normal casting damage of the spell and remain conscious, without using temporary methods of increasing your life points or reducing the casting damage. Due to the involved nature of such mystical learning processes the use of external aids, such as artefacts or guilds, may not be employed when calculating casting damage, e.g. items of +X casting levels cannot be factored in, nor the standard Magical Focus ability. Obviously any character who tries to acquire a spell which they cannot take the damage from will die! So be careful.

A wizard may only use one of these spells if the colour of the spell matches the colour of the wizard, or if it matches his second colour if one has been purchased.

E.g. A Grey wizard may only acquire Grey spells from this supplement. An Ivory or Gold wizard may only acquire Ivory or Gold spells from this supplement.

None of these spells may be acquired as specialists. No daily innates of these spells may be acquired, nor may scrolls be written of these spells.

Some of the spells listed herein are named after the characters that researched them, such as Roger's Boots of Ice. It is not claimed that each spell has been accurately attributed to the character that originally created the spell, and as there have been a number of cases of 'parallel evolution' over the years you may find that you disagree with some attributions. However, due in most cases to these players' helpful contributions, it has been deemed in each case that the named character is the one responsible for sharing the details of the glyph with wizards across Labyrinthia – we hope that no-one is overly offended by these credits!

In the 'Colour' box for spells available to multiple colours, the names are abbreviated as follows:

Ele: Basic colours of Grey, Red, Blue, Green, Brown, Black and White.					
NC: New Colours of Magic – Gold, Silver, Bronze, Jade, Onyx, Ebony and Ivory.					
Bk: Black	Bl: Blue	Br: Brown	Bz: Bronze	Eb: Ebony	Gl: Gold
Gn: Green	Gr: Grey	Iv: Ivory	R: Red	Si: Silver	W: White
J: Jade	O: Onyx	Soc: Sorcery			

General Magic

General spells are spells that are not grey and may be bought as any colour as listed in the description. E.g. Embody Elemental could be bought by a Red Wizard as a red spell or by a Green Wizard as a green spell.

Empower Weapon			
Level:	3	Colour:	ANY
Range:	Self	Duration:	5 Minutes
Verbal: “ ... (B).... of(A).... I bind thee to this weapon, may the magics of(A).... embrace this ...(weapon type)....!”			
Description: Makes one weapon of the caster's choice +0 magical and of the colour of the caster. If the caster has more than one wizardly colour they may buy this glyph more than once if desired. This weapon must be a normal non-supernatural weapon and cannot be further enhanced. The weapon is only magical while in the hands of the caster.			
Note: See Elemental Spell Annotations on page 11 for an explanation of “... (B) of (A)...” Where the colour does not have standard elementals the caster may use Dragon/Drake for B, and the colour name for A.			

Pact with the ... Drake / Dragon			
Level:	4	Colour:	Any
Range:	Self	Duration:	See below
Verbal: “May the Dragon/Drake of...(element).... bear witness to my actions, I embrace the magic, I call to it, to further me in my goals, actions and dreams this day”.			
Description: This stackable glyph will grant the caster a boon from his Dragon or Drake. This takes the form in game terms equivalent to the innate powers granted to the Elves / Draves of the respective Dragon / Drake. Obviously only Elves and Draves with an established Mana Dragon or Drake may be pacted. Thus this may not be used to gain Drowe, Winter, Wood, Faerie nor Seasonal Elf innates.			
The first rune grants 4 levels of elven innates, each additional rune will grant +1 level of innates.			
Thus 5 runes will grant 8th level magical innates. Whilst active the caster may not recover the mana spent on this spell, without it ending the Pact early. This spell may only be learnt and cast once per colour held and if purchased with points comes with a set of 5 runes comes. Should the Mage hold more than one, each colour must be learnt separately.			
This spell can only grant one set of innates each day. It is not possible to cast it, use the innates, remove it, and re-cast it for a new set of innates.			
The duration of the spell is based on the number of runes cast: 1 Rune – One Hour 2 Runes – Three Hours 3 Runes – Six Hours 4 Runes – 12 Hours 5 Runes – 24 Hours It is not possible to cast this spell with greater than 5 runes. This spell stacks with normal Elven innates but is not multiplied by x2/3 innates or similar abilities.			
Note: This is a stackable Glyph (see Stackable Glyphs on page 8)			

Elemental Sight			
Level:	5	Colour:	Ele
		Range:	Self
		Duration:	5 Minutes
Verbal: “ (B)s of (A) let my eyes see your world!”			
Description: Grants the caster elemental sight of the appropriate type, as detailed below under Embody Elemental. It should be noted that while this allows the caster to distinguish between three categories: ‘own element’, ‘opposite element’, and ‘other elements’, these elements remain pervious to vision (or not) as they would normally be, so a Blue wizard using Sylph Sight, for example, would not be immediately blinded by the air all around him!			
Special: A Grey wizard may choose the elemental type on casting. However, it counts as an 8 mana spell to learn/cast.			
Note: See Elemental Spell Annotations on page 11 for an explanation of “... (B) of (A)...”			

Bind Elemental			
Level:	5	Colour:	Ele & Soc.
		Range:	20'
		Duration:	5 Minutes
Verbal: “(B) of (A) I bind thee closer to this plane”.			
Description: Binds the power of a standard elemental to the current plane, so that its presence is more stable and it can utilise more of its elemental powers. The benefits of this stability are great:-			
1) The elemental is not disrupted by coming into contact with another elemental, and cannot itself be disrupted in this way.			
2) The elemental cannot be embodied. If this spell is cast upon an elemental which is currently embodied, this spell causes the target elemental to materialise within the body of the embodier, slaying both embodier and elemental.			
3) The elemental cannot be destroyed with an elemental-destroying effect whilst this glyph is active, although it can be dispelled.			
4) The elemental may carry objects that are magical or have been enchanted so that an elf may use them, although they may not use weapons or armour.			
5) The elemental is immune to offensive effects/attacks based upon its own element.			
6) The elemental gains additional powers based upon its native element. All these effects are non-dispellable, except first by dispelling the Bind Elemental:-			
Sylph: May fly, as per the Walk on Air (Self) spell.			
Gnome: Gains 1/2 effect sharp weapon blows.			
Shade: Benefits from an Ally Darkness effect and causes Disintegrate (T) by blow.			
Sprite: Radiates magical light, as per the Light (R) spell.			
Undine: The undine can change its shape and appearance upon the casting of this spell to anything that could reasonably be simulated using the Passive Illusion spell. This change is illusory but cannot be disbelieved, although True Sight and similar will reveal the undine for what it is. The statistics and powers of the undine do not change, and if the shape chosen is smaller than a halfling it may not inflict damage.			
Salamander: Ignites all it touches, as per the Ignite (T) spell and inflicts additional magical fire damage as per the Fireblade spell. This is cumulative with other increases from Arm Elemental and similar spells.			
The spell may be bought by any Elemental Colour Wizard for their own colour of elemental.			
Special: Grey Wizards and Sorcerers may use the spell on any Elemental however it does count as a 6 mana spell.			
Note: See Elemental Spell Annotations on page 11 for an explanation of “... (B) of (A)...”			

Elemental Warding			
Level:	6	Colour:	Ele
		Range:	Self
		Duration:	5 Minutes
Verbal: “...(B)... of...(A)... shield me against the ravages of (Fire / Air / Earth / Water / Light / Darkness)”			
Description: Grants the caster 50% off all damage from attacks from the element of opposite colour, e.g. a Black Wizard could cast this to give himself 50% off White Mana attacks or a Green Wizard could use it to gain 50% off damaging Red Mana, et cetera. The reduction applies only to damage, not other effects, and only against magical attacks of the opposite colour – not, for example, physical cold damage.			
Special: Grey Wizards may cast this against any Standard element of their choosing at time of casting. However, it counts as an 8 mana spell to learn/cast.			
Note: See Elemental Spell Annotations on page 11 for an explanation of “... (B) of (A)...”			

Arm Elemental			
Level:	6	Colour:	Ele
		Range:	Touch
		Duration:	5 Minutes
Verbal: “Elemental which I have called, be thou armed against my foes!”			
Description: This spell transforms an elemental slightly such that its hands become either a one-handed sword or mace, increasing the damage inflicted by 6 points, to a maximum of 24 points. This spell transforms both of the elemental's hands simultaneously and physical reps must be used.			

Elemental Shift			
Level:	8	Colour:	Ele bar Grey
		Range:	As Blink
		Duration:	Instant / 2 seconds
Verbal: “By the greater power of the (B)s of (A) let me be taken hence!”			
Description: This spell transports the wizard from a spot immersed in the appropriate element to another similar point that the caster can see or is within 20'. It may only be used for elements that the Wizard holds as a colour. There is a 2 second period of disorientation on arrival exactly as per the Standard 6mp Blue Glyph Blink. For example, a Red wizard in contact with a fire the size of a large bonfire could use this spell to Fire-Shift. In general, there must be a source of the appropriate element at each end of a size approximately equal to half the caster's size, in the case of water, earth or fire. Air may be used whenever there is sufficient air to breathe. Shadow-shift may only be used in a circumstance where there is heavy shadow and no light source within 5', and Light-shift only when the area is brightly lit or the caster is holding a light-source of candle size or greater.			

Embody Elemental			
Level:	10	Colour:	Ele bar grey
		Range:	Self
		Duration:	5 Minutes
Verbal: “...(B)... of...(A)... share my form and grant me thy power!”			
Description: The wizard may embody an elemental 6 of their own colour that they have just summoned. This grants the following powers and no others:			
1. The ability to shift at will as the appropriate elemental, to maximum range of 20' or line-of-sight.			
2. The elemental sight possessed by the elemental; in other words, the ability to perceive elemental force of the elemental's colour, its opposite colour, and 'other' colours, as well as using the wizard's normal sight. This does distinguish between magical and non-magical sources of the element.			
Disadvantages: There are several disadvantages of embodying elementals as detailed below:			
1. If the elemental is dispelled, destroyed or removed in any other fashion the caster dies.			
2. If the Embody Elemental glyph is dispelled the Caster and Elemental die as the elemental materialises in the same space occupied by the caster.			
3. If an elemental touches the wizard the wizard and the elemental vanish as they negate each other. The wizard's body will never be seen again.			
Note: Embodying an elemental does not grant immunity to spiritual effects in any manner, nor any abilities bar those listed above.			
Note: See Elemental Spell Annotations on page 11 for an explanation of “... (B) of (A)...”			

Aura of Defence				
Level:	10	Colour:	Special	Range: Self Duration: 5 Minutes
Verbal: "... (B)... of ... (A)..., surround my body and defend me against all that seek to strike me!"				
Description: This causes any weapon to be affected by a spell appropriate to the colour of the wizard just before it strikes the caster, no other objects may be affected using this spell. The spell may be one of the following colours with the following effects:				
	Red	Green	Brown	Blue
	Melt*	Rust	Warp	Shatter
				Black
				Disintegrate
*In the case of a Red Wizard casting Aura of Defence the melt is instantaneous in effect, but does not inflict damage as does a Melt spell.				
Note: See Elemental Spell Annotations on page 11 for an explanation of "... (B) of (A)..."				

Mana Form				
Level:	12	Colour:	All	Range: Self Duration: 5 Minutes
Verbal: "... (B)... of ... (A)... I call thee to me. Embrace this frail form with thy magics. I ask of thee a boon! Show thy power. Twist this form such that all that is mundane is turned away from me - and the greater powers of the magics of ... (A)... are shown to all around me!"				
Description: This spell causes the casters form to become embraced by their type of magic, causing their bodies to become only affected by magic. Physical barriers still block and impede the Wizard - and they are still affected by physical effects such as 'knockback'. Whilst this spell is active the caster may not benefit from, nor cast, any other colour of magic than the one used to power this spell.				
This spell is, in effect, a Magical version of the Spirit Form miracle.				
Note: This spell may only be cast by wizards that are 'spiritless' AND magical creatures, such as elves and draves.				

Elemental 'Port				
Level:	12	Colour:	Ele bar GR	Range: Same plane Duration: Instant / 2 seconds
Verbal: "By the greatest power of the lords of the (B)s of (A) let me be taken away!"				
Description: This spell transports the wizard from a spot immersed in the appropriate element to another similar point on the same plane. It may only be used for elements that the Wizard holds as a colour. There is a 2 second period of disorientation on arrival exactly as per the Standard 6mp Blue Glyph Blink.				
The wizard must have seen the destination before on this adventure, have the destination within line of sight, live there, i.e. a location not involved with the adventure which may be known as the wizard's home, or have memorised the location. It costs 5pts post 8th to memorise a location other than home, per location memorised. The referee of the location must have signed the ability onto your character card. If you have a location signed onto your card, but are on an adventure not being run by the same referee who countersigned the location onto your card, then they are within their rights to disallow that location as a point to which you may 'port to. In case of dispute, the player is assumed to have teleported home. In other ways this glyph functions as per the Elemental Shift spell above. Due to the stresses on the body caused by this glyph, casting damage for casting it a second time within a one hour period is calculated as if the glyph were three levels higher. No additional mana is used. This effect is cumulative, so a third use of the spell within an hour period would cause casting damage as an 18 mana glyph, and so on!				

Summon Elemental 'Champion'				
Level:	12	Colour:	Ele not Grey	Range: 20' Duration: 5 Minutes
Verbal: "By the power at my command I summon the element of ... (A)..., I entreat the elements of Fire, Air, Earth, Water, Light and Darkness. Come forth Champion of ... (A)... let a ... (B)... of ... (A)... appear to do my will."				
Description: This spell conjures an elemental 'Champion' to be commanded. An elemental 'Champion' may take 40 hits before being destroyed, inflicts 15pts of damage with its hands and has 10th level Resistances. It will not be negated by being struck by a 4 or 6 mana elemental, only by an 8 mana or higher elemental. All other details are as standard summon elemental, such as Summon Sylph '6'.				
Special: The grey version may be used to summon any non-opposite colour elemental of the wizard's choice at time of casting.				
Note: See Elemental Spell Annotations on page 11 for an explanation of "... (B) of (A)..."				

Palewise's Reforge The Fallen Child				
Level:	12	Colour:	Any	Range: 3ft Duration: Permanent
Verbal: A 5 minute ritual that ends with "I call now to my Dragon and ask him/her to breathe life once more into his fallen child. Let them rise again to serve the will of their creator!"				
Description: This acts as per a Restore Life miracle except:				
1) It does not require a protection from spirits.				
2) It functions regardless of alignment.				
3) It will only function vs an elf, drave, faerie, or similar being that is harmed by Dispels, that is the same racial colour as the spell (e.g. a Red wizard can restore a fire elf, or a red/white faerie).				
4) It must be cast within 20ft of their death, or over their body if they have one.				
Grey wizards may choose to learn this as a 14 mana spell, in which case it will function on any elf/similar regardless of their colours.				

Black Magic

Mortality				
Level:	3	Colour:	Black	Range: 20' Duration: 1 minute
Verbal: "O mist-filled pit, dark, dank, unclear, touch now this fool with frost-fingered fear!"				
Description: One living target capable of perceiving fear is afflicted in a similar manner to the 4 spirit miracle Cause Fear, becoming terrified of the caster. However it lasts only one minute, and the target must not be in Magical Light, and s. Should they enter an area illuminated by Magical Light the spell is released.				

Blindness				
Level:	4s	Colour:	Black	Range: 20' Duration: 5 Minutes
Verbal: "By the shades of the dark, I strike thee blind ... Blindness X levels"				
Description: As per the Drowe innate ability. This is a stackable glyph. If this spell is bought post 8th with points it is assumed to come in a set of 5 runes for the one rune cost and may be bought multiple times.				
Note: This is a stackable Glyph (see Stackable Glyphs above)				

Shadow Strike				
Level:	4	Colour:	Black	Range: 20'
Duration: Instant				
Verbal: <i>"Feel the anger of the powers of the night and tremble... Shadow Strike!"</i>				
Description: One target takes 18 tblp of purely magical damage (6 Hits), to which MAC applies on a 1 for 1 basis. This spell does not affect those targets in Magical Light.				

Kazak's Dark Binding				
Level:	4	Colour:	Black	Range: Touch
Duration: 5 Minutes				
Verbal: <i>"By all my power and the powers of darkness I bind this shade into this..."</i>				
Description: Binds a normal Shade 6 (which must have been under the caster's control) into a non-supernatural weapon. Weapon now inflicts +0 black mana damage and may be used to additionally cause Disintegrate (Touch) by blow. The shade bound into the weapon counts as a Shade 6 for dispelling/negating.				

Ally Darkness				
Level:	5	Colour:	Black	Range: Touch
Duration: 5 Minutes				
Verbal: <i>"Shades grant this person the ability to see his foes in the darkness."</i>				
Description: This spell grants the person it is cast upon the ability to see through magical darkness. Also any Darkness (R) cast upon the target moves with him whilst under the Ally Darkness spell works as though the wizard cast the Darkness (R) spell on himself, i.e. it moves with the recipient.				

Ki Black's Engulfing Touch				
Level:	5	Colour:	Black	Range: Touch
Duration: 30 seconds				
Verbal: <i>"Shadows of the night come forth and take this one into your realm...Engulf"</i>				
Description: This spell covers the touched target in a magical shadow. They are held immobile as per a Magical Paralysis. It will end prematurely should the target be placed in Magical Light. The spell, once cast, will hang on the caster's hands for up to 5 seconds. Immunity to Paralysis applies, and it is considered a listed stopping effect.				

Shadow Plate				
Level:	6	Colour:	Black	Range: Touch
Duration: 5 Minutes				
Verbal: <i>"Shades of the dark I conjure thee, imbue this person's skin with the strength of steel!"</i>				
Description: As per Plate (O) but actually only grants negative Magical Armour Class 5, to a minimum of zero MAC. This spell still grants the 5 points of non-cumulative physical armour class (PAC) normally accrued from use of the Plate (O) spell.				

Dark Bolt				
Level:	6	Colour:	Black	Range: 20'
Duration: Instant				
Verbal: <i>"By the power of the shades of the darkest depths I smite thee... Dark bolt!"</i>				
Description: As the Standard 6mp Blue Glyph Lightning Bolt except as detailed above.				

Sabre of Darkness and Deceit				
Level:	7	Colour:	Black	Range:
Duration: 5 Minutes				
Verbal: <i>"Into my hands I call the foulest darkness, blade, hilt and guard I evoke thee to smite the light!"</i>				
Description: This spell creates a sabre of pure darkness that does 12 points of pure magical damage [only DAC and MAC apply]. When used against any goodly aligned or light-based creature it additionally inflicts a 6/1 Blast to which MAC does not apply (2 Hits). The extra damage will not exceed the user's maximum damage. For example, if it would inflict Double +2 hits (including the blast), even with weapon masteries, etc, the user may only call Quad without additional abilities to increase their max damage. The wielder can also see through magical darkness. The sabre is usable only by the spell caster and whilst he wields it he can also see through magical darkness. This spell is usable only by characters of evil alignment.				

Shadowblade				
Level:	7	Colour:	Black	Range: Touch
Duration: 5 Minutes				
Verbal: <i>"Onto this blade I pour darkness, let the real fade and the weird prevail!"</i>				
Description: Causes the weapon the spell is cast upon to lose its physical nature and become purely magical. This means that Physical Armour Class cannot be applied to blows from a weapon so affected – only Dexterity Armour Class and Magical Armour Class may.				

Zandranas' Droplets of Death				
Level:	7	Colour:	Black	Range: 20'
Duration: Instant / 30secs				
Verbal: <i>"My dragon spits upon thee... Droplets of Death"</i>				
Description: One target within range is spattered with a droplet of magical venom from directly above. If they are wearing a helmet or similar the venom does not penetrate. Otherwise, the target suffers the effects of a Contact Venom 6, taking 30 seconds to take full effect as normal. This poison is black mana as well as venom, and resistances to either apply.				

The Shadows Called				
Level:	7	Colour:	Black	Range: 20ft
Duration: 5 Minutes				
Verbal: <i>"By all the greatest powers of darkness I bid the shadows linger around thee!"</i>				
Description: Causes the target to be covered in shadows. No matter where they travel they are within a Darkness spell, including the obscuring of vision. This only effects the target and not others around them.				

Nysh'Aqal's Passing Plague			
Level:	8	Colour:	Black
		Range:	20'
		Duration:	10 minutes
Verbal: <i>"From beneath she devours, mistress of the dark, she hungers for you... Nysh'Aqal's Plague"</i>			
Description: After 2 minutes, the target will feel ill and have noticeable feelings of nausea; and after 5 minutes this is heightened to the extent that they are deemed at the 5 minute stage of disease (where they are too weak to do anything except breathe and walk slowly; no shouting, casting, fighting, use of DAC, etc). This state lasts for 5 minutes, after which time the Plague passes away. Spiritless Drowe are curiously immune to the effects of this spell.			
Note: Immunity to Disease grants full immunity. 1/2 effect Black magic means the effect ends after 5 minutes, so they do not reach the Too Weak stage. A spiritual Cure Disease will not remove this effect, though a Druidical one, or one containing magic, will.			

Cloak of Shadows			
Level:	9	Colour:	Black
		Range:	Self
		Duration:	5 Minutes
Verbal: <i>"Let shadow cloak and hide my form from all."</i>			
Description: May only be cast in an area of heavy shadow or darkness. While the caster remains in these conditions he becomes invisible to normal, physical sight. Should the caster touch a light source, enter an area which is lit by more than weak candlelight, run, attack or cast a spell (or other supernatural power), the spell is broken and he becomes visible.			

Cateleptic Touch			
Level:	9	Colour:	Black
		Range:	Touch
		Duration:	30 seconds
Verbal: <i>"By the power of the shades of dark my touch leaves you to die... Cataleptic Touch"</i>			
Description: Once cast, the wizard has 5 seconds to touch a target, which affects them as if they had suffered a Catalepsy spell at the caster's skill level (e.g. a wizard who has bought 9th level mana and casting would cause a Catalepsy 9 levels by touch with this spell). Note however the decreased duration.			

Blade of Decreptitude			
Level:	10	Colour:	Black
		Range:	Self
		Duration:	5 Minutes
Verbal: <i>"Into my hands I call forth a blade of ancient power, those struck by it - to age and cower. It seeks to make your body old, it wants your essence to fail and fall cold, to it your youth and vigour as food - I summon forth the Blade of Decreptitude"</i>			
Description: This spell summons a bastard sword of negative energy, which unnaturally ages all those it strikes. Every blow struck by the Blade of Decreptitude reduces the target's current and maximum life (TBLP and Locations) by one level for an hour. Immunity to Ageing grants immunity to this effect and Resistance to Black Mana reduces the duration of the ageing effect. The sword inflicts no other damage, and may only be used by the caster. Will generally inflict 2 hits to monsters, although referees are free to amend as they feel appropriate.			

The Disintegration			
Level:	10	Colour:	Black
		Range:	Special
		Duration:	Instant
Verbal: <i>"By the powers of the shades of dark let there now be a disintegration!"</i>			
Description: All objects which can be disintegrated on the below list which are within line of sight and within 20' are disintegrated as the Disintegrate (R) spell. Note that for the purpose of this spell, living or animate undead creatures do not obstruct line of sight, neither do objects which are disintegrated by this spell. 1: Weapons 2: Armour 3: Shields 4: Potion Bottles 5: Treasure 6: Non supernatural paperwork.			
This spell does not affect the casting wizard's possessions. It will not affect non-'system relevant' clothing and similar objects – (a rule that applies to all effects in the Labyrinthe system!).			

Sithantis' Ebon Tendrils			
Level:	10	Colour:	Black
		Range:	Self
		Duration:	5 Minutes
Verbal: <i>"Let the dance of the dragon surround me, and ebon tendrils twist and writhe. As they weave their shield around me let none penetrate to the mortal body within."</i>			
Description: Surrounds the caster with a multitude of half-visible, weaving black tendrils of power. These have the effect of turning blows away from the caster, granting him +4 PAC and complete immunity to weapon blows from wielders using no weapon masteries, as they are too clumsy to penetrate the tendrils' defence. They will not however block any weapon blow without a physical component.			
Note: Any weapon blow successfully defended against by this spell cannot release / trigger any effect on the blow e.g. poison, touch effects, etc.			

Disintegrate Magic			
Level:	12	Colour:	Black
		Range:	20ft
		Duration:	Permanent
Verbal: <i>"By all the powers of darkness I ask the Dragon to breath upon that!"</i>			
Description: This spell acts as per the disintegrate range spell but functions vs any object that does not contain a spiritual component.			

Greater Shadow Plate			
Level:	12	Colour:	Black
		Range:	Touch
		Duration:	5 minutes
Verbal: <i>"Shades of dark I conjure thee imbue this persons skin with the strength of the darknest steel"</i>			
Description: This spell hangs on the caster's hands for 5 seconds after being cast. It grants the target non-stacking PAC 10 (in a similar manner to Plate Self), but reduces their MAC by 10 (to a minimum of 0) at the same time.			
Immunity to Shadow Plate applies.			

Steal Vitality				
Level:	13	Colour:	Black	Range: Touch
Duration: 5 Minutes				
Verbal: <i>"Shadows of the Darkness, Creatures of the Night, I call thee forth to steal this one's might"</i>				
Description: This spell causes the target to have all 'strength' drained from them. Immunity to Strength Drain applies, and 1/2 effect Black Magic means only one grade at most is lost. This spell hangs on the caster's hand for up to 5 seconds.				

Void				
Level:	14	Colour:	Black	Range: 20'
Duration: 5 Minutes				
Verbal: <i>"May the lords of darkness cast thee down into the nether shadows...Void"</i>				
Description: One target currently within magical darkness is instantly swallowed up by darkness, vanishing completely to reappear in the same spot 5 minutes later. During this time the target finds themselves in a dark void, empty of all things. They come to no harm there, but it is impossible to speak or act in any way unless an ability, such as Divine Guidance, is possessed, in which case shifting powers capable of crossing the planes may be used to return, and abilities such as Improved Message may be used. Immunity to Involuntary Mystical Transportation grants immunity to this spell, unless the target is willing, and white-mana users are also immune, even if willing. Resistance to Black Mana halves the duration of the effect, so that the target reappears after two and a half minutes.				

Allstarz's Stomach Upset				
Level:	14	Colour:	Black	Range: 10ft
Duration: 5 Minutes				
Verbal: <i>"Ichor of the dragon taint that ..."</i>				
Description: May only be cast on an item of food or drink, at least the size of a bun or 500ml of liquid. Infuses the item with a magical venom, unnoticeable to normal poison detection abilities. If the item is entirely consumed by one victim within the duration of the spell, they suffer the effects of an Ingestive Death poison, dying unless immune to poison. If even one crumb is not eaten, no ill-effects are suffered. This spell cannot be cast on healing potions of any sort.				

Anath's Annihilation				
Level:	20	Colour:	Black	Range: Touch
Duration: 5 Minutes				
Verbal: <i>"Dragon of darkness I seek a boon, let a life be snuffed by gloom. Let darkness creep and tear and rend, shadow's power break and bend. Lords of Shadow and Lords of Night I send to thee a single life, for by my will and dark creation I now bring forth Annihilation"</i>				
Description: Once this spell is cast, the caster has 5 seconds to touch a target with both hands. If he does not, the spell is wasted. The target is slain and their body disintegrated (this is a particular effect of the spell, since recently dead bodies cannot normally be 'disintegrated'), requiring a Reform spell before they can be restored to life. Immunity to Involuntary Shape Shifting grants complete immunity, and Resistance to Black Mana (1/2 effect) reduces the effects to 5 minutes of unconsciousness (no further resistance applies to this secondary effect). If the target suffers less than half effect from Black Mana, the period of unconsciousness is reduced appropriately and they are awoken from their unconsciousness if struck or harmed.				

Blue Magic

Air Dart				
Level:	1	Colour:	Blue	Range: 10'
Duration: Instant				
Verbal: <i>"The powers of lightning strike thee... Air Dart"</i>				
Description: Inflicts 6/1 magical lightning damage in the same manner as the Storm Blast spell. Causes 2 hits to monsters.				
Note: This spell has a decreased range.				

Summons				
Level:	2	Colour:	Blue	Range: Same Plane
Duration: 24 hours				
Verbal: <i>"... I name thee mine, come to me if I should call and require thy aid!"</i>				
Description: This spell requires the wizard to meditate whilst holding the object for 1 minute and then cast the spell, expending 2 mana for each time that he wishes to be able to summon the item. The mana level of the spell for the casting damage is deemed to be the sum of the mana expended. Later the wizard may call "... to me!" at which point the item will blink to his hand which must be held outstretched towards the object. The blink still requires a 2 second phase time as per the 6mp Standard glyph. In addition this spell cannot be cast on an animate object, nor an object larger than 27' cubic feet. Neither may it be cast on an object with more non-magical metal than a dagger or spearhead, nor on a spiritual object. This spell is learnt as a 2 mana glyph.				

Lightning Shock				
Level:	2	Colour:	Blue	Range: Touch
Duration: Instant				
Verbal: <i>"Into my hand I call forth lightning... Lightning Shock"</i>				
Description: Functions as the Red Spell Shock, except that the damage is blue magic lightning and Resistance to Lightning, not fire, applies.				

Thunderous Decree				
Level:	3	Colour:	Blue	Range: Self
Duration: Instant				
Verbal: <i>"Sylphs carry forth my words with great magnitude..."</i>				
Description: This spell causes a phrase of up to seven words spoken by the caster at the end of the verbal to be shouted with tremendous volume. To represent this, the caster may call a Time Freeze in order to shout the phrase. All with Sensitive Hearing within 20' (including the caster) are stunned for 10 seconds, or until struck. This spell may be cast at most once every 15 minutes by the same caster. The phrase shouted may not involve casting in any way (e.g. may not be verbals).				

Breeze				
Level:	3	Colour:	Blue	Range: 20'
Duration: Special				
Verbal: <i>"By the Sylphs of Air... Breeze"</i>				
Description: One target within 20' of the caster is pushed back 20' by the force of wind.				
Note: Immunity to Repels grants immunity to this effect.				

Skin of Air			
Level:	3 (Self) / 4 (Other)	Colour:	Blue
		Range:	Self/Touch
		Duration:	5 Minutes
Verbal: <i>"Sylphs of air bide here a time."</i>			
Description: The recipient of the spell is surrounded with a thin shell of pure air. This air is constantly replenished for the spell's duration, thus allowing the recipient to breathe, regardless of exterior interference - for example they may breathe underwater or where there is no air. Non-supernatural gasses and liquids are completely displaced by this spell, so that underwater the recipient will not even get wet. They are also shielded from the detrimental effects of gas clouds or similar, or other exterior effects which are based on breathing. However the spell is not capable of resisting forceful attacks, so could not prevent a jet of acid fired at the caster, or similar. As a side-effect it becomes impossible to use the Sniff (Discern Smell) skill while under the effects of this spell, nor Locational Sniff. This spell may be acquired for 40 points, which covers both the 3mp (Self) and 4mp (Other) variants. If for any reason the recipient of the spell would be harmed by it, the spell fails to no effect.			

Thunder Clap			
Level:	5	Colour:	Blue
		Range:	Sight & Hearing
		Duration:	10 seconds / 5 minutes [see below]
Verbal: <i>"Sylphs show us thy power! Thunderclap X levels"</i>			
Description: This spell causes a sudden crack of thunder, centred on one target within hearing range who can be seen, stunning and deafening them. The target suffers the effects of a magical Halt spell of the 'skill level' of the caster, e.g. 9 levels if wizard has 9th Level Mana and Casting on tables, and is additionally deafened for 5 minutes. This of course makes them immune to further repetitions of the same spell. Immunity to Halt or stopping effects applies to the stunning.			

Greater Telekinesis			
Level:	6	Colour:	Blue
		Range:	Line Of Sight
		Duration:	5 Minutes
Verbal: <i>"By the powers of the princes of air, I telekinesise that ... to there!"</i>			
Description: As Telekinesis, but is considered to have 2 grades of strength for moving objects. Can only be used on inanimate objects, or completely motionless animate targets.			

Cushion of Air			
Level:	6	Colour:	Blue
		Range:	10' radius
		Duration:	Instant / 2 seconds
Verbal: <i>"Cushion of Air!"</i>			
Description: Creates a resistance in the air within the radius of the spell so that the wizard and any others in the area suffer no falling damage.			

Gust of Wind			
Level:	6	Colour:	Blue
		Range:	10' cone
		Duration:	5 Minutes
Verbal: <i>"By the powers of the sylphs of air... Gust of Wind!"</i>			
Description: All those within a 60° cone and within 10' of the caster are thrown 20' back by the force of the wind created by this spell. Immunity to Repels grants immunity to the effect.			

Forked Lightning			
Level:	8	Colour:	Blue
		Range:	20'
		Duration:	Instant
Verbal: <i>"By all the powers of air and rolling thunder thou art struck and thou art struck!"</i>			
Description: This causes two separate targets that are indicated, to be hit with a Lightning Bolt style effect. If only one target is within range then one of the bolts strikes the wizard. The same person may never be struck twice with the same single casting of this spell. If the only person within range when this spell is cast is the caster himself then one of the bolts is grounded and that bolt inflicts no damage, rather than the wizard being struck twice.			

Thunderbolt			
Level:	8	Colour:	Blue
		Range:	20'
		Duration:	Instant
Verbal: <i>"I strike thee down with the mightiest powers of thunder... Thunderbolt!"</i>			
Description: As Lightning Bolt but the damage is 36 TBLP and 6 per location (12 Hits to monsters).			

Shatter Magic			
Level:	8	Colour:	Blue
		Range:	Touch
		Duration:	Instant
Verbal: <i>"By all the powers of air and thunder, let power be sundered – I shatter this"</i>			
Description: As per Shatter but will affect objects with a magical component. Will not function on other supernatural objects such as spiritual weapons. Can be mended as normal by use of a Mend spell as the magic remains in the object. However if an 'item' or similar, its powers cannot be commanded while it is not whole. Cannot be used on Wall spells or similar!			

Mustrum's Instantaneous Blink			
Level:	9	Colour:	Blue
		Range:	Self
		Duration:	Instant
Verbal: <i>"Blink!"</i>			
Description: As per the basic Blue spell of Blink but with the above differences. The use of this spell causes the caster the loss of a casting level for the following hour.			

Su's Mass Blink			
Level:	10	Colour:	Blue
		Range:	As Blink
		Duration:	5 Minutes
Verbal: <i>"By the greater powers of Air - let us all be taken there...Mass Blink"</i>			
Description: This spell causes all those who are willing and touching the caster to be 'blinked' - as per the Blink spell - Each person arrives in the position /arrangement that they left from. This spell costs 10 mana +1 per person affected. Casting damage is calculated as a 10th level spell plus 1tblp per additional person. This spell is learnt as a 10th level spell.			

Plane Shift			
Level:	10	Colour:	Blue
		Range:	Self / Special
		Duration:	Instant / 2 seconds
Verbal: <i>"By the power of the lords of the sylphs, let me be taken 'twixt worlds, to ..."</i>			
Description: Transports the caster to the corresponding point on a different plane 'of his choice', meaning that the caster must either have been previously to that plane, or have sufficient knowledge of it at the ref's discretion. This may not of course be used to go to 'the plane of Total Heal and Magical Bastard-swords', or similar! A wizard who has bought this glyph may begin to keep a 'visited list' of planes visited, signed by the referee of each adventure, in the same manner as a Sniff list. If this is not done, the referee is at liberty to declare the wizard's knowledge insufficient to travel anywhere but to Labyrinthia. Note that this spell only transports the caster to the corresponding point on the plane of choice, not where he wishes to go.			
Note: See Teleport below for additional restrictions on casting this glyph.			

Hurricane			
Level:	10	Colour:	Blue
		Range:	10' radius
		Duration:	5 Minutes
Verbal: <i>"I call upon the mighty lords of the air to create a vortex to protect me, reap the whirlwind... Hurricane!"</i>			
Description: This spell effectively creates a circular barrier at a distance of 10' from the caster, which is immobile. The barrier is opaque and impassable by any creature with a physical or magical form due to the incredible high speed of the winds spinning around the focal point. Recipients of the Ivory Mobility spell or similar may pass this barrier as it is deemed to be a stopping/slowing effect. Determination, War-Cries and similar abilities are not sufficient to allow passage.			

Teleport			
Level:	10	Colour:	Blue
		Range:	Special
		Duration:	Instant / 2 seconds
Verbal: <i>"May the greater powers of air, teleport me to..."</i>			
Description: As 6 mana point Standard spell Blink in all manners except the range is anywhere on the wizard's current plane of existence, even if it is out of line of sight with the following restrictions: The wizard must have seen, on this adventure, the destination before, have the destination within line of sight, live there (i.e. a location not involved with the adventure which may be known as the wizard's home) or have memorised the location. It costs 5pts post 8th to memorise a location other than home, per location memorised. The referee of the location must have signed the ability onto your character card. If you have a location signed onto your card and are on an adventure not being run by the same referee who signed the location onto your card, then the is within their rights to disallow that location as a point to which you may teleport. In case of dispute, the player is assumed to have teleported home. This spell is affected by the Advanced Grey spell of Phase Trap, which is described under Grey Magic in The Advanced Grimoire, starting on page 73. If this glyph is used twice within an hour, the stresses on the body are such that the caster takes casting damage as if the glyph were two levels higher. This applies to multiple uses, so that a third time in an hour the casting damage would be calculated as four levels higher, and so on. This in no way increases the actual mana cost of the spell. This rule applies to Mass Teleport, Plane Shift, and Mass Plane Shift below, plus Elemental 'Port above, and to combined castings of any of these spells.			

The Shattering			
Level:	10	Colour:	Blue
		Range:	Special
		Duration:	Instant
Verbal: <i>"By the powers of the sylphs of air let there be a universal shattering!"</i>			
Description: All objects which can be shattered on the below list which are within line of sight and within 20' are shattered as the Shatter (R) spell. Note that for the purpose of this spell living or animate undead creatures do not obstruct line of sight, neither do objects which are shattered by this spell. 1. Weapons 2. Armour 3. Shields 4. Potion Bottles 5. Treasure 6. Non supernatural paperwork.			
This spell does not affect normal clothing, nor any of the casting wizard's possessions.			

Storm Caller			
Level:	11	Colour:	Blue
		Range:	Self
		Duration:	5 Minutes
Verbal: <i>"By the greater powers of the Storms, Air and Thunder I call to the fury of the Winds to strike down those before me..."</i>			
Description: This spell allows the caster to cast the Storm Blast spell at will for 0 mana for the duration. However, the caster takes 1tblp damage, which is unreduceable and unavoidable per casting. Full verbal for the Storm Blast spell must be used each time, and it may not be cast at a rate greater than 1/10 seconds.			
Disadvantage: The casting of this spell causes the caster to lose one casting level for the next hour.			

Displacement			
Level:	11	Colour:	Blue
		Range:	20ft
		Duration:	Instant
Verbal: <i>"May the lords of air grasp that "object" and carry it from there to here"</i>			
Description: Causes one object that does not contain a spirit to be shifted from its present location to the caster's hands.			

Intelligent Dancing Sword			
Level:	13	Colour:	Blue
		Range:	Line Of Sight
		Duration:	5 Minutes
Verbal: <i>"Lords of air I implore thee, lend me thy aid and let this sword dance to my will!"</i>			
Description: Exactly as the 8mp Handbook Blue Glyph Dancing Sword but the caster does not need to concentrate on the sword, although he is required to be able to view the blade at all times for it to be active. If he cannot see the sword it stands floating in the air, inactive until he can see it again. The damage delivered by the sword is 24 magic points rather than the 18 points usually delivered by a Dancing Sword. This spell cannot be further enhanced by any means, e.g. not via poison, Blackblade, et cetera. A wizard may not have more than one Intelligent Dancing Sword active at any time, nor may any elementals be under the control of the wizard, or both spells are cancelled. A Dancing Sword and an Intelligent Dancing Sword may never be grappled with and forced to the ground as they are extremely nimble and sharp edged – so do not try!			

Mass Plane Shift							
Level:	15	Colour:	Blue	Range:	Special	Duration:	Instant / 2 seconds
Verbal: <i>"By the power of the lords of the sylphs, may they grasp these people and take them 'twixt worlds to ... "</i>							
Description: As per Plane Shift but the wizard may take extra willing people with him at the additional cost of 1 mana point and 1 life point each. See Teleport above for additional restrictions on casting this glyph.							

Mass Teleport							
Level:	15	Colour:	Blue	Range:	Special	Duration:	Instant / 2 seconds
Verbal: <i>"May the greatest powers of air grasp these people and take them there/to..."</i>							
Description: As per Teleport but the wizard may take extra willing people with him at the additional cost of 1 mana point and 1 life point each. See Teleport above for restrictions.							

George's Grand Banishment							
Level:	18	Colour:	Blue	Range:	Touch	Duration:	24 hours
Verbal: <i>"Mighty powers of the air, in the name of the Voice of the Dragon I bid thee take this one away with thee on thy travels! Banishment!"</i> .							
Description: The target touched with both hands within 5 seconds of reciting the spell is involuntarily Teleported away, and on reappearing in a random location is immediately re-Teleported before fully phasing in. This repeats for the full duration of the spell. Effectively any target not Immune to Involuntary Mystical Transportation spells is rendered completely unable to act or be affected by exterior sources for 24 hours. However 1/2 effect blue mana (or magic) generally halves the duration of the effect, and so on.							

George's Vacuum							
Level:	22	Colour:	Blue	Range:	10ft	Duration:	Instant
Verbal: <i>"By the will of the lord of air and the power of the storms I call forth the breath from your body, may the air within your body be dragged forth!"</i>							
Description: The spell causes all the air in the targets lung to be drawn rapidly from them, causes extreme damage to their lungs. This acts as per a sever (which inflicts sufficient damage to sever the location based on its current health) to the target's abdomen. Resistances to sever/loc to zero apply as normal, while resistances to / 1/2 effect blue mana reduce the damage suffered. Additionally Large Lung Capacity acts as an additional resistance to sever. This is a flesh and blood effect and does not work on most elves (as they do not breathe). It does work on air elves.							

The Malevolent Dynamo							
Level:	-	Colour:	Blue	Range:	20'	Duration:	Instant
Verbal: <i>"By all the greatest powers of air and rolling thunder, sylphs grant me thy potency, let all around me be struck down with thy might, let their bodies turn to husks and crumble... The Malevolent Dynamo is begun!"</i>							
Description: Once the verbal has been completed the wizard is held immobile, and may wait up to 30 seconds until he discharges. For every six mana points that he has remaining he will deliver a lightning bolt at a target within range, the lightning bolts being evenly shared amongst all the available targets. It is not possible to use more mana than the wizard currently has with this spell. Casting damage is calculated as 1 point per lightning bolt (which is not reduced for any reason) plus casting damage for casting a spell of a mana level equal to the number of bolts unleashed plus 5. This spell costs 60pts post 8th to buy.							

Bronze Magic

Involuntary Gesture							
Level:	1	Colour:	Bronze	Range:	20'	Duration:	5 Minutes
Verbal:				“By the Drake I command thee”			
Description: This simple spell causes the target to momentarily perform one otherwise inconsequential action. Such as twitching, slightly moving their foot, shrugging their shoulders, blinking or similar. This action can have no other 'in-game' effect. The successful use of the spell will reveal whether the target is Immune to Bronze Mana Domination effects or not. This spell effect is not level based, and only works on animate living creatures. This is a Domination Effect.							

Power Word "Trip"							
Level:	3	Colour:	Bronze	Range:	20'	Duration:	5 Minutes
Verbal:				"By the might of the Bronze Drake... Trip X levels!"			
Description:				This spell only affects the target if it has a resistance level lower than the wizard's skill level (not casting level) as measured by the zero mana Bronze cantrip Tell Strength. In addition, this spell will only affect living creatures that are vulnerable to magical effects. The target of a Power Word Trip will fall to the ground and be unable to rise for 2 seconds. This spell requires no object for the target to trip over, unlike the grey 2 mana point spell. This is a Domination Effect and Immunity to Trip also applies.			

Empower Voice							
Level:	3	Colour:	Bronze	Range:	Self	Duration:	5 minutes / until used
Verbal: "Mighty bronze drake let your power flow through me."							
Description: For the next Power Word spell used by the caster within the spell's duration, their skill level is considered to be one higher.							

Power Word "Fear"							
Level:	5	Colour:	Bronze	Range:	20'	Duration:	5 Minutes
Verbal: <i>"By the might of the Bronze Drake... Fear X levels"</i>							
Description: This spell only affects the target if it has a resistance level lower than the wizard's skill level (not casting level) as measured by the zero mana Bronze cantrip Tell Strength. In addition, this spell will only affect living creatures that are vulnerable to magical effects. Apart from where detailed above this spell is identical to the evil miracle Cause Fear. It is also a Domination Effect.							

Vertigo							
Level:	6	Colour:	Bronze	Range:	20'	Duration:	5 Minutes
Verbal: <i>"By the might of the bronze drake feel sickness... Vertigo X levels"</i>							
Description: One target of below the caster's skill level feels the sick queasiness of vertigo whenever away from contact with the ground. As such they will not voluntarily use any form of flight power, and if lifted off the ground by another source they will perform no rational action other than to try to return to the ground. This is a Domination Effect.							

Persuasive Suggestion							
Level:	6	Colour:	Bronze	Range:	10'	Duration:	Up to 1 minute
Verbal: <i>"By the majesty of the Bronze Drake I suggest that you [specified command].... Suggestion"</i>							
Description: This spell acts in all ways as per a magical Beguile Spirit, except limited to only the command specified in the verbal, which may be no longer than 3 words. This spell affects targets that have a resistance level to Bronze Magic lower than the caster's skill level. This is a Domination Effect. It should be noted that, as per Beguile, it is unlikely someone would just lie down to be beaten to death through the use of this spell.							

Power Word "Die"							
Level:	6	Colour:	Bronze	Range:	20'	Duration:	5 minutes or until struck
Verbal: <i>"By the might of the Bronze Drake... Die!"</i>							
Description: This spell affects a living target that is affected by magical effects. This spell causes the target to fall over unconscious as if dead until the end of the spell's duration or until struck. It is considered a listed stopping effect, and additionally a Domination effect. It will only work on creatures below the wizards skill level.							

Power Word "Awaken"							
Level:	7	Colour:	Bronze	Range:	10'	Duration:	Instant
Verbal: "By the might of the bronze drake... Awaken X levels!"							
Description: The target is 'awoken' from any magical or physical stopping effects that they may be suffering from. This is a Domination Effect and affects targets of less than the caster's skill level only.							

Wracking Pain							
Level:	8	Colour:	Bronze	Range:	20'	Duration:	15 seconds
Verbal: "By the power of the Bronze Drake I smite thee down... Wracking Pain!"							
Description: This spell causes the target to be struck down with pain as per the Words of Pain spell, although the caster need not continue talking to maintain it. The target suffers 6/1 damage (2 hits) and can take no action other than writing on the floor in agony until the spell expires or they are struck or harmed. Resistances to Words of Pain apply to both the damage and the incapacitating effect, but this is not a stopping effect.							

Limb Stun							
Level:	8	Colour:	Bronze	Range:	20'	Duration:	1 minute
Verbal: "By the Bronze Drake let thy_____ be stunned!"							
Description: The nominated limb of the target is struck useless. If an arm, anything held in it is dropped. If a leg, the target cannot put weight on it [much as if it were broken, or you had a dead leg] for the duration of the spell. This is considered a Listed Stopping Effect.							

Word of Command							
Level:	8	Colour:	Bronze	Range:	20ft	Duration:	5 minutes
Verbal: <i>"Fool obey the Bronze drake and....."</i>							
Description: This spell acts as per the miracle Voice of Power (except for the duration). It affects targets below the caster's skill level.							

Enslavement							
Level:	8	Colour:	Bronze	Range:	20'	Duration:	1 minute
Verbal: <i>"The Bronze Drake is now your Master! I place thee under Enslavement"</i>							
Description: This spell causes the nominated target to stop whatever there were doing, and become completely motionless. The target can do nothing else, and otherwise is not under the control of the caster. This spell only affects creatures below the Wizards Skill Level, [e.g. 9th level mana and casting]. Should the target suffer any form of damage then they are immediately freed from the spell. This is a Domination Effect and not a stopping effect.							

Incite Mania							
Level:	10	Colour:	Bronze	Range:	10ft	Duration:	5 Minutes
Verbal: <i>"May the Bronze Drake cloud your mind and cause all before you to be your foe!"</i>							
Description: Clouds the target's mind and causes them to view everyone as a potential foe. This grants them a berserker's attitude to combat, meaning that once combat has begun they will attack anyone that is hostile/aggressive. This affects targets below the caster's skill level, and Immunity to Insanity applies.							

Empower Corpse							
Level:	10	Colour:	Bronze	Range:	Touch	Duration:	5 Minutes
Verbal: <i>"By the Might of the Bronze Drake I command thee Corpse! Act as my servant and follow my words. Arise!"</i>							
Description: This spell causes a touched corpse of a creature that in animance was affected by magic to arise. The creature becomes animate to the extent that it will follow the commands of the caster exactly. It retains no powers from its animance, since it is the Bronze magic which causes it to move. The Corpse has the caster's base Wizardly skill level in locational hits, and x3 of that in general hits. It automatically gains a single grade of strength, and may use any physical weapon given to it. The Corpse clearly has no mind or spirit. It sees with normal physical sight. This spell has no effect on the life and death status of the corpse for purposes of resurrection, etc.							
Note: Temporary increases in skill levels may not be used to affect the monster's hits.							

Control Automaton			
Level:	12	Colour:	Bronze
		Range:	10'
		Duration:	5 minutes
Verbal: <i>"By the Might of the Bronze Drake I command you. Hear my voice and follow my commands, I am your master now"</i>			
Description: This spell acts to control one mindless creature made by magic, typically magical statues, elementals and the like. The creature will do nothing except follow the commands of the caster. It has no control or will of its own, to the extent that it will follow any command given to it by the caster to the best of its talents.			
Note: This is a Domination effect, and only works on targets of a resistance level to Thrall lower than the Wizards Skill Level .			

Power Word "Frenzy"			
Level:	12	Colour:	Bronze
		Range:	10'
		Duration:	5 minutes or 1 combat [whichever is shorter]
Verbal: <i>"By the might of the Bronze Drake... Frenzy!"</i>			
Description: This spell only affects living creatures that are affected by magical effects. The Power Word Frenzy grants the target a non-cumulative 25% reduction to all damage after armour class. This reduction does not stack with similar percentile reductions, but does take priority, even if the target would normally have a higher or alternative damage reduction, such as a Berserker's rage ability. Whilst in this frenzy they may only strike melee blows and may not leave a fight nor stop fighting, though he may choose one immediate target over another. A frenzied monster increases his hits by one third. This is a Domination effect, and only works on targets below the wizard skill level.			

Greater Shudder			
Level:	12	Colour:	Bronze
		Range:	20"
		Duration:	5 Minutes
Verbal: <i>"The might of the Drake, will cause your body to shake, tremble and fail under my power...Greater Shudder."</i>			
Description: The target of the spell suffers a drop in Dexterity armour class of 12 points, caused by uncontrollable shakes. This can negate Physical armour class, but will not drop the total armour class below 0. If this is cast on a monster then it decreases the monsters hits by 24, though typically monsters will be set with AC - and it is from that that the AC will be deducted. The minimum number of hits that a monster can be left with is 1, as clearly this spell cannot kill, but merely increase the amount of damage that the victim receives during combat. Immunity to Dexterity Drain or Immunity to Domination Effects applies.			

Powerword "Suicide"			
Level:	20	Colour:	Bronze
		Range:	Touch
		Duration:	Hangs for 10 second, lasts 60 Seconds
Verbal: <i>"By the will of the bronze drake I bid my words and touch carry you to take your own life!"</i>			
Description: The spell affects targets 2 levels below the caster's skill level, or lower. It causes the target to attempt to perform any and all actions they can to kill themselves. While the spell is active they are unable to cast (as per Thrall spell). Immunity to Spiritual Mastery applies.			

Brown Magic

Magnetic Repulsion			
Level:	4	Colour:	Brown
		Range:	20' radius
		Duration:	5 Minutes
Verbal: <i>"May the powers of earth draw metals away! Magnetic Repulsion"</i>			
Description: All non-spiritual metals within 20' are hurled back to the edge of the radius of effect. Creatures holding metal objects may choose to be thrown back with the object, or to let go of it. Those wearing metal armour, even studded leather, are thrown back and Immunity to Repels or similar may not be applied to this as it is the objects, not the character, which are being affected.			

Bridge of Stone			
Level:	4	Colour:	Brown
		Range:	20'
		Duration:	5 Minutes
Verbal: <i>"Gnomes of the earth I conjure thee, build for me a bridge of stone!"</i>			
Description: Creates a slab of stone similar to a Wall of Stone in many ways, except that it stretches almost horizontally across from one point of earth to another. The maximum dimensions of the bridge are 10' wide, 1' thick, and up to 40' long. It must have solid ground at either end to anchor to.			

Linear Accelerator			
Level:	5	Colour:	Brown
		Range:	Touch
		Duration:	5 Minutes
Verbal: <i>"Mighty gnomes of earth take this person in your grasp and hurl him there!"</i>			
Description: This spell enables the wizard to propel a person in metal armour as though a successful Jump (O) spell, regardless of whether the target had been willing, had been successfully cast on them. It doesn't matter if the armour is of magic supernatural origin, although spiritual armour is immune to this spell. Immunity to Involuntary Mystical Transportation does not apply to this effect, as the armour is being targeted not the character.			

Earth Tremor			
Level:	6	Colour:	Brown
		Range:	20' radius
		Duration:	Instant
Verbal: <i>"Mighty gnomes of earth twist and shake this place such that my foes are toppled."</i>			
Description: This causes all creatures within 20' to fall to the floor. The Tables ability Stability grants immunity to this spell.			

Lightning Rod			
Level:	6	Colour:	Brown
		Range:	Self
		Duration:	5 Minutes
Verbal: <i>"Gnome lords, I am as one with the earth - let the lightning dissipate into your depths."</i>			
Description: As long as the caster does not move from the spot, all ranged electrical attacks which pass within 20' are drawn to strike him (and no other target). The caster also gains MAC 6 versus electrical attacks only. If the caster moves this effect is disturbed but if within the duration he should spend 10 seconds standing in one spot the effect resumes.			

Meld with Stone			
Level:	7	Colour:	Brown
Range:	Self	Duration:	5 Minutes
Verbal: <i>"Gnomes of earth take me in your embrace and hide me from sight."</i>			
Description: This spell draws the wizard into the earth upon which he is standing and, for the duration of the spell, the wizard is deemed not to exist except for any purpose bar observation. The wizard may perceive during this time but cannot prematurely end the spell, nor take any other actions. A Dispel Magic of the appropriate level from an external source will end the spell and eject the wizard from the earth, however, as the ground where the wizard vanished radiates magic. Whilst under the effects of this spell, no time passes for the caster; as such, any effects they were under when they enter the ground pause until they are released from it. This applies to both beneficial and disadvantageous effects.			

Great Missile			
Level:	7	Colour:	Brown
Range:	Self	Duration:	5 seconds
Verbal: <i>"Mighty lords of the earth, infuse this rock with all thy power... Great Missile"</i>			
Description: As Supermissile, except that the damage inflicted is 18 points to the location, 3pts to each other location, and 36 tlp overall (12 general hits to monsters).			

Gravity Well			
Level:	7	Colour:	Brown
Range:	20'	Duration:	5 Minutes
Verbal: <i>"May the lords of earth bring thee to thy knees...Gravity Well!"</i>			
Description: This spell acts similarly to a Magnetise spell on an animate target with legs. The target does not have to be carrying any metal. The target must be in contact with the ground in order to be affected, but once affected cannot leave contact with earth, and is forced to their knees. Whilst held by a Gravity Well to the ground a target will be unable to benefit from dexterity armour class. A character who possesses 1/2 effect brown mana is not forced to their knees, but still loses 1/2 of their dexterity armour class.			

Greater Stone Skin			
Level:	7	Colour:	Brown
Range:	Self	Duration:	5 Minutes
Verbal: <i>"I call upon the gnomes of earth to imbue my skin with the strength of stone"</i>			
Description: This spell is as per Stoneskin [Self] but confers +6 PAC and +6 Max AC [maximum 12] to the caster. They additionally become Immune to Bruising versus PAC.			

Earth Shield			
Level:	8	Colour:	Brown
Range:	Self	Duration:	5 Minutes
Verbal: <i>"Mighty Gnomes of earth shield me from all magic!"</i>			
Description: This spell grants the wizard total immunity to all forms of magic, including dispels to remove this glyph. Note: if cast by a magical creature such as an Elf, Drave or Faerie, the creature instantly dies and if cast mantically by a creature with a spirit, that creature also instantly dies. Whilst this spell is running the wizard may not use spells or magical items or benefit from any source of magic.			

Thomasss' Lesser Earthern Warding			
Level:	8	Colour:	Brown
Range:	Self	Duration:	3 hours
Verbal: <i>"Mighty Gnomes of Earth protect my body- Shelter thy servant from the ravages of the World"</i>			
Description: Against the next 3 blows suffered within the duration the caster counts as though they had a Rockskin spell active. This spell is ended once all three blows have been suffered.			

Earthern Encasement			
Level:	8	Colour:	Brown
Range:	Touch	Duration:	Permanent
Verbal: <i>"Earth I bid thee rise, encase and entrap this one... Encasement"</i>			
Description: The target, who must be standing on earthen or stone ground, sinks into the earth up to their knees, affecting them in a manner similar to Bind, except that no footwear is required. As this spell simply changes the shape of the ground in a manner similar to Reshape it cannot be dispelled, but 40 Hits with a blunt weapon, or 5 minutes activity with a sharp weapon to the ground around the target's feet will free them, as will a Reshape spell. In the same way as Bind, this is not a listed stopping effect, because the effect does not as such stop the character but only shapes the floor around them (in a similar way, Bind does not affect the character, only their footwear or other object targeted).			

Tower of Stone			
Level:	9	Colour:	Brown
Range:	20'	Duration:	5 minutes
Verbal: <i>"Mighty Gnomes of Earth, Princes of Rock build for me a Tower of Stone"</i>			
Description: This creates, in the same manner as a Wall of Stone, a circular Wall of Stone. It has a 10' radius and surrounds the point indicated by the caster. The wall is immobile, 1ft thick, and up to 40ft high.			

Mass Bind			
Level:	10	Colour:	Brown
Range:	10ft long, 60 degree cone	Duration:	5 minutes
Verbal: <i>"May theLlords of Earth bind thee all!"</i>			
Description: Causes all creatures within the area to suffer the effects of a Bind spell.			

Walk through Walls			
Level:	10	Colour:	Brown
Range:	Self	Duration:	5 Minutes
Verbal: <i>"Lords of Earth allow me thy servant, passage through your world for a while"</i>			
Description: This spell allows the caster to 'walk through walls' made of earth or stone for the duration. There is 2 seconds of disorientation when emerging as normal (cf. Walk through Walls). When in any wall, can only cast touch and self spells unless has active mana / mage / elemental sight.			

Rockskin							
Level:	10	Colour:	Brown	Range:	Self	Duration:	5 Minutes
Verbal: <i>"Mighty gnomes of earth protect my body, I now seek the might of thy granite, armour my body such that thy servant may enter this fray and wield thy power for the glory of Earth, my skin is as diamond, my muscle as Rock... Rockskin!"</i>							
Description: The caster suffers very limited levels of damage from any weapon which has a physical component, e.g.: a normal weapon, a magical and physical weapon, a spiritual and physical weapon. The actual damage suffered is equal to 1pt per damage grade, as listed below. This spell provides no protection to ranged spell attacks, or from purely magical attacks, or from purely spiritual attacks, or neuronics, nor from attacks enhanced by earth power evocations. If you are uncertain whether the spell will protect you then assume that it will not. The protections offered by this spell do not stack with any other defences including distancing combat, Plate (S), normal armour class, rages, numeric damage reductions or anything which reduces the damage you take. The best protection is assumed to be taken between the rock skin and whatever other defences are owned by the wizard.							
Grade	Single	Double	Triple	Quad	Quin		
Original Damage	1pt to 6pts	7pts to 12pts	13pts to 18pts	19pts to 24pts	25pts to 30pts		
Net Damage	1pt	2pts	3pts	4pts	5pts		

Super Plate (Self)							
Level:		10		Colour:		Brown	
Range:				Self		Duration:	
						5 Minutes	
Verbal: <i>"May the gnomes of the earth imbue my skin with the strength of Adamantium!"</i>							
Description: This spell grants the caster magic and physical armour class to his maximum armour class or 10, whichever is higher.							

Jaynus' Juddering							
Level:	10	Colour:	Brown	Range:	10' radius	Duration:	5 Minutes
Verbal: <i>"Let the earth shake and the gnomes show their anger! Let none stand before their might!"</i>							
Description: For the next 5 minutes the earth in a 10' radius around the caster begins to tremor and shake, in a manner similar to repeated Earth Tremors, so that it is impossible to stand upright. Those within the radius may for example roll across the ground, and swing weapons from a prone position, but may not even briefly stand. The Walk on Earth spell, Neuromastery Earth or Stability grant immunity to the effect, but otherwise the caster is equally affected.							

Hammer of Might							
Level:	12	Colour:	Brown	Range:	Self	Duration:	5 Minutes
Verbal: <i>"Mighty gnomes of the earth, let thy smashing force humble the foe... Hammer of Might!"</i>							
Description: Creates a stone hammer or mace filled with earth magic, such that it does not inflict normal damage by blow but instead causes damage equivalent to a standard unenhanced (including by Expertise) Magic Missile spell, every blow. Additionally, if a two-handed weapon is summoned (caster's choice), the caster may cause a 10' Knockback effect instead of damage, at will. Only the casting wizard may use this weapon.							

Super Plate (Other)							
Level:	12	Colour:	Brown	Range:	Touch	Duration:	5 Minutes
Verbal: <i>"May the gnomes of the earth imbue this person's skin with the strength of Adamantium!"</i>							
Description: This spell grants the recipient magic and physical armour class to his maximum armour class or 10, whichever is lower. Super Plate (Self) must be known by the caster as a prerequisite to buying this glyph. Alternatively, both glyphs may be bought together for 100 points.							

Svelt's Baffling Aura of Anti-Magnetic Force							
Level:	14	Colour:	Brown	Range:	Self	Duration:	5 Minutes
Verbal: <i>"Gnomes of earth I conjure thee, let your force surround me and metals be turned away from vulnerable flesh. May the power of the lode-stone shield me from base iron."</i>							
Description: The caster is suddenly surrounded by an invisible aura that repels metal objects from him. As a result it is impossible for the caster to hold metal objects for the duration, and if they were wearing armour with metal in it, even studded leather, it is ripped apart and forced away from their body, becoming useless. However, this repelling effect also applies to metal weapons, so that non-spiritual metal weapons are unable to strike the caster, instead being turned away an inch from his body. Immunity to Opponent's Aura of Defence applies to those trying to strike the caster, but not to the caster himself.							

Form of Steel							
Level:	18	Colour:	Brown	Range:	Self	Duration:	5 Minutes
Verbal: <i>"Mighty gnomes of earth protect my body. Let my flesh to turned to metal, let my body harden so that diamonds will not cut. May my body be as Steel."</i>							
Description: Causes the targets flesh to harden and become as strong as steel. This causes them to be reduced to maximum damage zero as they cannot effectively wield a weapon in combat. Additionally they may only move at ½ speed. However, while active they are impervious to all weapon blows with a physical component. This is an aura of defence.							

Ebony Magic

Aching Heart							
Level:	1	Colour:	Ebony	Range:	20'	Duration:	5 Minutes
Verbal:				"May your Heart be broken by these words"			
Description: This spell allows the next 'Pain' spell [2 mana] to be cast by the Wizard to be altered slightly such that it targets the victim's chest as well as TBLP. As such it will inflict 12 TBLP and 12pts to the chest. Resistances to Ebony Mana and Resistances to Pain, etc, apply as normal.							

See through Mists							
Level:	3	Colour:	Ebony	Range:	Self	Duration:	5 Minutes
Verbal:				"May the Ebony Drake grant me the power to see through another's Mists."			
Description:				This enables the wizard to see through a mist spell cast by another ebony wizard only, and any form of natural mist.			

Agony			
Level:	3	Colour:	Ebony
		Range:	20'
		Duration:	5 Minutes
Verbal: <i>"May the ebony Drake strike thee with Agony!"</i>			
Description: As the 2 mana point Ebony Spell Pain, but it inflicts 18pts of TBLP damage. As with the Pain spell, this spell does not harm those creatures unable to feel pain, such as elementals, true undead, statues and plants.			

Ebony Assassin			
Level:	4	Colour:	Ebony
		Range:	Caster's Weapon
		Duration:	5 Minutes or used
Verbal: <i>"May the drake grant my arm power and let this weapon strike deep!"</i>			
Description: The next blow within five minutes that the caster strikes with the specified weapon, may inflict up to Quin damage (this is the damage limit not the actual increase in damage given by the spell) and gains +6pts of physical damage.			

Enhanced Spell Shield			
Level:	4	Colour:	Ebony
		Range:	Self
		Duration:	5 Minutes
Verbal: <i>"Let magic go awry and the elements be baffled."</i>			
Description: Only benefits a caster with a Spell Shield glyph currently active. All ranged magical effects aimed at the caster miss by scant inches, as ebony power misleads the magic as to the location of the target, granting the caster complete immunity to them. However while this is active the caster may not use ranged magical abilities. The only exception to this is that any Dispel Magic aimed at the caster will 'strike' only this Enhanced Spell Shield, and if the Dispel is of sufficient potency then this glyph will be negated. Use of this spell costs a casting level for 1 hour. This spell does not protect against area effects.			

Evasion			
Level:	4	Colour:	Ebony
		Range:	Self
		Duration:	Max 30 seconds
Verbal: <i>"I travel this way unseen by magic!"</i>			
Description: This spell allows the caster to 'evade' a static magical effect, typically a 'line' or warding - In a similar way to the Ghost Scout skill. The caster is able to cross the line without triggering its effects. This is a one-shot use and further transgressions will trigger the warding / effect.			

Willocks Baffling Shield			
Level:	4	Colour:	Ebony
		Range:	Touch
		Duration:	8 hours
Verbal: <i>"Let Ebon power conceal this object from those that seek knowledge of it"</i>			
Description: Causes the target object (not animate) to gain benefits of a Spell Shield. Clearly this does not work with Enhanced Spell Shield.			

Trick of the Ear			
Level:	4	Colour:	Ebony
		Range:	Self
		Duration:	30 seconds or Discharge
Verbal: <i>"Drake, let my speech ring out as they would wish it."</i>			
Description: The next time the caster speaks will be heard by any within hearing expecting a password or phrase as that phrase. Targets that are immune to Domination effects are not deceived, but this spell will even affect magical traps and wardings, such as the Gold spell Forcewall, or other non-standard magical barriers with passwords, thereby triggering the password condition. This in no way grants the caster knowledge of the appropriate phrase, however, so the spell must be repeated if there is a need to repeat the phrase. It does not, of course, deceive similar spiritual barriers or traps, or those immune to magic.			

Forget			
Level:	5	Colour:	Ebony
		Range:	20'
		Duration:	30 seconds – memory loss is permanent
Verbal: <i>"Let mist cloud thy thoughts... Forget!"</i>			
Description: The target instantly forgets the events of the last 30 seconds, as per the neuronc power of the same name. Immunity to Forget applies and Resistance to Ebony Mana reduces the amount of memory lost.			

Pain Blade			
Level:	6	Colour:	Ebony
		Range:	Self
		Duration:	5 Minutes
Verbal: <i>"May the Ebony Drake cause this blade to twist and pain my foe!"</i>			
Description: This spell causes the wizard's dagger blade (only) to cause an extra 6pts of damage when it strikes the target, against which no armour class applies, although resistances to the 2mp Ebony spell Pain do. This spell does not help the wizard in any way if the called damage is quad already or higher (the effects of subtle pain are lost with such mighty blows). I.e. the maximum damage that may be called remains unchanged. This spell may not be cast on a blade which is already enhanced by any other means, e.g. poison, Fireblade, +0 Magic, spiritual, et cetera.			

Torment			
Level:	8	Colour:	Ebony
		Range:	20'
		Duration:	Instant
Verbal: <i>"May the ebony Drake strike thee down with great Torment!"</i>			
Description: As the 2 mana point Ebony Spell Pain, but it inflicts 36pts of TBLP damage. As with the Pain spell, this spell does not harm those creatures unable to feel pain, such as elementals, true undead, statues and plants.			

Trick of the Eye			
Level:	8	Colour:	Ebony
		Range:	20ft
		Duration:	5 minutes
Verbal: <i>"May Ebon mists rise and confound your sight"</i>			
Description: Causes the target's vision to become obscured and confused. This prevents them using any ranged effects beyond a distance of 10ft. Enhanced Perception grants immunity, as does Immunity to Blindness.			

Change Appearance			
Level: 8	Colour: Ebony	Range: Self	Duration: 24 hours
Verbal: <i>"May the Ebony drake twist and turn my very form, a veil on my body I now do draw may my appearance be that of a ...[race]..."</i>			
Description: This spell changes the visual appearance of the caster to any one named race, which the caster has seen before. If a race with a makeup restriction is to be changed, this does not mean he can omit the face paint, etc. of his original race, although it might be acceptable for him to be disguised as another non-human with appropriate face paint, etc. The amount of makeup coverage should remain the same, e.g. a full elf = full coverage, a 1/2 elf = 1/2 coverage, etc. This may be cast before adventure, but whilst the spell is active the caster may not recover the mana spent on conjuring it. Therefore, if cast before the adventure begins the wizard must still battleboard the mana and associated life cost.			

The Ebon Claw			
Level: 10	Colour: Ebony	Range: Touch	Duration: Instant
Verbal: <i>"Ebony Drake, creature of pain, wild powers unfettered and raw, strike down this fool, with thy Ebon Claw."</i>			
Description: This spell requires a 2-handed touch to the target within 5 secs of completing the verbal. It inflicts 48tblp damage as per Pain, and causes the target to be held in suffering, unable to act for a further 10seconds as per a stasis, against which immunities/resistances to Pain also apply.			
Note: Resistances to Pain and Ebony magic apply as normal.			

Doubt			
Level: 12	Colour: Ebony	Range: 20'	Duration: 5 Minutes
Verbal: <i>"Your nerves be broken and your voice to lose its shout, my Ebony power will fill your mind with doubt!"</i>			
Description: This target of the spell is filled with doubt over their actions, losing purpose and will to proceed, becoming lacklustre and unsure of what they should be doing. In game terms the spell has 3 effects: 1: Target loses 1 level of resistance 2: Target cannot use any melee ability that requires any form of concentration or skill, including Weapon Masteries / Force Majeure / Accuracy / +X on Nth Strike abilities / Knockbacks / Knockdowns. 3: Target is unable to apply any form of Determination or War Cry style ability [e.g. Discipline]. This spell only works on living creatures affected by Emotional Attacks, and is additionally a Domination Effect, as per Confusion. Immunity to Loss of Weapon Masteries applies separately to that facet of the spell.			

Greater Escape			
Level: 14	Colour: Ebony	Range: Unlimited	Duration: Instant
Verbal: <i>"Ebony Drake, take me home!"</i>			
Description: This spell has two subtly different variants, the first returning the caster to their home in a manner similar to Word of Recall, whether across planes or similar, or otherwise prevented from normally shifting. The second, however, functions in all ways bar casting cost as the glyph Escape, but uses the above verbal.			

Pass Unnoticed			
Level: 14	Colour: Ebony	Range: Self	Duration: 5 Minutes
Verbal: <i>"May ebony power turn attention from me - let me pass unseen, unheard and out of the ken of all."</i>			
Description: For the duration the caster will not be noticed by any creature unless they are completely mindless, e.g. animated statues, zombies, etc, as the attention of all is distracted away from him. Creatures immune to magic of course are also unaffected by this. Perception, Sense Motion and True Sight also grant immunity, but otherwise no creature is able to see, smell, hear or otherwise become aware of the caster. However, the spell is broken should the caster speak, run, attack, or touch another creature - although within the duration, if the spell is broken and the caster then spends 30 seconds completely motionless the spell takes effect once more.			

The Forgettance			
Level: 22	Colour: Ebony	Range: Touch	Duration: Hangs for 10 seconds
Verbal: <i>"With Ebon power I cast your life in the mists of the forgotten. Let your very being fade from existence and be as nothing."</i>			
Description: The target of the spell is forgotten by the world and instantly dies. Any target with vitae partially resists this spell and only falls unconscious for 5 minutes. ½ effect ebony mana also means the person is only rendered unconscious for 5 minutes. If both are possessed then the target is only unconscious for two and a half minutes. Immunity to Forget grants complete immunity to the spell.			

Gold Magic

Find Ally			
Level:	1	Colour:	Gold
		Range:	Special
		Duration:	Instant
Verbal: <i>"May the gold drake guide me to thee ... my ally."</i>			
Description: Grants the caster knowledge of the location of one named Marked Ally, if anywhere on the same plane. If on another plane, the caster is aware of this but nothing else. The caster is also aware of the general state of the Ally, e.g. unconscious, dead, badly injured, fine, etc. Immunity to Informational Spells grants immunity to this spell.			

Repulsion			
Level:	2	Colour:	Gold
		Range:	20'
		Duration:	Almost Instant
Verbal: <i>"The Gold Drake repels thee!"</i>			
Description: As per the 10mp spell Warding but flings back one target a total of 40' (14 paces) regardless of the number of hits/levels of resistance that it possesses. Target is stopped by contact with solid objects, at which point the target is released.			

Attraction			
Level:	2	Colour:	Gold
		Range:	40'
		Duration:	Almost instant
Verbal: <i>"The Gold Drake attracts thee!"</i>			
Description: As per the 10mp spell Warding but attracts back one target a total of 40' (14 paces), regardless of the number of hits/levels of resistance that it possesses. Target is stopped by contact with solid objects, at which point the target is released. This spell only functions on Marked Allies.			

Courage			
Level:	3	Colour:	Gold
		Range:	Touch
		Duration:	1 hour
Verbal: <i>"May the Golden Drake fill thy heart with courage!"</i>			
Description: This spell grants the target immunity to all forms of non-spiritual fear for the spell's duration.			

Endurance			
Level:	4	Colour:	Gold
		Range:	Touch
		Duration:	5 Minutes
Verbal: <i>"May the Drake grant stamina to my allies... Endurance"</i>			
Description: This grants the target an extra 18 TBLP, as per the Ivory warrior spell. Against a Traitor it reduces their TBLP maximum by twice this amount, i.e. 36 TBLP. Effects such as permanent damage are taken from this temporary life first, so possibly vanishing at the end of the duration. This spell does not stack with itself or any other effect which grants temporary extra life, e.g. Enhance Spirit, Adrenal Surge, et cetera.			
Note: This spell has a range of 20' if cast on a traitor.			

Callum's Gateway			
Level:	4	Colour:	Gold
		Range:	Touch
		Duration:	Special
Verbal: <i>"Forces of Magic, Golden Friend, I wish to open the door, but not with the spell to end - I speak in friendship with this well chosen word...[password]..."</i>			
Description: This spell will open a doorway in any Gold Magic spell that can be lowered by the use of a Password. The door way will open once and close once per casting of this spell. The doorway will remain open at most for 5 minutes before resealing itself. Speaking the password backwards can reseat it. As indicated within the verbal it is necessary for the caster to know the password in order to open the doorway.			

Personal Haven			
Level:	6	Colour:	Gold
		Range:	Self
		Duration:	Special
Verbal: <i>"Golden Drake I require rest and shelter - I seek peace and tranquillity in this place"</i>			
Description: As per the Haven spell, but the only person affected by the spell and its Pacification effect is the caster. The spell grants a temporary version of Greater Aware Meditation [see Post 8th tables for details].			
The spell lasts as long as the casting wizard remains within the area of affect [30' radius], during which time the wizard counts as though meditating and gains +x1 Meditation Rate [non-stacking with any other temporarily increase].			

Mass Repulsion			
Level:	6	Colour:	Gold
		Range:	10'
		Duration:	5 Minutes
Verbal: <i>"The Gold Drake repels thee all!"</i>			
Description: All creatures within 10' of the caster are hurled back 40' or until their travel is blocked by a solid object, in a similar manner to Repulsion. This spell does not affect marked allies.			

Shield Blessing			
Level:	6	Colour:	Gold
		Range:	
		Duration:	1 hour
Verbal: <i>"The Gold Drake fills this shield with power, to guard and ward you."</i>			
Description: One normal, non-supernatural shield in the hands of a Marked Ally or self becomes +0 magical and capable of blocking purely magical weapon blows for the duration. In addition it grants +2 MAC versus ranged magical attacks when held in the direction of the attack. Despite the spell's title it is not a Bless.			

Greater Shield [Self] and [Other]			
Level:	-	Colour:	Gold
		Range:	Self / Touch
		Duration:	5 Minutes
Verbal: <i>"May the Gold Drake shield and ward my/your body with all his might."</i>			
Description: As the Shield glyph, but grants instead +6 PAC and MAC to the recipient, who must be a Marked Ally. This spell does not stack with Shield Self or other spells. Both versions of the spell, the 6mp Self and 8mp Other versions, may be learnt together for a cost 75 points.			

Reviving Command			
Level:	8	Colour:	Gold
		Range:	10'
		Duration:	Instant
Verbal: <i>"By the power of the Golden Drake I command thee arise!"</i>			
Description: Removes the effects of any ongoing cataleptic state, coma, unconsciousness or sleep, bar those caused by spiritual effects, damage, or the target's own abilities (e.g. not use of Resistance to Dying Effects). If the effect to be removed was a stackable rune or other level-based effect, then the caster's skill level (e.g. 9th level mana and casting) must be equal to or higher than the level of the effect. Cannot be used against other stopping effects like Paralysis or Freeze, but only those described above. May only be used on Marked Allies.			

Pacification			
Level:	8	Colour:	Gold
		Range:	10'
		Duration:	Instant / 5 minutes
Verbal: <i>"The Golden Drake wishes calm and peace here ... Pacification."</i>			
Description: One target not immune to Emotion Attacks is caused to leave any form of 'rage' or berserk which they are currently in, and may not use any such ability for 5 minutes. If this is used on a Marked Ally the mana cost is reduced by 2.			

Mass Shield			
Level:	10	Colour:	Gold
		Range:	20' Radius
		Duration:	5 minutes
Verbal: <i>"May the Gold Drake shield and protect all my allies!"</i>			
Description: Cause all marked allies within 20ft to benefit from a Shield (Other) spell. Each individual Shield spell may be dispelled as a 3 mana spell.			

Bliss and Euphoria			
Level:	10	Colour:	Gold
		Range:	20'
		Duration:	60 minutes
Verbal: <i>"The Gold Drake offers you a choice, accept his touch and be filled with wonderment, Bliss and Euphoria."</i>			
Description: This spell is an emotion attack that places the target into a state of extreme contentment. It makes the target immune to all other non-spiritual: Emotion attacks, and Insanities. Whilst active the target may not attack except in purest self defence.			
Note: If cast on marked allies this spell costs 2 mana less in base cost. If the target is unwilling, then it only works on targets of a lower level than the Wizard's skill level.			

Golden Golem			
Level:	12	Colour:	Gold
		Range:	Self
		Duration:	5 Minutes
Verbal: <i>"May the Gold Drake protect my form. Ward my body from the blows of all - I go forwards in the name of peace - I call forth the Armour of the Golden Golem".</i>			
Description: This spell creates an aura around the caster of magical golden magic. Any weapon without a spiritual component is stopped by its warding style magic before it strikes the caster, causing no effect whatsoever to the caster. Unarmed combat by creatures with a spirit still hits, and in a similar manner the caster [should they have a spirit] is still able to touch others. The Golden Golem aura is broken by the caster should they move faster than a slow walk or use any melee attack. Immunity to Opponent's Aura of Defence applies.			

Chernobyl's Lesser Force-Trap			
Level:	13	Colour:	Gold
		Range:	20'
		Duration:	1 hour
Verbal: <i>"The Gold Drake holds thee in the palm of his hand... Force-Trap."</i>			
Description: This surrounds the target in a 'skin' of gold force similar to a Forcewall spell, making it impossible for them to move or speak, unless they are able to walk through magical walls, or shift without speech. The skin allows air to penetrate, so that the creature inside may breathe, and also may free themselves if they can enter a Gaseous Form. Any blows directed at the target will first strike this skin and be blocked by it, although 20 magical Hits will destroy it, freeing the target. Alternatively, the spell is released with the same command word the caster's Forcewall spells are keyed to.			

Mass Warding			
Level:	16	Colour:	Gold
		Range:	20ft Radius
		Duration:	5 Minutes
Verbal: <i>"May the Gold Drake ward and protect me from all my foes!"</i>			
Description: Acts as per the Warding spell but effects any one that is not a Marked Ally to the caster. While active, the caster is unable to move, or cast, but can speak.			

Haven			
Level:	18	Colour:	Gold
		Range:	30' Radius
		Duration:	Special
Verbal: <i>"Golden Drake your children require time to rest and recover, wounds need attention, and mana grows short!"</i>			
Description: Within the radius of effect all creatures that are not mindless feel at ease. None may initiate any conflict or carry on if the fight enters the area of affect, or if the target is in the area of effect. I.e. you cannot attack into the area.			
Any creature which is not completely immune to magic that tries to enter the area of affect, but who is not affected by the pacification above, will find themselves unable to do so (e.g. mindless creatures like animated statues or similar). If any conflict occurs within the haven, the spell is cancelled immediately, e.g. if a purely spiritual creature attacks a creature who is affected by the spell and is within the area of effect. The spell lasts as long as the casting wizard remains at the centre of effect and meditates, during which time that wizard gains +x1 Meditation Rate, e.g. if he had standard meditation gains double meditation rate, if he had double it becomes triple meditation rate, et cetera.			

Green Magic

Rain Shower			
Level:	2	Colour:	Green
		Range:	100' radius
		Duration:	5 seconds
Verbal: <i>"Undines at my command bring forth a shower of rain – bring water to this place."</i>			
Description: This spell causes rain to fall from seemingly nowhere. This short, soft shower of rain has no in-game effects except that any location within range counts as an acceptable location for the purposes of Undine Elemental shift and Water Shift. There are no restrictions on where this spell may be cast, as the water is summoned directly from the Elemental Plane of Water. The water so summoned remains useable and effective for 5 minutes.			

Talk to Fluid			
Level:	2	Colour:	Green
		Range:	Touch
		Duration:	5 Minutes
Verbal: <i>"Undines of water converse with me and tell me of your purpose!"</i>			
Description: As Talk To Inanimate but only works on fluids. Fluids have absolutely no perception beyond themselves and will generally be hedgy about what they are, requiring intensive discussion and persuasion. Fluids have excellent memories. A wizard may not speak to the fluid contained within an animate object by use of this spell.			

Drizzle's Water of Life			
Level:	2	Colour:	Green
		Range:	Touch bottle / container
		Duration:	5 Minutes
Verbal: <i>"May the Dragon of Water - touch his favour upon this water of life."</i>			
Description: This spell transforms 50ml (or more) of water such that it acts as a single dose of 6 TBLP healing potion, if drunk within the duration. Note that the water is magically enchanted, e.g. for the purposes of Monk magic use restrictions and priestly use of spiritual powers.			

Acid Blast			
Level:	3	Colour:	Green
		Range:	20'
		Duration:	Instant
Verbal: <i>"By the power of water I strike thee... Acid Blast!"</i>			
Description: This spell delivers 12 points TBLP and 2 points per location of magical acid damage against which only magical armour class defends. This spell delivers 4 hits to monsters.			

Clairaudieny			
Level:	3	Colour:	Green
		Range:	Self
		Duration:	5 Minutes
Verbal: <i>"May the power of illusions twist that which passes between the real and unreal - and grant me the power of Clairaudieny."</i>			
Description: This spell allows the caster to hear and speak through an illusion he has control of. Only one illusion may be empowered at a time in this manner. This spell will last for the duration of the illusion, to a maximum of 5 minutes.			

Unseen Strength			
Level:	3	Colour:	Green
		Range:	Touch
		Duration:	5 Minutes
Verbal: <i>"Undines at my command, strengthen my servant with your power."</i>			
Description: May be cast on an Unseen Servant or Unseen Ally (see below). The spell grants the target +1 Strength, and additional resilience, such that it now requires 15 hits to destroy. This allows an Unseen Ally to inflict +1 damage grade, as normal. It should be noted that Unseen Servants have a roughly humanoid form.			

Water Cannon			
Level:	3	Colour:	Green
		Range:	20'
		Duration:	Instant
Verbal: <i>"Mighty waters repel thee! Water Cannon"</i>			
Description: One target is hurled back 40' by a powerful jet of water from the caster's hands, or until their travel is blocked by a solid object (cf. Repulsion). This is solely a physical effect, and Immunity to Knockbacks and Repels applies.			

Collection			
Level:	4	Colour:	Green
		Range:	Unlimited
		Duration:	N/A
Verbal: <i>"Undines at my command bring forth that which is hidden I call that to me."</i>			
Description: This spell calls to the caster's hand one object that is currently under the effects of a Vanish glyph that he has previously cast. Does not work on Vanish Animate types, only normal Vanish.			

Purify Water			
Level:	4	Colour:	Green
		Range:	20'
		Duration:	5 Minutes
Verbal: <i>"Purest water return and let impurities fade."</i>			
Description: Up to 27' cubic feet of non-supernatural liquid is instantly converted to pure water. This does not affect animate beings of any sort.			

Unseen Ally			
Level:	5	Colour:	Green
		Range:	3'
		Duration:	5 Minutes
Verbal: <i>"Undines at my command, create for me a servant and ally to act unseen in my name."</i>			
Description: As per Unseen Servant; however, may wield up to two weapons (which remain visible!) and inflict base damage with them.			

Dargan's Water to Wine			
Level:	Colour: Green	Range: 3ft	Duration: Permanent or 60 seconds
Verbal: <i>"May the green take this liquid and transform it from into"</i>			
Description: Transforms one normal non-supernatural liquid into another liquid. If used to create a normal liquid (e.g. water to wine) the spell costs 3 mana and the effects are permanent.			
If used to transform a liquid into a potion type, then the spell will create a single batch that must be used within 60 seconds. It costs mana as below: Immediately available recipe: 5 mana Simple recipe: 8 mana Average recipe: 9 mana Difficult recipe: 10 mana Holy/Unholy Water, Star Metal, and Iron Filings may not be created with this spell – nor may bandages. Dargan's Water to Wine is learnt as a 5 mana spell.			

Lugh's Illusionary Armour			
Level: 6	Colour: Green	Range: Self	Duration: 5 Minutes
Verbal: <i>"Undines of water create for me a phantasm of armour to protect my form."</i>			
Description: This spell creates an illusionary suit of armour around the caster. The armour absorbs the first 12 hits of weapon blow damage suffered before any A/C and damage reductions. This spell can only absorb damage from blows with a physical or magical component, and once the 12 hits are taken the spell ends. The caster may only have one spell active at a time.			

Douse			
Level: 6	Colour: Green	Range: 20'	Duration: Instant
Verbal: <i>"Let the might of the waters snuff the flames... Douse!"</i>			
Description: Will extinguish one normal fire up to the size of a large bonfire, or dispel one ongoing fire-based spell of up to 6 mana (e.g. Fireblade, Sword of Power, Salamander '6'). When used on more powerful fire-based creatures it inflicts 24 tblp (8 Hits) - for example, to fire elves or larger Salamanders, to which only Resistance to Dispersals applies.			

Phantasmal Nemesis			
Level: 6	Colour: Green	Range: 20'	Duration: 5 Minutes
Verbal: <i>"Feel the terror of viewing your nemesis... Fear!"</i>			
Description: This induces fear as per the 4 spirit miracle Cause Fear in the target indicated. For the duration, they are stricken by an irrational belief that the caster is a terrifying creature from their nightmares. This will only work on creatures that can perceive fear and thus will not work on undead, elementals or the like.			

Replicate			
Level: 6	Colour: Green	Range: 20'	Duration: 5 minutes
Verbal: <i>"Undines at my command bring forth mystery, by the weavers' arts let a ...[object]... be made."</i>			
Description: This spell creates an Illusion, albeit solid and real, of an object of the caster's choosing. This object may be as small as desired, but no bigger than 27 cubic feet. It may be as detailed and complex as the caster desires. Intricate designs such as maps, or scroll paperwork may be produced. More practical examples would include replicating weapons, doors and the similar. The replicated object is indestructible whilst formed, except by things that could destroy a magic object, such as Dispel or Shatter-style magical powers. Only things within view, or seen that adventure, may be replicated.			

Glamour			
Level: 7	Colour: Green	Range: 20'	Duration: 5 Minutes
Verbal: <i>"Undines grant to that one thoughts and dreams of me to be his friend – bewitch his eyes with thy glamour."</i>			
Description: This spell weaves an illusion in the target's mind that the caster is a trusted friend, as per the Befriend Spirit miracle, including the backlash for betraying the 'friend'. This spell effects only those who have a resistance level to green mana less than the caster's skill level.			

Shimmer			
Level: 8	Colour: Green	Range: Self	Duration: 5 Minutes
Verbal: <i>"May the undines of water grant my image a hazy shimmer to confound my foes."</i>			
Description: This grants dexterity armour class up to the maximum armour class of the wizard.			

Acid Strike			
Level: 9	Colour: Green	Range: 20'	Duration: Instant
Verbal: <i>"By the mighty powers of the undine I dissolve thee... Acid Strike!"</i>			
Description: This spell delivers 24 points of TBLP and 4 points per location of magical damage against which only magical armour class applies. The spell also dissolves 2 points of physical armour class including toughened skin (which will regrow after the adventure only). Master crafted armour loses only one point of PAC per acid strike. This spell delivers 8 hits to monsters. Immunity to Acid stops the dissolving of the PAC and halves the damage suffered.			

Distortion			
Level: 9	Colour: Green	Range: Self	Duration: 5 Minutes
Verbal: <i>"Water distort my features, twist and hide me from my foe such that I may avoid his every blow."</i>			
Description: The spell grants the wizard immunity to the following attack modes or skills: Force Majeure / Damage Focus / Backstab / Accuracy / Call Location Shot / H & MP Class Weapons / Puissant D'Armes.			

Dessication			
Level:	9	Colour:	Green
		Range:	20'
		Duration:	5 Minutes
Verbal: <i>"May the Green Dragon deny thee thy fluids, let thy body dry and fail... Dessication!"</i>			
Description: This spell delivers 24 points of TBLP damage and 4 points per location to a flesh and blood target and ignores magical armour class. The only exception to the flesh and blood rule are creatures who are made up of water and are not flesh and blood, who instead receive double the damage from the attack. Monsters suffer 8 hits from this spell, or 16 if they are an aquatic elf, an undine, et cetera...			

Illusionary Concealment			
Level:	9	Colour:	Green
		Range:	Self
		Duration:	5 Minutes
Verbal: <i>"Undines at my command hide me within your phantasms so that sight is tricked and eyes misled."</i>			
Description: This spell means that the wizard cannot be perceived by normal physical sight. The spell ends if the wizard casts another spell, moves faster than a slow walk, makes an attack or uses any ability, or after 5 minutes, whichever is shorter. This is an illusion, and thus creatures unaffected by illusions, such as mindless creatures (e.g. zombies or animated statues), are able to see through it.			

Dissolve			
Level:	10	Colour:	Green
		Range:	20'
		Duration:	30 seconds
Verbal: <i>"Acid! Take a hold of that ...[object]...cause it to rust and fail...Dissolve"</i>			
Description: This spell will "rust" a non-spiritual inanimate metal object of up to 27 cubic feet at the end of its duration, completely and irrevocably destroying it. If the spell is dispelled before that time, the object is unharmed. Even "item" and trusty old objects can be destroyed in this way, as long as they are mostly made of metal, and do not contain a spirit.			

Slippery Grip			
Level:	10	Colour:	Green
		Range:	20'
		Duration:	5 Minutes
Verbal: <i>"May the power of the undines of water fill your hands...slime be upon you! Slippery Grip."</i>			
Description: The target's hands are coated in a thick magical slime which means that no objects can be held in the hands, unless they be purely spiritual. This applies to weapons as well as other objects. Immunity to Supernatural Fumble Effects grants immunity to this spell.			

Acid Rain			
Level:	12	Colour:	Green
		Range:	100' radius
		Duration:	5 seconds
Verbal: <i>"Undines at my command bring forth a shower of rain to burn all around me with acid."</i>			
Description: In a similar manner to Rain Shower [see page 70] this spell creates a short shower of acidic rain, which will burn the skin of all those within the radius. It causes 6/1 magical acid damage, against which MAC applies. Thus MAC 1 will stop its effects. Immunity to Acid grants 1/2 effect.			

Awe			
Level:	12	Colour:	Green
		Range:	Self
		Duration:	5 Minutes
Verbal: <i>"Undines surround me and let none see the truth. Gift their eyes with visions of marvels..."</i>			
Description: The caster is surrounded by a glamour of vague but powerful magic. All creatures with a mind within sight of him will sense a feeling of majesty and power radiating from him, and will be unwilling and unable to initiate combat with him unless they have 10th Level Resistances to Magic or are Immune to Emotion Attacks. The spell is broken for any individual attacked by the caster, whether in melee or by direct spells. It is not effective when the caster cannot be seen.			

Acid Stream			
Level:	12	Colour:	Green
		Range:	20'
		Duration:	Instant
Verbal: <i>"By the mighty powers of the green dragon, may thee be dissolved utterly, may acid roil and blisters burn... Acid Stream!"</i>			
Description: This spell has the following effects on the target of the spell:			
1. Target takes 36/6 magical acid damage against which only magical armour class applies.			
2. All physical armour class on the target is destroyed.			
3. All non magical/spiritual/"Item" objects are destroyed.			
To monsters this spell inflicts 12 Hits.			
Immunity to Acid stops parts 2 and 3 and halves the damage from 1.			

Vanish Animate			
Level:	13	Colour:	Green
		Range:	20'
		Duration:	5 Minutes
Verbal: <i>"By all my powers and my mastery of the undines I command thee to Vanish!"</i>			
Description: One animate target within range vanishes completely, in a way similar to the Standard spell Vanish. For the duration they are deemed not to exist for any purpose – durational effects upon them will resume from where they left off when they reappear, and the target will hardly be aware of their absence. Immunity to Involuntary Mystical Transportation effects grants immunity to this spell, and 1/2 effect magic or similar halves the duration. It should be noted that while Vanished objects effectively 'do not exist', thus items cannot be 'called to hand' from Vanish, etc.			

Mass Vanish			
Level:	16	Colour:	Green
		Range:	10ft long, 60-degree cone
		Duration:	1 minute
Verbal: <i>"By all my powers and the will of the Green Dragon I command all before me to Vanish!"</i>			
Description: Causes all objects within the area to suffer the effects of the Vanish. Note the short duration of the spell. Also due to the nature of the spell it is not possible to use collection with it as the spell cannot distinguish between vanished objects.			

Unseen Killer			
Level:	16	Colour:	Green
		Range:	10ft
		Duration:	5 minutes
Verbal: <i>"Undines at my command I summon thee forth, I conjure thee to hunt down my foe!"</i>			
Description: Acts in a similar manner to Unseen Servant (including the number of hits). However it is summoned with O and E skill, and a pair of invisible daggers. It has 3 grades of backstab and will hunt down one chosen target, attacking only them.			

Drown			
Level:	16	Colour:	Green
		Range:	10'
		Duration:	5 Minutes
Verbal: <i>"Mighty undines let lungs fill with brine and let him/her choke and gasp beneath the weight of the waters... Drown!"</i>			
Description: One target who breathes has their lungs and body filled to overflowing with water, which wells from their mouth and nostrils.			
- The immediate effect of this is that the target is unable to speak or breathe. - After 30 seconds they are unable to use masteries, DAC, or any ability which requires concentration. - After 1 minute they are unable to stand, and from this moment on take 1 point of damage to each of chest and abdomen locations (2 tblp in total), or 1 Hit to monsters, every 10 seconds the spell lasts (making a total of 48 tblp and 24 to each of chest and abdomen (24 Hits) by the end of the spell's duration – four minutes of damage).			
This damage is normal physical damage based on the need to breathe - not magical damage. Targets are not freed to act if struck, and in fact the only ways to free the target from the spell are to somehow grant them the ability to breathe water, such as with a Walk through Water (Other) spell, or to dispel the glyph. Large Lung Capacity does not help, as all lung capacity is filled with water. If Determination or similar is possessed, it is possible to continue acting under the effects of the Drown, ignoring penalties bar damage (and the inability to speak, to which Immunity to Dumbness does not apply), but additionally taking Determination damage every 30 seconds! It is not possible to use abilities like War Cry. Resistance to Green Mana halves the duration of the spell as normal, thus dramatically reducing the damage taken overall.			

Tempest's Depths of the Ocean			
Level:	17	Colour:	Green
		Range:	20ft
		Duration:	N/A
Verbal: <i>"Feel as the crushing depths of the ocean surround your form. Let the weight of the ancient seas and oceans be upon thee and bring you low."</i>			
Description: Causes the targets chest to be crushed by water pressure. This acts as a Location to Zero to the chest. Resistances to Sever applies, and resistances to Green mana provide a stacking resistance to sever. Walk through water (or an Aquatic Elves unimpeded by water ability) means the target is unaffected. This spell only effects those with a physical presence.			

Grey Magic

Magical Glimpse (Cantrip)			
Level:	0	Colour:	Grey
		Range:	20'
		Duration:	Instant
Verbal: <i>"I call upon the elements within that _____ to reveal yourself to me now - Glimpse Magic."</i>			
Description: As the basic wizard ability Recognise Mana on a single specified target within range. This is not cumulative with any enhancements to Recognise Mana.			
Note: This spell costs 20pts to learn, or 10pts post 6th Thaumaturge.			

Improved Detect Magic			
Level:	2	Colour:	Grey
		Range:	20' Radius
		Duration:	Instant
Verbal: <i>"I call upon the elements of fire, air, earth and water, reveal unto me where you may be found and relate thy potency!"</i>			
Description: As the Standard Detect Magic cantrip but it also reveals the mana point level and colour of the magic it detects.			

Force			
Level:	3	Colour:	Grey
		Range:	Self
		Duration:	Next spell within 30 seconds
Verbal: <i>"Dragons of Magic empower this glyph with your Force."</i>			
Description: This spell empowers the next damaging spell cast by the wizard to cause the target to either be Knocked Down [as trip no object required] or or to be hit by a Knockback [10]. Immunity to Trip or Immnity to Repels applies as appropriate.			

Twilight			
Level:	3	Colour:	Grey
		Range:	10' Radius
		Duration:	5 Minutes
Verbal: <i>"May the elements throw light and dark in confusion."</i>			
Description: Causes the area within 10ft of where the spell is cast to be filled with twilight. This negates any magical darkness or light as it is appears.			

Acquisition			
Level:	3	Colour:	Grey
		Range:	20'
		Duration:	24 hours
Verbal: <i>"May the elements be called into this ..[object]... for a while."</i>			
Description: This spell may be cast upon any physical object under 27 cubic feet, and not containing a spirit. For its duration the object will not count against a magician's metal allowance. It only works on singular objects like a Plate and a Sword. For suits of armour, each location will require a separate glyph.			

Twilight (R)			
Level:	4	Colour:	Grey
		Range:	20'
		Duration:	5 Minutes
Verbal: <i>"May the elements throw light and dark in confusion over there."</i>			
Description: As Twilight (Self) but the caster may chose to focus it on themselves so that it moves with them (cf. Light Range).			
Note: May learn both Twilight [S] and Twilight [R] for the reduced cost of 40pts.			

Artefact Shield			
Level:	4	Colour:	Grey
		Range:	Touch
		Duration:	24 hours
Verbal: “May the power of my magic confound those that would seek to destroy my treasures.”			
Description: Acts similarly to a passive Dispel Magic when cast on a magical (only) item, but only negating the first magical disenchanting effect (e.g. Negation) to target that item.			

Harmonic Enchantment			
Level:	4	Colour:	Grey
		Range:	Touch
		Duration:	24 hours
Verbal: “I entreat the elements of Fire, Air, Earth, Water, Light, Darkness and Twilight to place this in perfect balance, may it remain true, whole and untouched.”			
Description: This spell may be cast on any inanimate object of up to 27 cubic feet in volume, rendering it immune to non-spiritual Disintegrate, Shatter, Rust, Melt, Crystallise, Warp and Reshape effects while the spell remains active.			

Spleenripper's Magical Nexus			
Level:	5	Colour:	Grey
		Range:	Self
		Duration:	Special
Verbal: “Dragons of Magic bare witness and focus your attentions on me for a while as I become the Nexus.”			
Description: This spell grants the caster +1x med rate [not cumulative with any other temporary increase] - for as long as they do not cast any other spell. This spell is still restricted by the system limits on meditation.			

Prismatic Blade			
Level:	5	Colour:	Grey
		Range:	Touch
		Duration:	5 Minutes
Verbal: “I call forth the magic of “A” into this blade. Let the twilight dragon bind its power.”			
Description: Turns a single mundane weapon into a +0 magic weapon of the chosen colour for the duration.			

Strength of the Magi			
Level:	6	Colour:	Grey
		Range:	Special
		Duration:	5 Minutes
Verbal: “May the elements imbue my form with the strength of the Dragons.”			
Description: This spell grants the wizard +1 strength, which will not stack with any other form of strength. It may also be cast on others for the same cost. However, it will only benefit them if they are magical creatures such as Elves, Draves or Faeries (creatures which would be harmed or destroyed by use of a Dispel).			

Disrupt Essence			
Level:	7	Colour:	Grey
		Range:	20'
		Duration:	Instant
Verbal: “By the power of the elements I strike thee... Disrupt Essence.”			
Description: Inflicts 24/4 magical damage (8 Hits) to any creature harmed or destroyed by Dispels, regardless of all armour class. Half-effect Dispels halves the damage inflicted. It has no effect whatsoever on other targets.			

Mage Sight			
Level:	8	Colour:	Grey
		Range:	Self
		Duration:	5 Minutes
Verbal: “Mighty dragons guide my sight.”			
Description: Grants the caster the ability Mage Sight, as per the tables ability, allowing them to see the colour and mana levels of all magic around them. This sight is not impeded by physical objects (unless they are also magical). For example, if looking at a red wizard with a Plate (S) spell active on them, even if the wizard was the other side of a solid wall, the caster could see a red mana source of 10+ mana level, surrounded by a 3 mana grey mana source.			

Talk to Elementals			
Level:	8	Colour:	Grey
		Range:	20'
		Duration:	5 Minutes
Verbal: “Mighty elementals / (A), speak to me and relate what thou knowest.”			
Description: May either be used as a Talk to Element of choice, chosen when cast, or used to speak to all corporeal elementals in the area – that is all those that have taken physical form only, regardless of their type. Caster must choose which version when casting, as verbals indicate.			

Prismatic Ward			
Level:	8	Colour:	Grey
		Range:	6' radius circle or 15' line
		Duration:	5 Minutes
Verbal: “May the elements defend me from the powers of the [elemental name].”			
Description: This spell acts similarly to the Protection From Spirits miracle, and must be drawn in chalk or with a stick when casting in the same manner as that miracle. When cast, a single basic colour of magic is chosen (not Grey or the "New Colours"), and no creature made of magic of that colour may cross the ward unless their resistance level to grey magic is greater than the caster's skill level, or unless they are immune to Protection From Spirits. Additionally, all spells and creatures of the specified colour that cross the ward are subject to a Dispel at the caster's skill level, often cancelling such spells before they reach their target.			
Note: For 40pts on table 8 a 1st Class 1st Colour Grey wizard may enhance this spell so that it can also be cast against the New Colours.			

Mana Shield			
Level:	8	Colour:	Grey
		Range:	Self
		Duration:	5 Minutes
Verbal: “Let the elements of fire, air, earth and water, light and darkness, turn away from me.”			
Description: This spell grants the wizard total immunity to all forms of magic, including dispels to remove this glyph. Note: if cast by a magical creature such as an Elf, Drave or Faerie, the creature instantly dies (and if cast mantically by a creature which has a spirit that creature also instantly dies). Whilst this spell is running the wizard may not use spells or magical items or benefit from any source of magic.			

Damage Shield			
Level:	9	Colour:	Grey
Range:	Self	Duration:	5 Minutes
Verbal: <i>"I call upon the powers of the elements to shield me from the blows of my foes!"</i>			
Description: This spell reduces the damage done by any solely physical attack by 9pts before other defences are factored in. Against any attack with a magical component only 6pts are taken from the damage before other defensive factors are considered. Spiritual and Earthpower enhanced attacks ignore the defence of this spell. This spell does not stack with any spell which generates armour class, e.g. Plate (S), Shield (O), et cetera. This spell does not stack with itself and only stacks with natural armour class. It does not stack with any form of Distancing, Counter or Contra Mastery or other such numerical damage reductions.			

Disenchant			
Level:	10	Colour:	Grey
Range:	20'	Duration:	60 seconds
Verbal: <i>"May magic be banished from this for a while."</i>			
Description: For the duration of this spell one piece of non-animate magic is considered 'Negated'. It loses all magical properties; this would include lines, magical wardings and the similar, if they would be normally removed by a Dispel glyph.			

Phase Trap			
Level:	10	Colour:	Grey
Range:	20'	Duration:	5 Minutes
Verbal: <i>"I call upon the power of the elements to hold thee to this place... Phase Trap."</i>			
Description: This prevents the target using magical means to "Shift" e.g. Airshift, Earthshift, Teleport, Mass Teleport, Blink, et cetera, for the spell's duration. It also has the side effect of destroying level 6 or lower elementals, as though they were touched by another elemental.			

Phase Barrier			
Level:	10	Colour:	Grey
Range:	Special	Duration:	5 Minutes
Verbal: <i>"May the lords of the elements deny passage to all."</i>			
Description: Similar to Phase Trap (above), this glyph allows the caster to draw a line of up to 15' in length, or a 6' radius circle, which cannot be crossed in either direction by any shifting using magical means, instead appearing just outside the line on the route they were taking. Additionally, if an elemental of mana level 6 or lower touches the line, the elemental is dissipated as if touched by another elemental.			

Superplate			
Level:	10	Colour:	Grey
Range:	Self	Duration:	5 Minutes
Verbal: <i>"May the elements imbue my skin with the strength of Adamantium!"</i>			
Description: This spell grants the caster magic and physical armour class to his maximum armour class or 10, whichever is lower.			

Dispel 11–15			
Level:	-	Colour:	Grey
Range:	20'	Duration:	5 Minutes
Verbal: <i>"By my might, the potency of magic and the power of the elements Dispel X!"</i>			
Description: As Dispel Magic but works on mana of up to 15. It is only possible to buy these dispels in a package. This package costs 125pts and grants the ability to cast all of the dispels between 11 and 15 (inclusive). Dispel 10 is a prerequisite.			

Transient Artificing			
Level:	14	Colour:	Grey
Range:	Touch	Duration:	24 hours
Verbal: <i>"Into this _____ I call the elements of Fire, Air, Earth, Water, Light, Darkness and Twilight, may form and function be made perfect with my magic."</i>			
Description: This spell enchants a normal physical weapon, shield or suit of armour such that it becomes +0 magical for the duration.			

Embody Elemental			
Level:	14	Colour:	Grey
Range:	Self	Duration:	5 Minutes
Verbal: <i>"...(A)... of...(B)... share my form and grant me thy power!"</i>			
Description: The wizard may embody an elemental 6 that they have just summoned, this grants the following powers and no others: The ability to shift at will as the appropriate elemental. The elemental sight possessed by the elemental. There are several disadvantages of embodying elementals as detailed below: • If the elemental is dispelled, destroyed or removed in any other fashion the caster dies. • If the Embody Elemental glyph is dispelled the Caster and Elemental die as the elemental materialises in the same space occupied by the caster. • If an elemental touches the wizard the wizard and the elemental vanish as they negate each other. The wizard's body will never be seen again. Note: Embodying an elemental does not grant immunity to spiritual effects in any manner, or any ability bar those listed above.			

Devastate the magic			
Level:	14	Colour:	Grey
Range:	10ft	Duration:	Instant
Verbal: <i>"By my might and the potency of magic I sunder the magic from you!"</i>			
Description: Causes all active spells on the target to suffer a dispel 6. This does not harm animate creatures.			

Summon Elemental 'Champion'			
Level:	15	Colour:	Grey
Range:	20'	Duration:	5 Minutes
Verbal: <i>"By the power at my command I summon the element of...(A)..., I entreat the elements of Fire, Air, Earth, Water, Light and Darkness. Come forth Champion of...(A)... let a...(B)... of...(A)... appear to do my will."</i>			
Description: This spell conjures an elemental '12' to be commanded. An elemental '12' may take 40 hits before being destroyed and inflicts 15pts of damage with its hands. It will not be negated by being struck by a 4 or 6 mana elemental, only by an 8 mana or higher elemental. All other details are as standard summon elemental such as sylph '6'.			

Dispel 16-20			
Level:	-	Colour: Grey	Range: 20' Duration: 5 Minutes
Verbal: <i>"My might, the potency of magic, the power of the elements and the grace of the Dragons Dispel X!"</i>			
Description: As Dispel Magic but works on mana of up to 20. It is only possible to buy these dispels in a package. This package costs 125pts and grants the ability to cast all of the dispels between 16 and 20 (inclusive). Dispels 11–15 are a prerequisite.			

Negation			
Level:	18	Colour: Grey	Range: 20' Duration: Perm
Verbal: <i>"May magic be banished from that ..."</i>			
Description: This spell permanently removes the magical enchantment from any one magical object (this spell does not affect animate objects or objects which contain a non-magical supernatural component). E.g. A +3 Magical Bastard Sword which cast Lightning Bolt 6 times a day, +5 magical armour class and permanent See Through Magical Darkness can be destroyed. A +0 spiritual hand mace or a +0 magical / +0 spiritual sword would not be.			

Zenith's Magical Destruction			
Level:	22	Colour: Grey	Range: Touch Duration: Hangs for 10 seconds
Verbal: <i>"By my might, the potency of magic and the power of the elements I sunder the magic on thee and destroy its power!"</i>			
Description: The spell hangs for 10 seconds after casting and causes the target to suffer a Dispel 10 on all active spells on them.			

Ivory Magic

Replenish			
Level:	2	Colour: Ivory	Range: Self Duration: Instant
Verbal: <i>"May the drake replenish my strength!"</i>			
Description: Restores 6/2 temporary life from an Ivory spell the caster is currently benefiting from. This will not heal real damage, but replenishes only temporary life. If some locations have not been injured these will be unaffected by the spell, and in no way will this spell take life above the maximums allowed by any other spells the caster has upon them, nor heal damage to the caster themselves, rather than the temporary life.			

See through Mists (Other)			
Level:	4	Colour: Ivory	Range: Touch Duration: 5 Minutes
Verbal: <i>"Mighty drake let the mist part before this ally's eyes!"</i>			
Description: One Marked Ally may see through the Ebony spell Mists for the duration. This spell may be cast on self at a base cost of 3 mana.			

Claw of the Drake			
Level:	4	Colour: Ivory	Range: Touch Duration: 5 Minutes
Verbal: <i>"Ivory Drake transform this weapon such that it holds the power of your claw."</i>			
Description: This spell augments a traditional wizard's weapon:- Staff, Spear or Dagger or, if cast by a Warlock, this can include a Bastard Sword, Axe or Mace. The weapon can only be used by the caster and they cannot be physically disarmed, although a Vanish will affect the weapon normally. The weapon inflicts magical damage and delivers an additional 6/1 damage on each blow (+2 hits to monsters), which ignores armour class in the same manner as a blast from a Supermissile. This enhancement cannot be stacked with any other form of enhancement, e.g. poison, Enhance Weapon, Fireblade or +0 magic, et cetera and is limited to a damage call of "Quad" as normal.			

Yossarian's Might of the Drake			
Level:	6	Colour: Ivory	Range: Self Duration: 5 Minutes
Verbal: <i>"Mighty Drake of Ivory, let this your weapon cut deep into the enemy."</i>			
Description: Once cast, enhances an Enhance Weapon spell wielded by the caster to inflict +4 base damage from +3, and grants it a maximum damage (unenhanceable in any way) of Quin. In this case the weapon must be the only weapon used by the caster, otherwise no benefits are gained.			

Lesser Enhance Weapon			
Level:	6	Colour: Ivory	Range: Self Duration: 5 Minutes
Verbal: <i>"May the Ivory Drake twist this weapon and its blow strike true."</i>			
Description: As per the spell Enhance Weapon but does not grant any additional damage grades.			

Honour			
Level:	8	Colour: Ivory	Range: Self Duration: 5 Minutes
Verbal: <i>"Let the Drake watch as I act with honour."</i>			
Description: The caster becomes Immune to Backstab and gains 1/2 effect damage from behind, unless that damage is neither physical nor magical. During this time should he strike any target in the back, or the referee deem that he deliberately turned to take a blow on the back rather than the front, the spell is cancelled and the caster is deemed to have broken the Ivory code.			

Conflict			
Level:	8	Colour: Ivory	Range: Self Duration: 12 hours
Verbal: <i>Mighty Ivory Drake witness now as I call to you to aid me in this conflict. May...name... know your power and my honour."</i>			
Description: This glyph grants the caster the effects of a Sanctuary spell but only against the nominated target. There are no restrictions on how far the caster may travel and benefit from this glyph.			
Note: This glyph may be specifically enhanced by published spells that would normally affect a Sanctuary spell, but with the changes only affecting in regards to the target of the spell.			
It is necessary within the verbal to name the target. This must be there given name, though it need not specifically be there 'true' name. If this glyph is cast within line of sight of the target then in place of the name the caster may use 'you'.			

Ivory Strength			
Level:	9	Colour:	Ivory
		Range:	Self
		Duration:	5 Minutes
Verbal: <i>"May the Ivory drake grant me stamina in the face of adversity!"</i>			
Description: The caster gains +24/8 temporary life (in the manner of Ivory Warrior) and +6 PAC. The life gained does not stack with any other temporary life-increases, except those granted by other Ivory spells (not this one).			

Fury			
Level:	10	Colour:	Ivory
		Range:	Self
		Duration:	15 Minutes
Verbal: <i>"May the Ivory Drake grant me the power to take her conflict to her foes."</i>			
Description: As the Sanctuary spell however only the casting wizard is affected and there is no limit to the distance that he may move and still receive the benefits of the spell. This may be enhanced with spells that empower a sanctuary.			

Armour of Alator			
Level:	10	Colour:	Ivory
		Range:	Self
		Duration:	5 minutes
Verbal: <i>"Ivory drake protect my body, turn aside the blades of my foes and cover me in the Armour of Alator"</i>			
Description: Grants the caster half effect sharp weapon blows for the duration.			

Ivory Armour			
Level:	12	Colour:	Ivory
		Range:	Self
		Duration:	5 Minutes
Verbal: <i>"To this mortal conflict I should go, and may my magics defend me from Maces, staves and bows. In this world of trouble and strife protect me from haft and knife. Axes, Spears and Swords too defend me so they won't cut true. May the Drake protect my form - her Ivory armour I adorn"</i>			
Description: The caster takes only 1pt per damage grade [cf. Rockskin] called from any weapon blow with a physical component; note that this includes Earth Power enhanced attacks, etc. However, any attack which cuts through Physical Armour class, such as Accuracy, avoids the defence this spell offers, unless the caster also has defensive abilities like Fortitude, which would stop the blow.			

Empower Sanctuary			
Level:	12	Colour:	Ivory
		Range:	Special
		Duration:	Duration remaining on Sanctuary
Verbal: <i>"The Ivory Drake watches over this place - may my allies grow in strength, honour and courage in this Sanctuary!"</i>			
Description: This spell empowers a previously cast Sanctuary spell such that the benefits to the caster's Mark Allies are increased to the following extent: • 25% Damage Reduction versus on-purely spiritual damage increases to 33.3% • 9th Level resistance to magic becomes '+1 level of resistance to magic'. • Chosen of the Dragon +2 DAC becomes 'all allies gain +2 DAC'			

Oath			
Level:	12+	Colour:	Ivory
		Range:	Special
		Duration:	1 year
Verbal: <i>"Ivory Drake witness these oaths and let them bind these two closely."</i>			
Description: Binds two characters to a willingly sworn Oath. Each character must recite their Oath audibly and in full, and then must clasp hands whilst this spell is cast. The caster may either be one of the participants or hold the clasped hands of the participants whilst casting this spell. If either participant is unwilling, this spell fails and the caster is made aware of which of the participants is unwilling.			
The oaths may be anything, and one may be trivial, but a pair of oaths must always be sworn. The oaths bind for one year unless initially sworn otherwise, or they can be released by the agreement of all parties including the caster. The oaths bind to the 'spirit' not the 'letter' of the oath, and at any time it is at the Ivory Drake's (ref's) discretion as to whether it has been held to. The oaths bind closely and the retribution for breaking one is terrible. An oath-breaker suffers the following disbenefits:- • They fall unconscious for 5 minutes, plus 1 minute for each extra mana point placed into the Oath when it was cast. No resistance applies to this unconsciousness. • They suffer the loss of 6 TBLP, plus 1 TBLP for each extra mana point placed in the Oath when it was cast. This is accompanied by a loss of 1/3 of that amount to each location (rounding up), and is unresistable and permanent. This is a loss of base life, not damage. • They suffer the loss of 1 point of maximum AC, plus 1 point for every 3 extra mana points in the Oath. • The caster and other participant are made supernaturally aware of the oathbreaking, and the other participant's Oath is released.			
Note that when this spell is cast and extra mana is placed into it, the casting damage is also increased. The effects of this spell must be written on all affected characters' cards. The effects are not released if the other party dies, unless that was part of the original conditions. The Oath may be dispelled from either of those who swore at the total mana level of the spell, in which case the caster and other recipient are made supernaturally aware of this and the other participant's Oath is released.			

Death in Battle			
Level:	15	Colour:	Ivory
		Range:	Self
		Duration:	5 minutes
Verbal: <i>"Into my body I call forth the power of the Ivory Drake, let my form survive beyond its mortal wounds."</i>			
Description: Grants the caster live to minus infinite TBLP, and they may remain conscious while in all live to minus. Should they enter this additional live to (even if cured before the spell ends) then they die when the spell expires. Additionally, the caster's locations continue to function regardless of their wounds, unless severed.			

Hostile Sanctuary			
Level:	15	Colour:	Ivory
		Range:	Special
		Duration:	15 Minutes
Verbal: <i>"The Ivory Drake offers battle to all those that seek conflict and resolution. We go forth to take the battle to the Enemy."</i>			
Description: As per Sanctuary but the spell moves with the caster, maintaining a 30' radius around them at all times. Please note the greatly reduced duration. This may be empowered via Sanctuary-enhancing spells.			

Jade Magic

The Flow of Life			
Level: 3	Colour: Jade	Range: Touch both recipients	Duration: Max 1 minute
Verbal: <i>"Let the vibrance of life flow between thee."</i>			
Description: The spell forms a link between the two recipients, allowing injuries to be transferred between them. This functions in a similar manner to Empathic Healing, allowing wounds to be transferred from one target to the other. For each point of damage healed, 2 points is suffered. A maximum of 1 point of damage may be healed each second, meaning a maximum of 60 life can be healed over the spell's duration. TBLP and locational damage may be healed at the same time.			

Illyriel's Protection			
Level: 5	Colour: Jade	Range: Touch	Duration: 5 Minutes
Verbal: <i>"May Jade power strengthen your blood and ward it from harm."</i>			
Description: Grants the recipient immunity to all forms of blood drain, or other attacks on the blood.			

Ward the Body			
Level: 6	Colour: Jade	Range: Touch	Duration: 5 Minutes
Verbal: <i>"May the Jade Dragon strengthen your body against the greatest of blows."</i>			
Description: Grants the recipient a stacking resistance to sever/location to zero for the duration.			

The Body Renews			
Level: 6	Colour: Jade	Range: Touch	Duration: 3 hours
Verbal: <i>"May verdant power allow your body to heal."</i>			
Description: Causes the target to begin to slowly heal, allowing them to regenerate 1TBLP and 1 to the most injured location every 5 minutes. This does not stack with other regeneration, and cannot heal damage suffered from purely spiritual attacks, or Onyx mana.			

Life Overwhelms			
Level: 8	Colour: Jade	Range: Self	Duration: Instant
Verbal: <i>"Life"</i>			
Description: This spell must be cast within 2 seconds (CF War Cry or Deny Power) of suffering a non-spiritual effect that kills the caster. This grants the caster complete immunity to that effect. It cannot be applied to damage, and if the initial effect has a secondary effect, then this is still suffered. This spell costs the caster a casting level for 1 hour when used.			

The Body Attunes			
Level: 9	Colour: Jade	Range: Touch	Duration: 5 minutes
Verbal: <i>"May your body shift and change and attune to XXXX."</i>			
Description: Grants the recipient 50% off one chosen colour of magic for the duration. It cannot protect against Onyx magic, and an individual may only be warded against one colour at a time.			

The Life Within			
Level: 9	Colour: Jade	Range: Touch	Duration: 24 Hours
Verbal: <i>"Let your body be purified. May your heart beat strong, your lungs draw breath, and blood flow free"</i>			
Description: The recipient's body is cleansed and refreshed. This grants them the benefits of a Herbal Infusion potion (as per the scout book) which grants +6/2 life and a level of resistance.			

Verdant Form			
Level: 10	Colour: Jade	Range: Touch	Duration: 5 minutes
Verbal: <i>"May verdant power flow through your body and grant you great strength."</i>			
Description: Acts as per Empower Form, except it grants the recipient 36/12 temp life.			

Onyx Magic

Rapid Degeneration			
Level: 2	Colour: Onyx	Range: 20'	Duration: 1 Minute
Verbal: <i>"Let your body weaken and fade. Let wounds fester and bones become frail"</i>			
Description: Causes the target to begin to rapidly degenerate. This causes them to suffer 3/1 per location per 15 seconds for the duration.			
A target can only be suffering from one casting of this spell at a time. Resistance to Degeneration apply.			

Weight of the Years			
Level: 4	Colour: Onyx	Range: 20'	Duration: Instant
Verbal: <i>"Feel the weight of the years upon thee as your body suffers."</i>			
Description: The spell causes the target to age briefly, before returning to their normal state. The resulting shock to the system causes them to suffer 12/2 (4 hits) damage, to which MAC does not apply. Immunity to Ageing Effects applies.			

Illyriel's Weakness of the Blood							
Level:	6	Colour:	Onyx	Range:	20ft	Duration:	5 minutes
Verbal: <i>"May your blood be weakened and your body suffer under my touch!"</i>							
Description: Causes the target to lose a level of resistance to magic. This is a flesh and blood effect. Immunity to level drain applies.							

Empathic Harm							
Level:	5	Colour:	Onyx	Range:	Touch	Duration:	10 seconds
Verbal: <i>"With the Strength of the Onyx Dragon I claim the life that sustains your body."</i>							
Description: When cast on a helpless (or willing) target the caster can drain their life to heal themselves. For every 3 life drained from the target they may heal themselves 1 point of damage. It takes 1 second to drain 3 life (1 Hit), although TBLP and Loc may be drained at the same time. Resistances to Empathic Harm double the time taken to drain the life.							

Expose the Weakness							
Level:	10	Colour:	Onyx	Range:	10ft	Duration:	5 Minutes
Verbal: "With Onyx power I change your form, let your weakness to X be exposed for all to see."							
Description: Causes the target to suffer 50% extra damage from one chosen colour of magic, otherwise functioning as per Weaken the Body (which it does not stack with). Immunity to Involuntary Shape Shifting applies.							

Bone Break					
Level:	12	Colour:	Onyx	Range: Touch	Duration: Hangs for 10 seconds
Verbal: “With the power of the Onyx dragon I bid thy bones weaken and snap under my touch!”					
Description: Causes the bones in next limb (arm or leg, normally) touched to snap and break. This causes it to become unusable until it has a regeneration miracle (or similar effect) cast upon it. The spell also causes 24/24 damage to the limb. Immunity to Involuntary Shape Shifting applies, and a Resistance to Sever/Loc to Zero grants immunity to the bone break effect, although the damage is still suffered.					

The Limbs Fail							
Level:	18	Colour:	Onyx	Range:	10ft	Duration:	5 minutes
Verbal: <i>"The Onyx dragon holds your body in its grasp, and demands bones crumble and flesh wither. "</i>							
Description: Causes the target to suffer a Wither to all of their limbs.							

The Shattered Form							
Level:	20	Colour:	Onyx	Range:	Touch	Duration:	N/A
Verbal: <i>“With the power of the Onyx Dragon I bid they body snap and break. Let thy form suffer at my touch as I break bone, sunder flesh, and destroy the essence that binds you to life!”</i>							
Description: Once cast the spell hangs for 10 seconds. The target touched suddenly finds their chest begins to crumple and break. This acts as per a sever to the chest, which obviously kills the target if they do not have any resistances. If resistances to sever are owned then damage is suffered based on the target’s current life, not their maximum (EG if they had 30 life to the chest, were down 15, and had one resistance to sever then they would suffer 15 points of damage as their chest is reduced to zero).							

Red Magic

Fire Dart							
Level:	1	Colour:	Red	Range:	10'	Duration:	Instant
Verbal: “ <i>The powers of fire burn thee... Fire Dart,</i> ”							
Description: Inflicts 6/1 magical fire damage in the same manner as the Fire Blast spell. Causes 2 hits to monsters.							
Note: This spell has a decreased range.							

Burn Wood							
Level:	2	Colour:	Red	Range:	20'	Duration:	Instant
Verbal: <i>"By the powers of fire I burn that wooden ... away."</i>							
Description: One normal, non-supernatural wooden object of up to 27 cubic feet catches fire and burns away, becoming unusable and leaving nothing but charred wood and ash. It may not be reformed.							

Waxing Flames							
Level:	3	Colour:	Red	Range:	20'	Duration:	Instant
Verbal: "Let those flames burn bright and merrily... Waxing Flames!"							
Description: One candle, lantern or other source of fire within range suddenly expands greatly, burning one target of the caster's choice within 3' of it with 18/3 magical fire damage (6 Hits to monsters). The flames quickly subside to normal levels afterwards.							

Shield of Power							
Level:	4	Colour:	Red	Range:	Self	Duration:	5 Minutes
Verbal: <i>"Onto my arm I call forth flame; Boss, Grip and Rim, shield of power, I conjure thee to guard my flank!"</i>							
Description: The created shield counts as a normal shield with magic properties. It grants non-stackable MAC 3 (with limitations akin to the Plate (S) spell) against ranged attacks, and permits a Sword of Power to be wielded one handed, doing 6pts less damage (Bastard Double to Monsters).							

Great Shock			
Level:	4	Colour:	Red
		Range:	Touch
		Duration:	Instant / 5 Seconds
Verbal: <i>"Into my hand I call forth the power of fire and brimstone...Great Shock"</i>			
Description: As the Standard spell Shock in all ways, except that the damage inflicted is 24/24 (8 Hits to monsters).			

Fireshower			
Level:	4	Colour:	Red
		Range:	20' Radius
		Duration:	Instant
Verbal: <i>"By the lesser powers of Fire and Brimstone, let all around be scorched.... Fireshower!"</i>			
Description: A shower of fire explodes outwards from the caster, inflicting 6/1 magical fire dart (2 Hits) to all within the radius. The caster also takes 6/1 magical fire damage, to which they may not apply MAC.			

Fire Trap			
Level:	5	Colour:	Red
		Range:	Touch
		Duration:	Until Disturbed / End of Adventure
Verbal: <i>"Here I leave fire to greet those who are not welcome."</i>			
Description: The next person to pass through the portal upon which this has been placed receives a Fire Blast. Alternatively the Fire Trap may be placed upon an opening or closing object and is activated the next time someone opens or closes the object, even if it is the caster. Only one Fire Trap or Greater Fire Trap (see below) may be set on any one portal or object at any one time. The spell will automatically fade at the end of the adventure in which it was cast. Once the Fire Trap has been set the object may not be moved by any means without the trap going off. If cast by a Red Wizard with Fire Blast Expertise it costs only 4 mana to cast.			

Benevolent Warmth			
Level:	6	Colour:	Red
		Range:	Touch
		Duration:	5 Minutes
Verbal: <i>"Salamanders gather and share your heat."</i>			
Description: The recipient gains immunity to natural cold and 1/2 effect magical cold, as well as an additional +2 resistance levels against non-spiritual Freeze effects, surrounding them with a constant comfortable warmth. Should this glyph be cast on an ice-based creature such as a winter elf, they suffer the loss of 2 DAC for the duration, and take 6/1 magical fire damage (2 Hits) every minute the glyph is active, to which MAC does not apply.			

Fire Trick			
Level:	6	Colour:	Red
		Range:	20'
		Duration:	Up to 5 Minutes
Verbal: <i>"Mighty Dragon of Fire grant fury to these flames that the [Nth] to cross thy threshold shall truly know thy hospitality."</i>			
Description: This spell must be cast on an active Wall of Fire, and causes the wall to implode with great force into the Nth person to actively cross through the wall, as specified when casting (e.g. the first, second, third or even tenth person could be specified). Any actually within the Wall of Fire as this spell is cast are not counted. The implosion destroys the Wall of Fire but inflicts 36/6 magical fire damage to the unfortunate target, plus a magical Halt, which takes effect at the caster's skill level.			

Lesser Fireball			
Level:	6	Colour:	Red
		Range:	Caster's Throw
		Duration:	Up to 5 seconds
Verbal: <i>"Into my hand I call forth the purest power of fire to blast and destroy my foes!"</i>			
Description: This spell generates a tennis-ball sized globe of magical flame. 5 seconds after creation, or whenever thrown against a solid surface, the fireball explodes, inflicting 12/2 magical fire damage to all within 20' (4 hits to monsters) and igniting all flammable objects within the area (i.e. this is a magical Incendiary Cache).			

Ferowwl's Lesser Ashes			
Level:	6	Colour:	Red
		Range:	20'
		Duration:	Instant / Special
Verbal: <i>"Mighty flames sweep forth and consume that wooden ..."</i>			
Description: One non-supernatural wooden object bursts into magical flames, which cannot be extinguished except by complete submersion in water. If the object is less than 27' cubic feet it is completely consumed in 2 seconds, otherwise it is destroyed at the rate of 27' cubic feet every 2 seconds until nothing is left but ashes. The flames from this spell may ignite other combustibles touching the target object, but any such other fires started are non-magical and burn or go out as normal.			

Circle of Flames			
Level:	7	Colour:	Red
		Range:	20'
		Duration:	5 Minutes
Verbal: <i>"I call upon the salamanders of fire to build for me a circle of flame to surround my foe/me"</i>			
Description: This creates a circular wall of fire with a 10' radius which surrounds the point indicated by the caster. The wall is immobile and is as high as the ceiling or 40' on an overland adventure. Crossing the circle inflicts 18/3 points of magical fire damage (6 Hits) in the same manner as crossing a Wall of Fire.			

Enhanced Wall of Fire			
Level:	7	Colour:	Red
		Range:	10'
		Duration:	5 Minutes
Verbal: <i>"Salamanders of fire build for me a great wall of intense fire."</i>			
Description: This creates a wall of fire that delivers 24/4 points of magical fire damage (8 Hits) to all who pass through it. An enhanced wall of fire cannot be created within 2 paces of another wall of fire or enhanced wall of fire due to the disrupting effects the two will have on each other. If they are created too close both are negated. Otherwise all details are as for wall of fire.			

Thanaur's Sabre of Fire			
Level:	8	Colour:	Red
		Range:	
		Duration:	5 Minutes
Verbal: <i>"Into my hands I call forth fire - blade, hilt and guard. Sabre of fire I conjure thee for all to burn their enemies."</i>			
Description: Summons a sword in all ways identical to a Sword of Power, except that it may be used by anyone who can use magical items.			

Ferowwl's Greater Ashes			
Level:	9	Colour:	Red
		Range:	Touch
		Duration:	5 Minutes
Verbal: <i>"The fires of destruction char this ... to ash."</i>			
Description: One wooden or cloth object of less than 27' cubic feet is burnt immediately to ash, even if magical. This does not affect objects with other supernatural power (e.g. spiritual or 'mantic objects). An object so destroyed cannot be mended.			

Fire Strike			
Level:	10	Colour:	Red
		Range:	20'
		Duration:	Instant
Verbal: <i>"By all the greatest powers of fire, be thou scorched, be charred, be burnt and incinerated... Fire Strike!"</i>			
Description: This spell functions as per Disruption but inflicts 48/8 magical fire damage (16 Hits to monster).			

Vincenzo's Lesser Incineration			
Level:	10	Colour:	Red
		Range:	10'
		Duration:	Instant
Verbal: <i>"Salamanders of fire I command thee to consume my foe's eyes with absolute heat!"</i>			
Description: One target within the short range has their eyes burnt out, as per the Incineration spell listed above., with Immunity to Fire (1/2 effect magical fire) granting complete immunity to this spell. This spell causes no damage.			

Form Aflame			
Level:	10	Colour:	Red
		Range:	Self
		Duration:	5 Minutes
Verbal: <i>"Salamanders of fire twist and transform my body to grant fortitude and heat."</i>			
Description: This spell grants the caster physical armour class and maximum armour class 12. Also, the wizard may strike with hands and inflict 9 points of magical damage in a similar manner to a Sword of Power (i.e. only dexterity and magical armour class applies, damage is purely magical and flaming) at will for the duration. Full blows are required for these unarmed attacks as normal for unarmed combat, and the damage may not be 'stacked' with normal Unarmed Combat skill. However, if this is possessed the caster's blows may be chosen to be either as above or physical / magical and flaming, inflicting damage at the normal unarmed grade called by the caster.			

Greater Fire Trap			
Level:	10	Colour:	Red
		Range:	Touch
		Duration:	Until Disturbed / End of Adventure
Verbal: <i>"Here I leave great fire to greet those who are not welcome."</i>			
Description: This functions in all fashion exactly as the Fire Trap spell above, except when triggered it releases a Disruption. If cast by a Red Wizard with Disruption Expertise it costs only 9 mana to cast.			

Chains of Fire			
Level:	11	Colour:	Red
		Range:	Self
		Duration:	5 Minutes
Verbal: <i>"By the powers of fire and brimstone, let all my enemies be burnt as I gather now the Chains of Fire."</i>			
Description: This spell allows the caster to 'cast' the Fire Blast spell for 0 mana for the duration. The full verbal must be used and the caster takes 1TBLP per casting, which is unreducible and unavoidable by any means.			
The casting of this spell causes the caster to lose one casting level for the next hour.			

Shower of Flame			
Level:	11	Colour:	Red
		Range:	10'
		Duration:	Instant
Verbal: <i>"May the fires gather and strike thee down in a Shower of Flames" ...X Fire Darts</i>			
Description: This spell causes the target to be struck simultaneously by a number of Fire Dart spells [see above]. The number released equals the Wizard's skill level. MAC and other defences may be applied versus each Fire Dart separately, thus MAC 1 would make you immune to this spell. This spell does however count as one spell for passive dispels and abilities such as Deny Power.			

Implosion			
Level:	12	Colour:	Red
		Range:	20'
		Duration:	Instant
Verbal: <i>"By the great powers of the fiery dragon be thou cast down... Implosion"</i>			
Description: This spell causes a great build-up of heat within the target's internal organs and causes 9 points of damage to the target's head, chest and abdomen, 3 points to each limb and a total of 36pts of TBLP damage (12 Hits to monsters). This damage ignores all magical armour class, e.g. such as that offered by the Plate (S) spell.			

Anar-Kadan's Firestorm			
Level:	12	Colour:	Red
		Range:	20' Radius
		Duration:	Instant
Verbal: <i>"By the powers of fire and brimstone, let all around be burnt and charred... Firestorm!"</i>			
Description: A mass of fire explodes outwards from the caster, inflicting 24/4 magical fire damage (8 Hits) to all within the radius and hurling them back 6 paces unless they are Immune to Repels. The caster also takes 24/4 magical fire damage, to which he may not apply MAC.			

Warmth of the Fire			
Level:	14	Colour:	Red
		Range:	
		Duration:	Up to 60 minutes / special
Verbal: <i>"Great Salamanders of Fire I call to you. Come to this place grant us your warmth, protect us from the fire and brimstone, warm us against Winter's cold. I offer the Warmth of the Fire to my companions. "</i>			
Description: This spell may only be cast upon a fire of significant size, a bonfire, a tavern fireplace, a burning forge or similar. After spending 5 minutes within 20' of the fire all participants gain +1MAC against Fire and Cold attacks. After 15 minutes they gain +1 level of resistance against Fire and Cold. After 60 minutes the previous benefits are doubled. Participants are free to leave the area of the fire, at any time taking with them the level of benefits they had accrued. The benefits of this last 1 hour per wizardly skill level of the caster. Those with ½ effect fire or similar reductions take twice as long to gain the benefits.			

Internal Combustion			
Level: 15	Colour: Red	Range: Touch	Duration: 30 seconds / Until Discharged
Verbal: <i>"Mighty salamanders I command thee to consume my foe from the inside out - let all be charred and burnt til only ash remains ... Internal Combustion!"</i>			
Description: One target touched with both hands is consumed with flames from within. The effects of this are: • If the target has 7th Level Resistance or below to magic they are instantly killed by the shock to their system. • If they have 8th Level Resistance they are stricken by the incredible pain of the searing fire such that they may not fight, cast, speak or stand for 1 minute. • If they have 9th Level Resistance or greater or Immunity to Fire (1/2 effect magical fire) they may not cast, run or speak and may only parry for 30 seconds. • If they have both 9th Level Resistance or greater and Immunity to Fire (1/2 effect magical fire) the duration for which they may not act is halved to 15 seconds. The target also suffers great injury from the fires, taking 48 TBLP, 12 points each to the head, chest and abdomen and 6 points to each limb (16 hits to monsters), to which no armour class (including MAC) may be applied (cf. Implosion).			

Incineration			
Level: 15	Colour: Red	Range: 10'	Duration: Instant
Verbal: <i>"Salamanders of fire I command thee to consume my foe with absolute heat, let flesh burn and bone melt."</i>			
Description: This spell has several effects as the target is consumed in intense heat: 1. All normal metal on the target melts, 2. All potions boil dry, 3. Target suffers 36/6 magical fire damage (12 Hits), 4. All objects within 1' are ignited, 5. The target is blinded until a regeneration is cast upon their eyes (only one regeneration is required, which though it would not normally heal such damage does in this case).			
Note: Aspect five actually destroys the eyes and Immunity to Blindness does not apply. Half or quarter effect fire applies to the damage taken from aspect three and negates aspect five. It does not affect aspects one, two or four.			

Chains of Fire Bolt			
Level: 16	Colour: Red	Range: Self	Duration: 5 Minutes
Verbal: <i>"By all the powers of fire I call forth the chains of the greatest brimstone."</i>			
Description: This spell acts as per the Chains of Fire spell except it allows the casting of the Fire Bolt spell at will for 2 TBLP (unreducible) per casting. Use of this spell costs the caster two casting levels for the next hour.			

The Dragon's Breath			
Level: 18	Colour: Red	Range: 10ft long, 60degree cone	Duration: Instant
Verbal: <i>"Feel the breath of the Dragon of Fire upon thee as your flesh burns and sears... Dragon's Breath!"</i>			
Description: The spell causes all within the cone to suffer the effects of a Lesser Incineration spell.			

Flaming Destruction			
Level: 20	Colour: Red	Range: 10ft	Duration: Instant
Verbal: <i>"By all the powers of fire be thou scorched, be charred, be burnt, and be incinerated as the fires consume you... Flaming Destruction!"</i>			
Description: Acts in a similar manner to Disruption, however, it causes the target to suffer 120/20 (40 HTK) and a magical halt at the caster's skill level.			

Silver Magic

Tell Profession			
Level: 2	Colour: Silver	Range: 20'	Duration: Instant
Verbal: <i>"The Silver Dragon desires knowledge of thy profession."</i>			
Description: This tells the wizard the profession (character class) of the target of this spell unless: It is a Priest class, Paladin or Unholy Champion. In each of these three cases, the response will be 'Unknown'. Similarly, the profession of non-published races are also detailed as 'Unknown'.			

Password			
Level: 3	Colour: Silver	Range: 10'	Duration: Instant
Verbal: <i>"Silver Dragon, grant me the knowledge needed here."</i>			
Description: This spell grants the caster knowledge of any password, pass-phrase, or required action which would be necessary to pass by an indicated obstacle within 3'. This may be human guards who require a password, or a magical barrier such as a Gold Forcewall spell, or similar. If the required activity to pass by the obstacle is more than three separate steps, (e.g. "Press the button, then step on stone 4, then on stone 7, then say 'Kazooma', then spill your own blood"), the caster will only gain the requisite information if they expend a further three mana, a choice they can make upon casting the spell, when they will know that extra mana is required.			

Visionary Gaze			
Level: 3	Colour: Silver	Range: Self	Duration: 30 seconds
Verbal: <i>"May the Silver Dragon grant me visions of Knowledge."</i>			
Description: Allows the caster to gain a vision as the answer to the next magical informational power used. The vision should be appropriate to the length of answer normally given.			

Hereya's Insight			
Level: 3	Colour: Silver	Range: Self	Duration: Instant
Verbal: <i>"Silver dragon answer me this"</i>			
Description: Allows the caster to gain a single word answer to one question.			

Master Weapon			
Level:	4+	Colour:	Silver
		Range:	Self
		Duration:	5 Minutes
Verbal: <i>"Silver Dragon grant me the knowledge to wield this..."</i>			
Description: This grants the caster one additional mastery in a weapon in which they are already proficient (have the ability to use). This spell is non-cumulative with itself. The casting cost above is increased by the number of masteries already possessed in the named weapon. The glyph is bought at the cost of a 4 mana spell.			

Ariel's Lucky Idea			
Level:	4	Colour:	Silver
		Range:	Line Of Sight
		Duration:	Instant
Verbal: <i>"Silver Dragon bestow thy favour upon this/that one."</i>			
Description: This spell grants the target a 'lucky idea' about something they wish to know (or another matter should the referee/Silver Dragon deem it more relevant).			

Mirror Learning			
Level:	4+1/2X	Colour:	Silver
		Range:	Self
		Duration:	Till Dawn
Verbal: <i>"Silver Dragon desires knowledge of that spell..."</i>			
Description: After seeing a basic spell being successfully cast the Silver Wizard may learn from the magics. As long as the original caster is not immune to informational spells the Silver wizard may add the spell to his castable list till the next dawn. It is not necessary for the caster to have a 'specialist slot' for this glyph, though it may not be one of an opposite colour should one be possessed.			
Note: Only Standard spells may be mirrored in this fashion. This spell counts as 8th level to learn. Mana cost to cast is 4+1/2X where X is the spell level being mirrored. For example, to learn Fireblade would count as a 4+[4/2] = 6th level spell. The glyph is bought at the cost of a 4 mana spell.			

Proficiency			
Level:	5	Colour:	Silver
		Range:	Self
		Duration:	5 Minutes
Verbal: <i>"Silver Dragon guide my weak hands as they grasp this weapon."</i>			
Description: This spell enables the wizard to use any one type of weapon (e.g. Bastard Sword) at the proficiency of a warrior without any special skills (e.g. Weapon Mastery).			

Solstice's Mark of Fate			
Level:	5	Colour:	Silver
		Range:	20ft
		Duration:	5 minutes
Verbal: <i>"May the Silver Dragon grant me insight into your intentions!"</i>			
Description: Grants the caster insight into the intentions of the target within combat. This acts as per a Force Majeure DAC 6 vs the chosen target. It does not reduce the caster's DAC.			

Lesser Communication			
Level:	5	Colour:	Silver
		Range:	Self
		Duration:	5 Minutes
Verbal: <i>"Silver Dragon hear my call! I pose this question for the knowledge of all..."</i>			
Description: This spell allows the caster to ask the Silver Dragon a single question, to which the answer may be anything up to a short sentence in length.			

Counter Mastery			
Level:	6	Colour:	Silver
		Range:	Self
		Duration:	5 Minutes
Verbal: <i>"Silver Dragon I implore thee grant me defensive knowledge of this weapon."</i>			
Description: This grants the caster defensive knowledge such that they gain the benefit of the Tables Warrior ability of Counter Mastery. As per standard Counter Mastery this spell is rendered useless by abilities such as Unique Fighting Style, et cetera.			

Contra Mastery			
Level:	8	Colour:	Silver
		Range:	Self
		Duration:	5 Minutes
Verbal: <i>"Silver Dragon I implore thee, grant me knowledge of that weapon to better defend myself."</i>			
Description: This grants the caster defensive knowledge such that they gain the benefit of the Tables Warrior ability of Contra Mastery. As per standard Contra Mastery this spell is rendered useless by abilities such as Unique Fighting Style, et cetera.			

Silver Tongue of Daysaris			
Level:	8	Colour:	Silver
		Range:	Self
		Duration:	5 Minutes
Verbal: <i>"The Silver Dragon grants me knowledge of your words."</i>			
Description: The caster gains the ability to speak fluently in any one language being spoken to him at the time of casting. Once this spell expires, the knowledge is almost immediately lost as the caster's brain cannot handle the influx of so much information. Silver wizards may purchase the ability Good Memory for Languages for 25 points on Table 1. This ability will allow them to retain enough language knowledge from a casting of this spell to remember how to speak and understand a slow broken form of that language for the rest of the adventure. Immunity to Informational Spells on the part of the foreign-language speaker prevents the spell from functioning.			

Investigation			
Level:	8	Colour:	Silver
		Range:	1 inch
		Duration:	5 Minutes
Verbal: <i>"Silver Dragon! I seek insight and wisdom here, reveal to me the hidden knowledge bound to this magic."</i>			
Description: This spell reveals to the caster all the information about a particular source of magic, its name, duration and effect. Additionally the wizard has up to 5 minutes to further quiz the magic about its nature, removal and purpose. This would include any side effects and disadvantages associated to the magic. E.g. The spell is cast on a Magic Sword. The spell instantly reveals it is a permanently bound grey enchanted weapon. Further quizzing will reveal that it is currently unpersonalised and that the words "Al'Rath Some" will bind it to an individual. More quizzing will reveal that once bound the weapon may never be taken from your hand and that you can never leave it behind, or remove it from your possession. Any item without a spirit will answer truthfully. An object with a spirit will answer as it pleases.			

Foretold							
Level:	8	Colour:	Silver	Range:	Self	Duration:	Instant
Verbal: <i>"It was Foretold"</i>							
Description: This spell may be cast after the target is personally targeted by a magic spell. It must be cast straight afterwards in the style of a War Cry [within 2 seconds]. It grants complete immunity to the spell as if the caster had a Know Foe active against the user. As such, this spell fails should the conjurer of the spell to be "Foretold" be immune to informational spells. The casting of this spell causes the loss of a casting level for the next hour.							

Commune With The Silver Drake							
Level:	10	Colour:	Silver	Range:	N/A	Duration:	5 Minutes
Verbal: <i>“Great Silver Dragon whose power is mighty give me the answer to these three questions I now ask!”</i>							
Description: The effects of this spell are the same as the Standard miracle Communication II, except answers about spiritual objects may not be answered (but may be answered about magical ones).							

White Magic

Crystallise (Touch)							
Level:	1	Colour:	White	Range:	Touch	Duration:	5 Minutes
Verbal: <i>"Mighty cold freeze and crystallise this..."</i>							
Description: Should the item be struck or used to strike a physical blow at any point during the duration of the spell it shatters as per the 2 mana Standard Blue glyph Shatter. This will only function on Non-supernatural items only and to a maximum of 27 cubic feet.							

Crystallise (Range)							
Level:	2	Colour:	White	Range:	20'	Duration:	5 Minutes
Verbal: <i>"Mighty cold freeze and crystallise that..."</i>							
Description: Should the item be struck or used to strike a physical blow at any point during the duration of the spell it shatters as per the 2 mana Standard Blue glyph Shatter. Non-supernatural items only.							

Slip							
Level:	3	Colour:	White	Range:	20'	Duration:	Instant
Verbal: "By the might of Ice... Slip"							
Description: Target is affected as if by a Trip spell, but need not be moving nor have obstacles in their way.							

Light Step							
Level:	4	Colour:	White	Range:	Self	Duration:	Instant
Verbal: <i>"Let me move as light - Light step!"</i>							
Description: Allows the caster to take 7 paces in Time Freeze, as he moves too fast for any to act. Those with Lightning Reactions may keep their eyes open and follow his progress. During this time the wizard may take no other actions than take steps.							

Super Snowball						
Level:	5	Colour:	White	Range:	Duration:	5 Seconds
Verbal: <i>"I call the might of ice and frost into my hand... Super Snowball"</i>						
Description: In all ways as the brown spell Supermissile, except that no stone is needed as the snowball is created in the caster's hand, and the damage is cold-based, inflicting x2 damage to fire-based creatures.						

The Brilliant Glare							
Level:	5	Colour:	White	Range:	10ft	Duration:	30 seconds
Verbal: <i>"May the brilliant light blind your eyes."</i>							
Description: Causes the target to be struck with intense light and blinded for the duration. Immunity to Blindness applies, and the spell will not function in a magical darkness or a twilight.							

Javelin of Ice							
Level:	6	Colour:	White	Range:	20'	Duration:	Instant
Verbal: <i>"Into my hands I call forth ice... Javelin of ice!"</i>							
Description: Replicates the Winter elf innate ability listed in the handbook, inflicting 24/4 magical cold damage to one target. MAC obviously applies, stopping 6/1 per point of MAC.							

Chill Wind							
Level:	7	Colour:	White	Range:	Special	Duration:	Instant
Verbal: <i>"Cold wind blow, winds of winter show - and chill all those before me...Chill Wind."</i>							
Description: This spell conjures a very cold wind, causing all those within its cone of effect. [60 degrees 20'] to suffer the loss of 2 DAC, unless Immunity to Cold or Immunity to Dexterity Drain is possessed. This spell inflicts 4 hits to monsters statted without AC. The DAC loss lasts 5 minutes.							

Allied Light							
Level:	7	Colour:	White	Range:	20'	Duration:	5 Minutes
Verbal: <i>"Sprites of Light I conjure thee - stay with that one for a while to light his way...Allied Light."</i>							
Description: This spell centres a Light [Range] spell upon the target - who need not be willing. A Darkness spell will negate it and vice-versa. If the target is willing and the spell is cast at touch range then this spell costs a base of 5 mana.							

Sheet of Ice							
Level:	7	Colour:	White	Range:	20' Radius	Duration:	Instant
Verbal: "Mighty powers of cold freeze the ground around me! Sheet of Ice"							
Description: All creatures within 20', excluding the caster, are affected by a Slip spell, as above.							

Bedazzle							
Level:	8	Colour:	White	Range:	Self	Duration:	5 Minutes
Verbal: <i>"Mighty Sprites confuse my enemies eyes and project forth a bedazzling guise!"</i>							
Description: The caster becomes covered by bright sparkling lights which make subterfuge impossible. The effect of this light however is that an attack against the wizard suffers the following penalties: 1: The assailant loses all weapon masteries (including backstabs) 2: The wizard gains 2 points of magical armour class (MAC) which will not stack with MAC from other spells.							
This spell will not operate in magical darkness nor against a blind opponent, but it will work against an opponent who has his eyes closed.							

Plasma Blade							
Level:	8	Colour:	White	Range:	Touch	Duration:	5 Minutes
Verbal:				"I call upon the powers of the mightiest light to enhance this blade with the brightest light!"			
Description:				This enhances a normal bladed weapon by +2 damage grades if wielded by the wizard, or +1 if wielded by another person. The weapon now inflicts magical, light-based damage.			

Plasma Streak							
Level:	8	Colour:	White	Range:	Line Of Sight	Duration:	Instant
Verbal:					"By the greater powers of light, I do smite thee... Plasma Streak."		
Description:					As the Standard spell Plasma Bolt but with the above modifications (increased range).		

Roger's Boots of Ice							
Level:	8	Colour:	White	Range:	20'	Duration:	5 Minutes
Verbal: "By the might of Ice I bid thee slip for a while, Boots of Ice!"							
Description: The target's feet are surrounded in slippery ice for the duration, such that whenever in contact with a solid surface they are affected as if by a Slip, as above. The application of any magical fire of 2 mana or above to the feet will remove the ice (e.g. holding a Fireblade near, a Fire Blast or Shock spell, or similar).							

Invisibility							
Level:	8	Colour:	White	Range:	Self	Duration:	5 Minutes
Verbal: <i>"May sprites bend thy light so that I may hide from sight!"</i>							
Description: This spell means that the wizard cannot be perceived by normal physical sight. The spell ends if the wizard casts another spell, moves faster than a slow walk, makes an attack or uses any ability, or after 5 minutes, whichever is shorter.							
Special: On Table 9 for 80pts 1st Class 1st Colour White Wizards can enhance this spell such that they can no longer be perceived by mana sight or elemental sight.							

Sabre of Light and Truth (other)							
Level:	9	Colour:	White	Range:	-	Duration:	5 minutes
Verbal: <i>"Into my hands I call forth the purest light, blade, hilt, and guard I conjure thee, may all who wield you smite at the Darkness."</i>							
Description: This spell conjures a Sabre of Light of Truth, but one that may be used by any goodly person, not just the caster.							
Note: This Sabre once conjured may be passed from user to user. It grants any that are wielding it the power to see through magical darkness.							

Dazzling Lights							
Level:	9	Colour:	White	Range:	20'	Duration:	5 Minutes
Verbal: <i>"Sprites of Light I conjure thee, dance, weave and sparkle bright - take this one's skills away with light."</i>							
Description: This spell causes the target to lose the use of all weapon masteries (and backstabs) for the duration as bright dazzling lights flash in the caster's eyes. Immunity to Loss of Weapon Masteries due to Visual Impairments, Enhanced Perception, etc, apply.							

Frost Blade							
Level:	10	Colour:	White	Range:	Self	Duration:	5 Minutes
Verbal: <i>"Let the might of ice coat this blade and chill my foe... Frost Blade."</i>							
Description: Coats one normal, non-supernatural edged weapon with frost, so that in the hands of the caster only each blow inflicts damage equivalent to the Snowball spell, rather than it's normal damage.							

Glacier Field							
Level:	10	Colour:	White	Range:	20' radius	Duration:	5 Minutes
Verbal: "Mighty powers of cold freeze the ground, as though winter has come...Glacier Field"							
Description: As per Sheet of Ice, above, except that the sheet causes any person within the radius of the spellto Slip each time they try to take a step. The Glacier Field may be destroyed by 400 hits, or 100 fire-based hits.							

Touch of Light			
Level:	15	Colour:	White
		Range:	Touch
		Duration:	Hangs for 10 seconds
Verbal: <i>"Into my hand I call forth the purest light, the raw mana of the White Dragon. Let its touch purge the darkness."</i>			
Description: Upon completion of the verbal the caster has 10 seconds to touch their target. The spell causes the target to suffer X Blasts as per a Sabre of Light and Truth. X is equal to the skill level of the caster.			

Heart of Ice			
Level:	16	Colour:	White
		Range:	10'
		Duration:	N/A
Verbal: <i>"Winter's here, the air is chill. You fall upon a snow-topped hill. You try to rise, to crawl once more, then slump again, you've lost this war. The gods it seems have rolled their dice. Your blood is cold, your heart is ice! Heart of Ice!"</i>			
Description: One flesh-and-blood creature has their heart turned briefly to ice, causing terrible system shock. Effects as per a Location-to-Zero the chest. In other words, chest location is reduced to zero life-points (unless it was already below that, in which case the spell has no effect). Immunity to Flesh and Blood Effects applies and Resistance to Sever or Immunity to Cold mean that location is reduced only to half its current life points. No form of armour class may be applied.			

Witch Doctor Magic

These spells may only be acquired by a Witchdoctor.

Enhance Tribe			
Level:	-	Colour:	Witchdoctor
		Range:	Adventure
		Duration:	24 hours
Verbal: Please feel free to make up your own verbal for this spell - as to incorporate own tribal figureheads. It should be no less than 12 words long - alternatively, a simple ceremony taking at least 1minute is acceptable.			
Description: Power cost to cast is 3 mana per tribe member to be affected. The casting level of the spell is 18 minus one per tribe member to be affected. Obviously the Shaman or any tribe member in the Priest bracket are not affected by this spell. Once cast the tribe members affected gain +2 dexterity armour class, which does not stack with Bless or Curse, and +2 magical armour class. The casting of this spell will cause animosity between witchdoctor and Shaman with the Shaman's blessings being removed for any tribe member affected by the spell. A tribe member may make it known that they do not wish to be affected by the spell. The spell then will not affect him and thus they will stay in the Shaman's favour. This counts as a 3 mana spell for the purposes of dispelling.			
Note: This spell is considered an 8 mana spell for the purposes of purchasing the glyph.			

Fortify Tribe			
Level:	-	Colour:	Witchdoctor
		Range:	Adventure
		Duration:	24 hours
Verbal: Please feel free to make up your own verbal for this spell - as to incorporate our own tribal figureheads. It should be no less than 12 words long - alternatively, a simple ceremony taking at least 1minute is acceptable.			
Description: Power cost to cast is 2 mana per tribe member to be affected. The casting level of the spell is 18 minus one per tribe member to be affected. This may not benefit the Shaman, or any tribe member in the Priest bracket. For each tribe member to be affected, all gain an additional live to minus 1tblp. This live to minus will stack with any other permanent live to minus, not other spells or miracles, for example. This counts as a 2 mana spell for the purposes of dispelling.			
Note: This spell is considered an 8 mana spell for the purposes of purchasing the glyph.			

Sorcery

These spells may only be acquired by a Sorcerer.

Pact with the ... Drake / Dragon			
Level:	4s	Colour:	Sorcery
		Range:	Self
		Duration:	See spell
Verbal: <i>"May the Dragon / Drake of ...(element).... bear witness to my actions. I embrace the magic, I call to it, to further me in my goals, actions and dreams this day."</i>			
Description: This stackable glyph will grant the caster a boon form his Dragon or Drake. This takes the form in game terms equivalent to the innate powers granted to the elves / draves of the respective dragon / drake. Obviously only Elves and Draves with an established Mana Dragon or Drake may be pacted. Thus this may not be used to gain Drowe, Winter, Wood, Faerie nor Seasonal Elf innates.			
The first rune grants 4 levels of elven innates, each additional rune will grant +1 level of innates.			
Thus 5 runes will grant 8th level magical innates. Whilst active the caster may not recover the mana spent on this spell, without it ending the Pact early. A Sorcerer may learn this spell once for each set of innates, though they must possess a Ward Pact with the relevant Dragon/Drake to do so.			
This spell can only grant one set of innates each day. It is not possible to cast it, use the innates, remove it, and recast it for a new set of innates.			
The duration of the spell is based on the number of runes cast: 1 Rune – One Hour 2 Runes – Three Hours 3 Runes – Six Hours 4 Runes – Twelve Hours 5 Runes – Twenty Four Hours			
It is not possible to cast this spell with greater than 5 runes.			
This spell stacks with normal Elven innates but is not multiplied by x2/3 innates-type abilities.			
Note: This is a stackable Glyph (see Stackable Glyphs on page 8) and if learnt with points comes with 5 runes.			

Blade Rune – Stasis			
Level:	4s	Colour:	Sorcery
		Range:	Touch
		Duration:	5 Minutes
Verbal: <i>"By my arts and sorcery I inscribe the rune of Stasis upon this blade - let any struck feel the clench and pause of my magics."</i>			
Description: This spell is may be cast on any bladed weapon, with the caster inscribing a magical rune on the weapon (if even with his finger) as the spell is cast. The next blow struck with that weapon by the caster inflicts a stunning effect as per a magical Stasis, effecting those with a resistance level to grey mana less than the caster's skill level. Multiple Stasis runes may be drawn on the weapon, triggering with each successive blow, although a dagger-sized weapon can hold only a single rune, a broadsword-sized weapon at most 2 runes, a bastard sword-sized weapon 3 runes and a greatsword-sized weapon 5 runes.			
If learnt with points this spell comes with 5 runes.			
This spell cancels any other Blade Rune spell active on the target weapon when cast.			
Note: This is a stackable Glyph (see Stackable Glyphs on page 8).			

Arm Elemental				
Level:	5	Colour:	Sorcery	Range: Touch Duration: 5 Minutes
Verbal: <i>"Elemental that I have called, be thou armed against my foes!"</i>				
Description: This spell transforms an elemental slightly such that its hands become either a one-handed sword or mace, increasing damage inflicted by 6 points, to a maximum of 24 points. This spell transforms both of the elemental's hands simultaneously and physical reps must be used.				

Blade Rune - Death				
Level:	3s	Colour:	Sorcery	Range: Touch Duration: 5 Minutes
Verbal: <i>"By my arts and sorcery I inscribe the rune of death upon this blade - let any struck topple and fall before its humbling power."</i>				
Description: This spell is a stackable glyph that may be cast on any bladed weapon, with the caster inscribing a magical rune on the weapon (if even with his finger) as the spell is cast. The next blow struck with that weapon by the caster inflicts a cumulative 3 TBLP magical touch effect (1 hit to monsters) per stackable rune - So two runes would inflict a 6pt touch effect. MAC applies on a 1:1 ratio. Additionally it causes unconsciousness (as per Catalepsy) for 1 minute per 6 TBLP inflicted after the target's defences. Resistances to Catalepsy apply as normal. Resistance to Death Rune applies. If learnt with points this spell comes with 5 runes. This spell cancels any other Blade Rune spell active on the target weapon when cast. Note: This is a stackable Glyph (see Stackable Glyphs on page 8).				

Control Animation				
Level:	6	Colour:	Sorcery	Range: 20' Duration: 5 minutes / until spell expires
Verbal: <i>"By my mastery of the elements and the might of sorcery I bid thee obey me now, sword."</i>				
Description: This spell will allow the caster to take control of another's Dancing Sword/Dancing Venom Sword. It will not function on Intelligent Dancing Swords.				

Banish				
Level:	3s	Colour:	Sorcery	Range: 20' Duration: Instant
Verbal: <i>"Creature from elsewhere I command thee return to thy home, Banish... 4 Levels/10 hits."</i>				
Description: This spell will drive away to its home plane, (not to return unless summoned again), a supernatural evil/good creature from another plane. Note that this does not include elementals or undead. This is a stackable glyph, similar to the Sleep spell detailed in the Standard Spells section. The spell caster may use more than one rune to increase the spell's capacity to banish more powerful creatures. If learnt with points this spell comes with 5 runes. Note: This is a stackable Glyph (see Stackable Glyphs on page 8).				

Blade Rune - Enervation				
Level:	6s	Colour:	Sorcery	Range: Touch Duration: Up to 5 Minutes
Verbal: <i>"By my arts and sorcery I inscribe this rune of Enervation upon this blade - let any struck feel their life essence suffer and diminish."</i>				
Description: This spell may be cast on any bladed weapon, with the caster inscribing a magical rune on the weapon (if even with his finger) as the spell is cast. The next blow struck with that weapon by the caster inflicts a magical (grey mana) Level Drain on the target. Multiple Enervation runes may be drawn on the weapon, triggering with each successive blow, although a dagger-sized weapon can hold only a single rune, a broadsword-sized weapon at most 2 runes, a bastard sword-sized weapon 3 runes and a great sword-sized weapon 5 runes. This spell may be learnt for 50pts for 5 runes. This spell cancels any other Blade Rune spell active on the target weapon when cast. Note: This is a stackable Glyph (see Stackable Glyphs on page 8).				

Ward the Supernatural				
Level:	8	Colour:	Sorcorial	Range: Drawing the line. Duration: 5 minutes
Verbal: <i>"With my arts and powers and these runes I inscribe let those not of this world be barred from passage."</i>				
Description: Acts in a similar manner to Protection from Spirits, except it functions vs Demonkind, Angels, and similar otherworldly beings. It functions vs creatures below the caster's skill level, and only vs those susceptible to magic. It does not affect Undead or Elementals. The Ward may be a 15ft Line, or a 6ft Radius circle.				

Bind Elemental Servant				
Level:	9	Colour:	Sorcery	Range: Touch Duration: 24 hours
Verbal: <i>"(A) of (B) I bind thee now into this artefact, to serve your master well."</i>				
Description: Summons an elemental and binds it to a weapon or a shield, making it +0 magic of the same colour as the elemental bound (not however 'fire-based' if a salamander, for example - just red mana). The elemental so bound is considered to be a level '6' elemental and is negated / negates another elemental exactly as an elemental '6' would. If negated then the spell is ended. Note: See Elemental Spell Annotations on page 11 for an explanation of "... (B) of (A)..."				

Embody Elemental				
Level:	9	Colour:	Sorcery	Range: Touch Duration: 5 Minutes
Verbal: <i>"...(B)... of ...(A)... share my form and grant me thy power!"</i>				
Description: The wizard may embody an elemental 6 that they already have under control. This spell is otherwise as per the Embody Elemental spell listed in the General Magic section, bar the reduced mana cost. Note: See Elemental Spell Annotations on page 11 for an explanation of "... (B) of (A)..."				

Evoke Guardian			
Level:	10	Colour: Sorcery	Range: N/A
Duration: 1 hour			
Verbal: <i>"I entreat the powers of magic. Let an enchanted guardian appear to defend me from assault!"</i>			
Description: This summons a humanoid Demonkind, which will stay with the Sorcerer and remain passive until either the Sorcerer himself or the guardian is attacked. At this point it will attack the assailant until either the assailant or the guardian are killed. If the guardian is still alive he will return to a neutral stance until the activation sequence is triggered again. The guardian requires 25 hits to kill and delivers damage by weapon type with +1 Strength. The guardian is summoned with a one-handed weapon, but may use any class of weapon bar machine propelled or hand thrown. The guardian may not use a shield.			

Blade Rune - Vorpall Wounding			
Level:	10	Colour: Sorcery	Range: Touch
Duration: 5 Minutes			
Verbal: <i>"By my arts and sorcery I inscribe this rune of Vorpall Wounding upon this blade - let any struck feel their body rip and tear."</i>			
Description: This spell may be cast on any bladed weapon, with the caster inscribing a magical rune on the weapon (if even with his finger) as the spell is cast. When wielded by the caster, a weapon bearing a Vorpall Wounding rune inflicts wounds which cannot be fully healed. This means 1 point of damage per damage grade may not be healed until the target has a good night's sleep. This spell cancels any other Blade Rune spell active on the target weapon when cast.			

Evoke Portal Guardian			
Level:	12	Colour: Sorcery	Range: N/A
Duration: Until Slain			
Verbal: <i>"Mighty Portal Guardian I evoke thee, come hither now and guard this way lest I be angered and cast thee down!"</i>			
Description: This summons a humanoid Demonkind to guard an indicated doorway. The SECFAP cannot attack anyone until it is attacked, or if an individual tries to pass the portal. If activated it will attack no further than 4 paces from its portal, and is only vulnerable to attacks originating from within 4 paces of its portal. If not activated it will stand in the portal, blocking access. The nature of the portal guardian means that it is not possible to bypass it unobserved by the use of Invisibility or similar. It is totally aware of the presence of all animate things within its defence area, similar to Wanderer's Hunch. It is not possible to Blink or otherwise magically shift through the doorway the guardian protects, but it is possible to do so through the wall at least 4 paces away from the portal. Where paces are used they are measured as the paces of the portal guardian. The portal guardian requires 30 hits to slay it and delivers damage by weapon type +1 strength. When summoned it arrives armed with a +0 magical Bastard sword only usable by the portal guardian which is destroyed when the guardian dies.			

Summon Elemental 'Champion'			
Level:	15	Colour: Sorcery	Range: 20'
Duration: 5 Minutes			
Verbal: <i>"By the power at my command I summon the element of...(A)..., I entreat the elements of Fire, Air, Earth, Water, Light and Darkness. Come forth Champion of...(A)... let a...(B)... of...(A)... appear to do my will."</i>			
Description: This spell conjures an elemental 'Champion' to be commanded. An elemental 'Champion' may take 40 hits before being destroyed, inflicts 15pts of damage with its hands and has 10th Level Resistances. It will not be negated by being struck by a 4 or 6 mana elemental, only by an 8 mana or higher elemental. All other details are as the standard Summon Elemental spell, such as Sylph '6' on page 16.			
Note: This version may be used to summon any elemental of the Sorcerer's choice at time of casting.			
Note: See Elemental Spell Annotations on page 11 for an explanation of "... (B) of (A)..."			

Intelligent Dancing Sword			
Level:	15	Colour: Sorcery	Range: Line Of Sight
Duration: 5 Minutes			
Verbal: <i>"Lords of air I implore thee, lend me thy aid and let this sword dance to my will!"</i>			
Description: Exactly as per the Blue magic glyph in the Advanced Grimoire.			

Evoke Greater Guardian			
Level:	16	Colour: Sorcery	Range: N/A
Duration: 1 hour			
Verbal: <i>"I entreat the powers of magic, let an enchanted guardian appear, come forth greater guardian, your aid is demanded to defend me from assault!"</i>			
Description: As per Evoke Guardian, above, but the creature has 40htk and possesses +2 grades of strength.			

Evoke Greater Portal Guardian			
Level:	18	Colour: Sorcery	Range: N/A
Duration: Until Slain			
Verbal: <i>"Mighty Portal Guardian I evoke thee, come hither now, heed my commands and guard this way lest I be angered and cast thee down!"</i>			
Description: As per Evoke Portal Guardian, above, but the creature has 50htk and possesses +2 grades of strength.			

Blade Rune: The Fatal Blow			
Level:	18	Colour: Sorcery	Range: Touch
Duration: 5 Minutes			
Verbal: <i>"As I inscribe this run let it strike deep and sharp, let mortal armour offer no defence to this power."</i>			
Description: Castable on a Bastard Sword, Bastard Axe, or large sword/axe. It causes the next blow delivered to be a sever. If the blow is parried then the rune is wasted. Resistance to Sever applies as normal, and damage is based on the current life of the location, not its maximum.			

Enslave Elemental			
Level:	-	Colour: Sorcery	Range: 20'
Duration: Special			
Verbal: <i>"(A) of (B) listen now to the words of one with the strength to be your master."</i>			
Description: This allows the Sorcerer to take control another's elemental. The cost to cast is equal to half the mana level of the Elemental being enslaved, plus one. This spell has a duration equal to the length of time remaining on the original Summon Elemental spell. This glyph costs 40 points to buy post 8th.			
Note: See Elemental Spell Annotations on page 11 for an explanation of "... (B) of (A)..."			

Wizardly Status

The below are available to 1st Class Wizard Subclasses, including Vivomancers and Rogues. Characters that can buy as a 1st Class Wizard Subclass but which are not 1st class Wizards Subclasses cannot buy these (e.g. an individual that has taken Wizard as a Multi-Class to 8th).

They represent the Wizard's basic training and how they learnt their craft. Was it natural talent, or months or years of hard work poring over mystical texts? A character can only buy one of these Statuses, though it is possible to have alternative Statuses.

Natural Talent

The wizard, for some reason, has a natural aptitude for magic. Perhaps touched by a Fey at birth, or born on a Draconic Holy day? Whatever the reason it just comes easily to them. They never spent time with scrolls and books or learning; it was just raw talent and practice.

Stage One: Prodigy, Cost: 30 Table: 1

Loses the ability to read glyphs and cannot regain it. As such, can no longer use teaching scrolls. May never learn Book Mage or multi-class Scholar, or something similar.

All Standard Specialist slots are filled when gained. Once chosen, however, the spells cannot be changed.

Gains an additional Specialist slot.

Stage Two: Maestro, Cost: +70 Table: 5

May now learn spells at 5 points per mana point for spells up to a cost of 10 mana. For spells above 10 mana they cost 50 points, plus an additional 3 mana for each mana point above 10 (e.g. a 12 mana spell is 56 points).

I'll have a go at it – 1/day ~ Gains the ability to cast a single standard, non-opposite spell they couldn't normally cast for the next 30 seconds. ~

Gains a second additional Specialist slot.

Stage Three: Virtuoso, Cost: +100 Table: 7

Gains 1 mana (only stacking with Expertise) off the first spell of each 5 minute period.

Gains a third additional Specialist slot.

May buy extra uses of "**I'll have a go at it**" for 30 points, max 2 additional uses (3 total).

Magic of the Blood

Only available to Nobles of the Blood, Ancient Folk, Elves, Draves, and Fairies.

The mages blood resonates with power. Be it the Sallow Blood of Nobles, the raw blood of the Ancient Folk touched by years of pacts, or the magic of the Elven Races that are made from magic. While learning magic was no easier for them, manipulating it was.

Stage One: Empowered Blood, Cost: 60 Table: 1

Gains + 1 Level of Casting.

Blood Sacrifice 1/day – Takes a 2 minute ritual. Allows the Mage to use their Blood to regain power. Up to 4 mana may be regained in this way, but costs 3 TBLP (casting stamina may be applied) per mana point regained.

Stage Two: Infused Blood, Cost: +50 Table: 5

The Magic of the Blood 1/day – May cast a single spell without using mana. Instead, it reduces the mage's maximum life by 3 per mana point of the spell. This life cannot be healed by any means except via a good night's sleep or Supreme Sacrifice. Additionally, temporary life cannot be used to absorb it, but casting stamina (and even live to minus) can. If this kills the mage, then a restore life will return them on 7/1, but they will be unable to cast spells for the remainder of the day (and cannot be healed above 7 life).

Blood Sacrifice may now be used to regain up to 8 mana.

Stage Three: Ritual Blood, Cost: +70 Table: 7

Blood's Gift 1/day – With 30 seconds prep may cast a single published 'self' spell on another willing individual. Other requirements for the spell must be met (e.g. for Embody Elemental the individual must have an elemental under their control). This costs the Magus 3 TBLP per mana of the spell being cast.

Blood Sacrifice may now be used to regain up to 12 mana

May purchase extra Blood Sacrifices at 40 points, max: 2 and extra Blood Gifts at 50 each, max 2.

Demonologist

This is not available to Goodly Characters. The wizard's talents are the result of demonic pacts, or perhaps bargains made by their parents for them. In any event, their knowledge is the result of a dark pact with the forces of the Abyss.

Stage One: Acolyte, Cost: 30 Table: 1

The Wizard gains their specialist glyphs as a result of bargains with different demonic patrons. As such, instead of learning them with teaching scroll/other means they may select them at the start of each day. They may never have White or Gold specialist Glyphs however.

A Demonologist can only use teaching scrolls made by themselves, as these represent their own pacts. Additionally teaching scrolls they make can only be used by themselves. Learning spells with points costs double.

Stage Two: Adept, Cost: +50 Table: 5

Demonic Bargain 1/day – May perform a 5 minute demonic ritual, striking a bargain with their patrons to gain knowledge of a single standard spell for the next hour. Again this may not be a White or Gold spell.

Stage Three: Disciple, Cost: +60 Table: 7

The Demonologist no longer has a teaching scroll cap.

Demonic Bargain may now be used to learn spells from the Advanced Grimoire of their own colour up to 10th level.

May buy extra Demonic Bargains at 60points each, max 2.

Private Education

Whether a rich Merchant's child, a Noble, or just someone that got lucky and knew an old mage, a privately educate mage learnt from a single master.

Stage One: Apprentice, Cost: 55 Table: 1

Gains an additional Teaching Scroll slot.

May choose to fill 2 specialist slots (if available) without the need for teaching scrolls. Once selected, these cannot be changed.

Understanding of Magic 1/day – Acts in a similar manner to a minor prayer, providing a one word answer about magical matters.

Stage Two: Student, Cost: +70 Table: 5

Gains a second additional teaching scroll slot.

1/week the wizard may use their "make slot" to instead return home for tuition in a spell. This allows them to buy a spell at a reduced cost of 5 points per mana point for spells up to 10 mana. For spells above 10 mana they cost 50points plus 3 per mana above 10 (e.g. a 12 mana spell is 56 points). This, however, costs them 250 grulls per mana point of the spell being learnt and must be signed on at the desk.

Stage Three: Scholar, Cost: +50 Table: 7

Gains a third extra teaching scroll slot.

Gains a second use of Understanding of Magic, and they now provide 7 word answers as per a major prayer. May buy extra Understanding of Magic's at 30 points each, max: 3

Towers of High Magery

The most common method of learning magic in the Empire, and even beyond. The individual is packed off to the Towers in Halgar, and their institutions across the Empire. Be it a wealthy family, scholarship, or scrapping through doing part time work making scrolls for the colleges, this is the classic education system for mages.

Stage One: Freshman, Cost: 40 Table: 1

Gains + 3 Mana

Can fill a single specialist slot with a standard spell of the wizard's choice. Once chosen cannot be changed.

Stage Two: Undergraduate, Cost: +60 Table: 5

Gains +6 casting stamina.

Now gains +6 mana (total)

Stage Three: Graduate, Cost: +60 Table: 7

Graduate Thesis – May select a single standard spell (chosen when purchased) to have written their graduate project on. Gains 1 mana off this spell, to a minimum of 1, non-stacking with any other mana reduction.

Gains + 1 level of casting.

Magical Manufacturing

Making Magical Scrolls

This skill allows the manufacturer to make scrolls of a magical nature and is gained at 6th level by Wizards.

The material costs for an attempt to make a magical spell scroll are as follows:

Spell Level	Grull Cost
0	100
1	200
2	400
3	600
4	800
5	1,000
6	1,200
7	1,400
8	1,600
9	1,800
10	2,000

- A wizard can only make scrolls of Standard spells that:
 1. He can cast; and
 2. Are of (one of) their own colours or Grey.
- A Wizard may only expend up to 250 x his level in grulls attempting to make scrolls per week. A 6th level wizard has a 50% chance of success, 7th level 60% and an 8th level wizard has a 70% chance.
- The life point loss incurred when making a scroll is equal to twice the tble loss normally suffered by the wizard when casting the spell. Thus, a normal 8th level Wizard would find it very difficult to successfully create a scroll of a 10th level spell.
- A spell scroll can be used only once and only by a Wizard who can read glyphs or a class with the relevant skills, such as a Pathfinder with the skills of Read Languages and Read Glyphs.
- The caster suffers normal life point cost as if they had cast the spell himself. A Pathfinder's level for casting is deemed to be his lower skill level in Read Languages or Read Glyphs.
- Wizards [and other mana users or magical creatures with a colour] cannot cast scrolls of an opposite colour of magic.
- A physical representation for the scroll needs to be made by the player. It should be of at least A5 size, with the spell verbal, followed by "Scroll do thy Work...(spell name)..." written in mana glyphs. The entire scroll must be read out to use it, thus discharging its power.

Weakness of Age [1 st Colour Onyx Wizard] 30pts Tb6	41
Well Worked Research [1st Class Wizard] 50pts Tb2.....	37

Acknowledgements

Based on previous versions by Mark Cox, Bruno Murray, and Jan MacManus.

Thank you to everyone that has assisted in updating this book and bringing more spells and abilities life. The Wizard class is often the most personal as each Character follows a different path and develops their own spells, so this has been no easy task. Hopefully this helps everyone embrace some new wizardly ideas and have fun casting spells.

Mana Glyphs

Letter	Mana Glyphs	Letter	Mana Glyphs
A	<i>ℓ</i>	N	<i>ŋ</i>
B	<i>ʙ</i>	O	<i>ʊ</i>
C	<i>ʝ</i>	P	<i>ʀ</i>
D	<i>ɖ</i>	Q	<i>ɣʔ</i>
E	<i>ɰ</i>	R	<i>ʀ</i>
F	<i>b</i>	S	<i>ʂ</i>
G	<i>ɣ</i>	T	<i>ʈ</i>
H	<i>ɮ</i>	U	<i>ʊ</i>
I	<i>ɪ</i>	V	<i>ʋ</i>
J	<i>ɰ</i>	W	<i>ʋ</i>
K	<i>ʝ</i>	X	<i>ɣʂ</i>
L	<i>ɮ</i>	Y	<i>ɮ</i>
M	<i>ɱ</i>	Z	<i>ʒ</i>

TH is *ʈ*

Additionally certain vowels that follow a letter can be noted with dots:

A is *ɰ*

E is *ɰ*

I is *ɰ*
